by carrier the pay would be young a med a month of the and to U.S.A. (ST.M) per year and to assemble class mall by the P.O. Dapti O age of printings to code. of the Canadian Dally Represented Associations in Committee Front Municipal of the Angle Surveys of Circu

The Brain Drain

Many thoughtful Canadians are worried about our "brain drain"—the departure for other countries, chiefly the United States, of many of our brightest and best-trained young

Canada is not alone in facing this problem. Indeed, for many countries, whose need for skilled seople is great and whose resources in this area are small, the situation is much more serious

"Impact," a quarterly published by UNESCO's tural science department, carries an article tural science department, carries an article Dr. Charles V. Kidd of the U.S. Department Health, Education and Welfare, in which he als with this question.

He does not favor restriction of migration.

"By one means or another, the state must persuade rather than direct, because people cannot be ordered to be intellectually productive," he

point seems well taken.

He recommends:

1.—Educating scientists to the highest availto level at level color sending them abroad
to country, the earlier people leave their mastriates.

2.—Fitting training abroad is
ning at home, so the

2—Fitting training abroad to national planning at home, so that careers are available in their homeland.

3—Establishing laboratories.

4—"In many of the richer and technologiy advanced countries, the simple matter of
proved salaries and facilities would turn the

This sounds like good advice. But not all of it applies to Canada. Our customs are so applies to Canada. Our customs are so ar to those in the U.S. that few Canadians similar to those in the U.S. that few Ganadians have much trouble in adjusting to living there. Paying our scientists the same salaries as those in the U.S. is not so simple, unless other workers received similar treatment, in which event the purchasing power of our dollars would fall and

purchasing power of our duties would be better off.

Dr. Kidd is probably right in his opposition to restrictions on migration. Still, there are some steps which could be taken and which could easily be justified. Where the state is could easily be justified. Where the state is appring not merely some of the costs of educating young Canadians, by subsidizing universities, but the bulk of these costs, by direct all to individual students, these students could be required to repay the nation by spending a predetermined period at work in Canada. Or students ed period at work in Canada. Or saudaseeking state aid to finance their higher educa-tion could be screened and this aid offered only to those believed likely to remain in Canada. (This, we believe could be determined fairly easily by a psychologist any certainty by a chologist, though not, of course, with

recrtainty by asking a direct question).
There is really no reason why the Canadian payer should foot the bill for the higher education of people who happen to be Canadians but who plan to enrich themselves, and the U.S., but not Canada.

Oops, His Error!

Ontario's fire marshal says that Ontario fire-fighters are not "lamebrained are wielders who spend between-fires time playing pinochle

and the annual Catalogue of Fire Chiefs convention at the convention at the convention of fire fighters improving their public image.

He set a poor example.

We have no idea how pinochie players will react to his remarks, never having met a live of the convention of the convention of the Commons of the Common of the Commons of the Common of the

the "Angry Taraparer" sounded off at Real Consetts. There is coulding me money as a tar-payer." he compliance midigly after he had been escorted out, "and as a paying" had disastle-rand as a paying 'and disastle-least cought to have the right to hoo for my money. Since that day, quite sedible heckling from the Public Gal-heckling from the Fublic Gal-ort the Comment's on the floor of the Comment's on the floor

Frankly, we cannot understand how any man who had never been introduced to checkers could ever qualify for the position of fire marshal.

heckling from the runne varieties of the MPs on the floor flowers at the MPs on the flow results of the MPs on the flow results. It has occurred regularly like the MPs of the M Everyone considers Egypt's pyramids to be the result of mathematical computations. So too the circle of stones in England called Stonemge; or the temples of the Aztecs. They all we a mathematical symmetry about them. In precisely the same sort of fashion, so has the honeycomb of the bees, the webs made by spiders honeycomb of the bees, the webs mane by space, and the organization of a termite's nest Who is more of a mathematician? A man making a six-sided structure, or a bee making one?

—Science writer and explorer Anthony Smith.

Pinch Hitting

Joyce Realty and the Oshawa Merchants have finally come to some kind of terms about playing their Eastern Senior Baseball League semi-finals, it would appear.

The two clubs clash in the third game of their three of five series at the Fairgrounds here tonight at 8.15.

Belleville had no problems in winning the series ope some time ago. It was a 15-1 score when Oshawa quit after

Some arrangements were made for the second game of he series to be played in Oshawa but Joyces were un-ble to get enough players for the trip and had to for-elf, deadlocking matters.

That is the way it stands right now, so tonight's winner will move to within one victory of a spot in the loop finals.

Joyces have the ability to beat the Oshawa boys — if bey can get the players out — but that has not been an may tank this summer. No word has been received here as to what is hap in the other half of the semi-finals, or even for sure feams are, or have been, playing.

At any rate, Joyces hope to prove here tonight they are a ng way from dead. We have had no word as to the fourth true, which should be played in Oshawa.

BROCKVILLE NEXT

The Jimiors played the kind of ball that they must to ay alive and knocked out than 4-1, making six of their is count in the secting department. Bob Ethier gave to club the pitching and his mates did the rest.

Brockville will provide the next opposition for but if the team continues to function as a unit, may be a long way from over here yet.

Meanwhile, the Ellis-Tweed B. and D. finals gain in induction in the induction of the ague brass, due to both clubs being in OASA playdowns. The Brockville-Junior series Will open here Wedday at the CNRA Park at 5.30 n.m. with the se-

Hold it, Mac, don't throw that little sunfish back in isgust — you are passing up a mighty tasty tid-bit.

At least such is the opinion of wildlife biologist J. E. Gage the Department of Lands and Forests' North Bay distric

He advises fishermen not to overlook "those little fin-nies", the 16 linch brook trout and bass, as well as the pan fish used, as yellow perch, rock bass, builheads and sunfish. There is nothing complicated needed in the line of tackle or bail, nor is there any special skill required to catch these sporty little fish which make such tasty

This, when filled, should be wrapped in wax paper and chilled until ready to cook. Cooking of the fills is an adjustment of cooking and each analyst has been a summer of recipes and each angier has his cooking to the cook in aluminum foll. This eliminates make, prayed to cook in aluminum foll. This eliminates make, prayed to cook in aluminum foll. This eliminates make, prayed has do much of the ofor which accompanies frying fish, and — the little lady will like this — it also saves extra serubhay of frying pars and plates.

Here is Mr. Gage's fish-in-foil recipe:

"Take one or two fillets according to size and place on ecc of foil about 12-inches square, add a few pieces of ion and other vegetables, season with salt and pepper, is ude a dab of butter and fold the foil, sealing the entire nitents in a package.

"Flace the package on hot coals after the campline has burned down, on an outdoor barbecue or in a hot overa. After about 10 minutes the top of the foll should be plerced to allow the steam to escape. Cook for another five minutes, remove from the coals and it is ready to eat right from the package or transferred to a plate.

Mr. Gage is enthusiastic about fishing for the "pan-frys". He says that "the eathing of a trophy sized fish is an event in the day of any angier's life but for consistent and dependable enloyment you can't beat the pan-size fish, for fun and good eating. The opportunities are may the fish are co-perative and the competition from puter angier speciesly with.

Those Plaza Gangs

In Toronto five youths have been given jail terms by a magistrate who avowed his intention of putting a stop to the hoodlumism of "plana

This is a start in the right direction, but ore you cheer too lustily please note the three cars.

Our courts frequently manage to get stern when crimes involving property are concerned.

This is the fault of the men who sit on the ch, not of our policemen or of our legislators. There is, however, one flaw in existing legis-lation—a court has recently ruled that the High-

way Traffic Act does not cover plaza parking lots. se thus become virtual sanctuaries for the

daring and foolish hot-r

Young people always like to herd to-gether and not all gangs are deplorable, but what may start out as no more than youthful animal spirits can easily degenerate into hood-lumism. Furthermore, today's youths are free of some of the inhibitions which restrained us in our youth. Increasing frankness and realism, theatre, on television and in everyday conversation, have made commonplace words

conversation, have made commonplace, words when see speken only in whispers or in whispers or in the country of one sex only. Despite all the talk about organised recreation, there are probably fewer opportunities for "innocent-fun" than there were twenty of thirty years ago.

All this means that young people face a more difficult take in amusing themselyes without annoying their elders. This should be considered and the control of the country of their people of the country of the needs to be qualified. Some fairly good citzens, skilled mechanics, engineers, teachers, doctors, lawyers, even magistrates and judges, used to associate with their peers in pool halls and on street corners in their youth.

what is needed is not some sweeping con-demnation of all who chance to spend their leis-ure time in certain areas, but a discriminating campaign against certain practices.

campaign against certain practices.

If the courts would start by attempting to discourage brutal crimes against the person, by making the punishment lift the offence, we might get some place. Weed out the minority of those who think baiting and bullying individuals is fun and the rest of the plaze gangs will, we suggest, be no worse than the gangs who used to shoot snooker and lap up malted milks in our own youth—annoying enough to those adults
who were sure there ought to be something better for them to do but really no problem for the policeman on the beat.

To a Wild Rose

Gaylord Richards grabbed Mrs. Catherine Looney and kissed her.

Mrs. Looney, (that is her surname, not a

description of her reaction to a normally pleasble event), sued for \$35,000.

Gaylord, (that is his Christian name, not a

reference to his social deportment), blamed the whole thing on Mrs. Looney's perfume. She had doused herself with "To a Wild Rose." Gaylord found it irresistible.

Thank Heaven she had not chosen "My Sin"

Plaything."

She might have been suing for much more han might have been sung for much more than \$35,000—without much chance of getting any compensation. For a Los Angeles Superior Court jury decided that a "friendly kiss" was

Court jury decided that a "triendly kies" was no more than an aerospace plant worker like Mrs. Louney might reasonably expect if she would expose a plant guard like Richards to the lure of "To a Wild Rose."

The jury's decidion was unanimous. Yet the same conclusion must have been reached by different routes. Five of the jurons were men, obviously anxious to protect themselves against a susceptibility to perfume becoming too expendence. Seems of the jurons were women, perfangle kinding about the misinterpreted as universal amongst those of her sex. It would be too bad, they may have slet, if none of those expensive perfumes ever produced the desired results.

Second Wedding Shouldn't Be a Big Splashy Affair

- Do I still wear my wedding rings on my left hand?

 If I were to go out with male friends, do I wear my wedding rings?

 If a widow would become angaged, what does she do with her first rings?
- what does abe do with her first rings?

 4. If a widow gets married again, is proper to wear the wedding hand from her first husband?

 5. Is it proper to have a fairly large wedding (100 to 150 guesta), if the groom is a ingle man and would dding? WIDOW IN DOUBT.

EMAR DE DOUWY ...

Pinch Hitting

Eilis Juniors took a major step down the playdown tra Port Hope Monday night. They beat out a powerft haws club that was highly favored to eliminate Bell-le efter that 10-3 first-game win.

That's past history now, however, and the local sopen modher chapter here tonight against Brock-a. Genne time is 5.30 at the CNRA Park and it it'de not draw hig crowds for this said any other new which follow, then people here are just not in-

The Juniors have the kind of club which excites the grant look terrible one minute, acting like appet pre-teen criers, and an inning later turn into fine a group of never-say-die athletes as the city ha in some time.

They have come a long way since the season op-ened here several mostles ago, but just how far they go will likely depend a great deal on their will to play all-out ball, all the time, and to stay in the game.

And after that Oshawa series, the boys must not e Breckville toe lightly. Every game from here on is for a top team effort.

Go get 'em, you tigers!

Two letters were received here yesterday in regard the Peewee Merchants, this city's representatives in OBA Peewee playdowns.

he OSA Peewee playerwas.

The boys, conched by Moe Hunter, lost a tough series to Peterboreay recently and various reports from those who saw the final game in the Littleck City indicated that the Belleville boys were beaten as manch by an unspire as by the opposing team. The series was fee the Eastern Outsire champlesship.

However, the point is that parents of players of the Merchants are very proud of the team, player coach, and manager, as well as the BMBA executive which handled the organization of the ciub.

The fact that one letter writer did not include a sig-are prevents it from being published in its entirety-second letter is published on these sport pages today.

The unpublished letter observes that the "boys were called all-stors and as far as we are concerned they are still all stors, and champions, too, which we think they should be."

Another paragraph says the boys "could not have ad a better possible coach than Mr. Hunter, and we want be thank him for a wonderful job."

Thinks were also given to the city merchants who sponsored the 12 and 13-year-old boys, and whose names were preadly displayed on the backs of the players'

Still with the minors, that was quite a situation which pped up in Hamilton last weekend.

Belleville's Peewer, Baniam and Midget softballe made the trip to play softball exhibitions.

When they arrived, three Hamilton baseball teams were ready to start firing "hardballs."

There was a mismderstanding somewhere when ar-rangements were made by phone. Two of the clubs made the most of it, however, reaching an agreement to play half of each of the poewee and bantam games softball and half beseball.

Hamilton Midgets refused to go along with the arrang ment, however, and rather than come home without pla-ing, Bellevilla's softball Midgets agreed to play baseball.

Hamilton whipped the visitors 15-2 in this game but our estimation it was the local club which won by a is margin in the sporismanship department.

Even the wrestlers are looking forward to a long holl-weekend, so it would seem.

"Apparently none of the top-notchers will be available this weekend, so the Toronto promoters ask us if they could cancel out for this one night," said Surrows, "but we will be back in action the following Triday," he added.

So, the next wrestling match here will be on Frid

By the way, Burrows also points out that hockey clubs or organizations wishing to secure ice time here on a regular basis this winter must have written appli-cations in his hands by September 3.

Fears World Famine
World famine is coming.
So says Dr. Raymond Ewell, scientist-economist from State University of New York at

"The most colossal catastrophe in history" is

"The most colessal catastrophe in history" is the way he picture event only a decade sway. This means that famines tool will outrank that of past wars, the awayes of the Golden Borde of Gengha Khan, the dead reaped by the Swatiths, the slaughter of the thirty years of religious wars which hied Europe white. The sithiring pestilence of the Black Plague will pale into insignificance. As for famines of the past, even those which have racked India and Chilas from time immemorial, they will be over-shadown. from time immemorial, they will be over-shadow-ed, for at the most they involved only ten million persons. The famine Dr. Ewell envisages will ip the guts of a billion.

grip the guts of a buildon.

There is one hope of avoiding this world-abking fate, says Dr. Eweil. It is the production of sufficient fertilizers to increase the yield of food in Asia, Africa and South America.

The converger are the production of the said o

Two countries are now embarked on pro-test which might help avert this tragedy. One Russia, where Khrushchev has ordered top priority be given to the construction of new

fertilizer factories. The other is Canada. The success of one company in utilizing a new process in the procompany in utilizing a new process in the pro-duction of potats at Esterhasy in southern Sas-katchewan has sparked interest by other indus-trial giants in the development of other potash deposits in that province. Saskatchewan, it is said, has enough potash to meet word needs for year—but this estimate, of course, was made on the basis of effective demand, of the demand of outsomers who could afford to pay for it.

or customers was could arrord to pay for it.

The nations which will face famine/will
not be able to pay. Dr. Ewell made that plain.
Balvation depends not only on a great increase
in the production of fertilizers, but in the free
efft of these fartilizers that practice transfer.

gift of these fertilizers to the needy lands. Russia may give some, though Khrushchev's concentration on the production of fertilizers from the threat of famine in the Soviet Union itself. The Saskatchewan developments, since they are being undertaken by private firms, will be kept in line with effective demand, which will be kept in line with effective demand, which will mean that only a minor portion of that prov-ince's potash resources will be exploited unless ional agencies stand ready to foot the

Dr. Ewell estimates it would cost five bililon to build enough plants to produce an adequate supply of fertilizers—a huge sum, but "about a tenth of the cost of putting a man on the moon" and a drop in the bucket compared

"I have come to the conclusion that an agreed solution, at least for the moment, is out of the question," Mr. Thant says. It is a verdict in which most informed ob-

servers will concur.

This means it is time for a decision.

This means it is time for a decision.

Are the nations of the world, and particularly
those which have contributed men to the UN
force at present in Cyprus, prepared to sustain
their effort, certainly for months and possibly If not, perhaps it would be best to abandon

if not, pernaps it would be best to abandon the attempt now, rather than to pour more blood, sweat, tears and money into the project.

The Congo provides us with a yardstick. There the UN labored for years, finally withdrew

cause of lack of funds and left conditions only slightly improved from those existing when the e-making program was commenced. Were results there worth the effort?

were results there worth the effort?
There will be some who will say yes, who will argue that the groundwork has been laid, through UN efforts, for an eventual solution and that even if no permanent gains were made the Congolese were at least provided with a few

Congoises were at least provines with a lew-years of comparative order.

The answer to this pies, of course, is that there is no way of knowing whether the Con-goises might not have exhausted themselves if there had been no check on their activities and have now been prepared to accept a workable

The United Nations should make a clear-cut. ision on the alternatives, in the light of past experience and future probability. Are peace-keeping efforts worth while even if they have to be abandoned before political abability. Reeping efforts worth while even it they have to be abandoned before political stability is assured? If not, in the case of Cyprus are all the nations, or enough of them, ready to underwrite the work in Cyprus as long as this may be necessary?

A total of 13,413 squar cheese, and 9,299 large cheese were offered on the Belleville Cheese Exchange this week. The average price for white theese was 37.9 to 38.2 cents and for colored 38.3 to 38.5

Small Cabinet Seen as Key To Efficiency

BRANTFORD (CF) - Three contenders for the Ontario Libform here Wednesday night.
Robert Ni tso, MPP for Braut, saw need of reforms which wood lincules a smaller cabinet and "an efficient Liberal government with a plas for the future." He said to first problems would be to cope with plas for the future. He said to first problems would be to cope with one of the future of the

ical revolution.

Mr. Nixon suggested fewer cabinet ministers and introduction of parliamentary assistants. He said lack of efficiency in the present Conservative administration was evidenced in collusion in paving bids. He also advocated more cellities for adult training and

NNIPEG (CP) - Keith s and Jim Hunter are

dians.

The pair, both active in the Greater Winnipeg YMCA, spent two weeks this summer teaching swimming at a remote Indian camp in northern Manitoba.

mer.

Keith, 19, is a second-year arts student at the University of Manitoba and Jim, 11, is in his last year of high school in the Greater Winnipeg city of St. Vital.

of St. Vital.

They volunteered their time for two weeks in July to work without pay at a settlement of about 1,000 Indians on the Island Lake reserve, 250 miles northeast of Wiminpey.

Although hampered by poor northeast of Wimipeg.
Although hampered by poor weather and lack of facilities, the pair taught classes of 40 to 30 young Indians. At the end of the stay most of the pupils bad learned to stay affoat and about 10 had become fairly good swimmers.
FEW CAN SUPPLES

Athough the Indians in the area are fishermen and trapers who depend largely on the water for their livelihood, they don't think of the water as a source of recreation and almost none can swim.

But Keith says that reports from the camp since they left indicate their young pupils indicate their promagn pupils and the same they have because.

arom not emps since they left be a remained by a left be a remained by a considerable and a remained by a remained

Both boys are keen to back to the north next s

Mrs. Guarden De Company of Mrs. Guarden De Compa nipeg YMCA classes.
"They poid attention well, and they learned quickly."
But to get a good swiming area, Keith said, instructors and pupils had to cross the lake by bost to an island. Several days during their two weeks the lake was too rough to be crossed.

LTD. PINNACLE AT VICTORIA WO 8-5154

Pinch Hitting

Like a rare, wild creature in a see, the Arges make all kinds of noises every year, threatening to win the Eastern Football League title and usually the Grey Cup

The Argo animal ests football coaches at a quick pace and spits out all-star players and potential greats at a fan-tastic rate.

Yet, stealing a page from the New York Metz' base-hall book, the club manages to draw excellent crowds and make scads of money despite losing games with ridiculous regularity.

Front-office switches seem to make about as muce erence as an extra cup of water would in Lake Ontari

Matters were not always like this, and the Toronto boys in blue have the record books to prove it. Argo-have captured the Grey Cup on ten occasions, the last of which was in 1952.

Since then the team has, up until the beginning of this son, played 152 league games, lost 97 of them and won That kind of hall has given them last place seven

Last year was a good example. The team won a grand total of three games while losing 11. To make it worse, one win was in the opening game, when clubs are more or lass "cetting," and another was in the final game, when it did not matter a darn anyway.

Still the club averaged 26,300 fans per game, an attendance-mark beaten only by the British Columbia Lions, first place finishers in the Western Conference.

Toronto fans howl their protests, sell their season's tickel through newspaper ads, boo the Argos, cheer the visitor threaten to stay away or to "hang the coach"—yet the still poor through the turnstiles at a money-making pace to all connected with the football team.

Getting good football players does not seem to be the blem. Keeping them playing good ball, keeping them liky-or keeping them at all-does.

STREAM PROPRIES THE STREAM PROPRIES AND ADDRESS AND AD

Cookie Gilchrist and Tobin Bots are two more players left the Argos and went on to enjoy tremendous sea-with other clubs. In the past 11 years the list reads an all-data lineup.

are an altests interpo.

Not all have excaped. Some have come in, fellows
like leakle Parker, last year's chalce to "lead the Argor
for the first point of the first point of the had stayed
hashiby had it's pretty hard to swallow. Parker has
shown for finishes of the precisions which makes his
first highest all-time scorer in Canadian football with over
1970 points. Even with the help of fellows like DoveMann and Dick Build, he Argor full to every anymohad their own, trushine fam.

Ears such as Dick Posts and Bobby Kunts have been skilled for disagreeing with third bessea. This happened couple of years best and at the time massing diversion. We Hayman bold the world, piete to the season, both we Hayman bold the world, piete to the season, looked in Gerry McDougall, Dec. (Gilcherit, Staths and Mann. HI was, the part of the teason must have been pretty bad, or the club started the season by long its first three most and if was a year for firinge, suspendens and conde-rications when the life the decide is long way from the

Every few years the team hangs onto its chance to grab a spot in the big game until near the and of the season, before finding some strange way to hlow it all.

In 1955, Argos had an 18 point lead over Montreal at half-way point in a sudden-death eastern final. Alou-is came back to beat them.

tes came back to best them.

In 1984, with fonce the new quarterback, the Arges finished in first place and held as clab-point less over Olders mileway through the third quarter of the second gene in the twe-game existent final. For some strange reason that so was has been able in Forme well writer and the second of the second control of the second c

Argos came right back the next season, too, blew an 18-point lead in the second game of the Eastern finals against Hamilton, then failed for a second time when Mann, the best kicker in Canadian Ball that year, saw his dying-minutes kick boated back out of the end mone, forcing over-

of course, Argos lost it in overtime.

Don't look for anything different this year, either, Argos appear to be in for another season of being game's richest lesers.

THE BEST 30 DAYS OF THE YEAR FOR LAWN CARE

AND FERTILIZING!

September is the cool, moist, weedless month when esfablished turf grasses make their most important growth, setting roots and storing up energy for most year. It sate by far the best time for new seeding and re-seeding, the property of the pattern of the party of the pattern is the cool deway nights — warm sunny days the natural time of the year to sow.

Junior Golf Field Dwindling

By W. R. WHEATLEY

"MARLOTTETOWN (CP)

The Canadian junior golf championship bournament down to
the quarter - finals, offers a
feature - hilling match offers
in the meeting between Wayne
McDonald of Turonto and Jim

sichement of Twentee and Jim Seed of Vancouver.

Zisswhere in the fast-dwind-ling field are Jack Bryant of Hallitz and a few capable stepson related as 500 to 100 to 100

and 1.
Seed likewise had to put on a back-nine show before disposing of Pierr Rossignol of Bathurst, N.B., 2 and 1.

Bathurs, N.B., 2 and I.
Bryant, easily the Maritimes'
devortie to take the title, saw
divelocie lead all bot melt
away in Wednesday's second
cound before he pulled out a
one-up win over Andy Black of
Regins. Bryant won 3 and 1 in
the morning over Rick New of
Toronto.

McDonseld is one of three Toronto-area representatives effile

McDonaid is one of times To-notoarea representatives still lett in the tille hund. Jim Short advanced to the quarter-finals with a convincing 5 and 4 win over Chris Seaver of Halifan and Gerdon Stollery fought a birtle dnel with Eon Bowles of Christistown before winning

Charlottetown Triumph

ister Lester Pearson and the premiers of Canada's

Meeting at Charlottetown, Prince Edward Island, they have agreed to "repatriate the condments of the nia under which future amen British North America Act will be made in Canada, by Canadians, for Canadians. When the details of the formula are worked out, the British House of Commons will be requested, for the last time, to amend the B.N.A. Act—so that future amendments will be the responsibility

of Canadian governments, provincial and federal. It may be argued this change is more one of appearance than importance, since we find it difficult to believe that the British Parliament would ever refuse to accede to a proper request from Canadians for a change in their constitu-

Appearances, though, are important. It puts us in a bad light when we have to ask the leave of another sovereign nation to alter the rules by which we govern ourselves. Some out-siders make the mistake, not unnatural, of assuming this means that Britain still plays a summing this means that britain sun plays a supervising role over our machinery of government. Then, too, remote though the chance may be of Britain refusing to make a change which Congdians want it still is a technical nossibility. It is time this was eliminated.

One feature of the preliminary agreement for the "repatriation" of the constitution which appeals to us as strikingly fitting is that the formula which brought the prime minister and premiers into agreement should have been devispremiers into agreement should have been devis-ed by Hon. E. Davie Fulton, when he was minister ed by hold. E was stitled, when he was minister of justice in the Diefenbaker government. There is something heartening, in these days when we hear so much of the many things that divide us, in finding a Liberal prime minister, four Liberal premiers and two Social Credit premiers all accepting a proposal by a Progressive Conserva-tive who no longer holds office. Perhaps, Pre-mier W. A. C. Bennett of British Columbia deserves an extra cheer, for Mr. Fulton now leads the Progressive Conservative party in that prov-ince and thus the fact that he devised the formula for agreement in this important matter may redound to his credit in provincial politics.

It is devoutly to be hoped that Prime Minister Pearson was right when he predicted the working out of details in the plan will present no

Death of a Hero

Set. Alvin C. York is dead.

Of all the heroes of the First Great War, is more familiar to most Canadians, a fact none is more familiar to most Canadians, a fact which may be a greater tribute to the genius of his countrymen for publiciting their great men than a sign of York's pre-eminence, for every nation which took part in that bloodbath had its best and bravest in the conflict. SUII, no matter what his nationality, any man who single-landeded kills 36 of the enemy and captures 185 others in a single incident has earmed the place in the annual of war.

Unlike many another man who has served his Unilise many another man who has served his country well in times of battle, York was not forgotten when peace returned. His fellow residents of the state of Tennessee presented him with a spacious home and land. There he lived simply, in a tiny hamlet, until crippid by lilines. Aug. 29 he entered a veteram' hospital at Naskwille for the brited and last time and four

Many who survive will find it difficult to realize that over half a century has passed since the First Great War started; and a quarter of a the First Great War started, and a quarter of a century since its successor commenced. If the present shaky peace is maintained for only an-other month, the span between the start of world wars will have been lengthened. We expect that 6gt York, like aimost all great fighting that 6gt York, like aimost all great fighting that for the properties of the started of the which have the properties of the world of the brave men, bought at the risk of his life.

There's no point in being young uncon-solously, and the young are necessarily young unconsciously. The only frum in being young is knowing you are young, and glorying in the accordingly; and no one ever did that. In fact, you can't begin to do it until you're old.—E. V. Luc....

Race Wars Are Foreseen

to say this, but I think it at the end of Canada. I and to say fifth, loc I similar in meant the end of Canada. LOANS FOR STUDENTS

Guaranteed by the Government of Canada

Purpose: The purpose of the Canada Student Loans Act is to facilitate bank loans for students who
need financial help to continue full-time studies beyond secondary achool lovel at Universities and other odcustional institutions.

Who can apply:

Any Canadian citizen, or anyone resident in Canada for one year who intends to live in Canada after completion of studies, may apply for a loan under the Act, An applicant must be enrolled or intend to earn! as a full-time student at air float-action listimition approved by provincial authorities, and must meet the standards of scadenic qualification and financial need established by the student loss authority in the Province in which he applies.

Amount of loans: Depending upon individual circumstances and financial need, loans up to \$1,000 a year Depending upon individual circumstances and inancian need, iouns up to 31,000 a year may be made, with a maximum of \$5,000 during a student's academic career. The Provincial Authority receiving applications and determining eligibility will issue a certificate to each eligible student stating the maximum amount the student may borrow. This Cartificate of Eligibility is required before a student can arrange a Govern Loan with the bank of his choice.

Repayment: Interest-Free and Delayed Repayment Period

To assist students, the interest on loans during the period a student continues full-time studies, and for six months thereafter, will be paid by the Government of Canada. During this same period no repayment of principal is required, nor will any service charge or fee be payable by the student.

Method of Repayment

Borrowers will begiff to pay interest and to repay loans six months after they cause to be full-time students. The current interest rate to students is 5½ % per annum. Normally the repayment period will be five to ten years. Borrowers have the right to repay loans in part or in full at any time without penalty.

In the event of the death of a borrower responsibility for repayment of the loans will be assumed by the Government of Canada.

Where to apply: A list of approved educational institutions in Ontario is contained in a brockner new available at banks, universities and other educational institutions. Ontario residents plasning to attend one of these institutions should apply directly to that institution for a Certificate of Eligibility.

Ontario residents planning to study in other provinces or countries should direct enquiries to: Department of University Affairs, Suite 600, 344 Bloor Street West, Toronto.

The above notes are based upon the Canada Student Loans Act 1964 and are for reference only.

All applications and loans are subject to the full terms and conditions of the Act.

CANADA STUDENT LOANS ACT

NOTE: Please send in the above coupon before September 8, Registration for all Night School Classes will be as follows;

TENDERS WERE CALLED today for the first phase of a \$50 million office-space addition to the Ontario Legislative Buildings, at Queen's Park in Toronto. The project includes four high-rise towers, linked by a two-stoicy central core. This photo shows a model of the project. The existing Egislative Building and the Whitney Building, (East Block), are at left. At extreme right is the extension to the Treasury Building.

ANOTHER WELL was uncovered at the site of the new Ontario Intelligencer building by workmen this morning. It is located at the subtract in the site. An earlier well was discovered on August 13th. It was located in the north-west corner of the site. It has since been filled with concrete. The well discovered this morning will receive the same treatment.

Pinch Hitting

if either Ellis Juniors or Breckville Diggers have an as about going all the way to the OASA junior "A uplouships, they had better prepare themselves to a few early sid-week games.

The way we understand it now, that is what the post sement in the series opener was all about here Wednesday

Conveners Cliff Belch at this end and Harold Lacer, at the other, had arranged the series dates.

The conveners of the series dates.

These dates were set, by phone, early Tuesday more The Brockville team was notified of the arrange-ments and promptly told Langaberr that it could not make it to Belleville during the week for an early

Brockville said that if they were forced to come to Belleville for an early game, then they would schedule their home games for 5.50, too, and Ellie' would also have to face an early game Friday.

Beich agreed that the Brockville club was within its that but held it to be a rather underhanded move, seeing Erockville did have lights and could play late games and leville could not.

An Ellis coach, Stu Eurhead, agreed to the Sai urday game here as long as Belleville could go to Brock-ville for a night game. Langabeer assured Belch that he would arrange for the second game in Brockville Tuesday, under the lights, at 3.15.

So this is the way it goes, as of now. Both clubs gave ground to get their own way. Whichever team wint this series may not find the next centre quite so agreeable.

We realize it is not easy to get players off work to st carry commentments and with school coming up, too, will present a problem.

If the teams can agree to play all night or weekend nes, more power to them but we would like to offer a gestion, to all concerned.

Why not get these things ironed out in the first place before annuaning dates, times or places, and then hav-ing to change them?

Anyway, the opening game of the set goes here nerrow afternoon, at the CNRA Park, at 5.39.

If the action is as hot on the field as it was off, the ies will be a dandy.

Bob Ethier will get the pitching nod for Belleville and we understand Brockville has a chucker of no little shilly. It shapes up as a tight meund duel where hustle and the breaks mean a lot.

Fall evening and a fast braic make for good harmest raining and the Quinte Priving and Holm Glinh has another seculient certain due to the Quinter priving and the Quinter proude at 8.00. Elderly Persons Called Upon for More Service

LONDON, Out. (CP) - On tarlo's elderly 'persons we called on Wednesday to become the "architects of a new soc understanding" if they are hey once held in society.

Dr. E. M. Dutton, assiste Dr. E. M. Dotton, assistant adviser to the community programs branch of the Ontario department of education, told the sixth annual convention of the United Senior Citizens of the United Senior Citizens of the United Senior Citizens and public attention is directed largely to the young, productive element.

element.
The 200-odd delegates to the convention represent some 15,000 elderly persons in the

province.
Dr. Dutton told them: "So-ciety has lost its awareness of the value of its older people and has turned them out to pasture where they are rejected by the society in which they were the leaders a few short years ago."

years ago."
If elder people were to de-velop a new social understand-

Shades of Eichmann

When agents of Israel kidnapped Eichmann in Argentina and transported him to Israel for trial for mass murder, they established a dangerous precedent.

There were legal experts who pointed this out at the time of Richmann's trial, but public opinion, holding quite rightly that Eich-mann deserved to die, did not bother overmuch about the means used to achieve this end.

Now we find kidnapping used in another case in which the nature of the accused man's alleged crime makes it certain there will be en-raged protests against the manner in which he

Dennis Arthur Higgs, 32-year-old British-Dennis Arthur Higgs, 32-year-old british-born former lecturer at a South African univer-sity, was found bound and blindfolded by police at Johannesburg. They were exting on a tip from a telephone caller. The South African police were very pleased to find Biggs. They wanted him to answer a charge of being an accessory before the fact of the murder of a 77-year-old woman when died in an explosion in the Johannesburg rulleway attain on. Min. 2 hannesburg railway station on July 24. Higgs, though, was far from delighted. He said he was kidnapped from his home in Lusaka in Northern Rhodesia by three white men.

Justice Minister Balthahazar Vorster of South Africa made two announcements. south Arrica made two announcements. He said the British embassy was asked to accrtain whether there was any truth in the assertion of Higgs that he was abducted. He also said South Africa would ask Britain for extradition of South Africa would ask Britain for extraction of Higgs, something which would appear to be quite unnecessary unless he had been kidnapped in Northern Rhodesia, still nominally under British control although slated for independence.

The British will probably be quite stuffy The British will processly be dutie sumly about the whole affair, and well they might be. At the very least, if they consent to extradite Higgs for trial in South Africa as an accessory before the fact of murder they ought to insist on a reciprocal extradition of the three white who spirited him back to South Africa, in order that they may stand trial on charges of kidnapping in Northern Rhodesia. Something needs to be done to make unpopular this intru-sion of private enterprise into the field of the administration of justice.

There is almost nobody whom some government, somewhere, would not like to try for some misdemeanor or other.

Zwick's Island Desert

A famous cartoon of a few years back wed a man, dying of thirst, who had crawled through the desert to a refreshment stand. He was complaining because the stand did not have his favorite flavor of soft drink. Here's a switch —he crawls to the stand, and finds the waiting line so long he has to crawl on to the next stand.

The switch version was just about what happened at Zwick's Island recently. Thousands of people spent a hot afternoon in the park watching boat races, but the city-owned, privately-run mt stand might as well have been closed as far as many in the thirsty crowd were concerned. There just were not enough were concerned. There just people working at the stand.

SMASE HIT

conservation of the Codemon for the Pinal clincher that people want to see and hear for themselves — satisfied no longer to hake television's suspected word for it on matters of national importance—has been the crowds that daily, wait, bour after hour, in queues in the corridors of the Centre Block for the newarvatern and seats in the public galleries

people working at the stand.

One person waited 48 minutes in line to get a sort drink, then left the line before he was able to get it. Another, waited about fifteen minutes—then saved time by driving downtown.
This is no reflection on the people working in the stand. There are six service-windows, comity live of them ones, on the down to

This is no reflection on the people work-ing in the stand. There are six service-win-dows, (only fire of them open on the day in question with probably fewer than five people working inside.) The service would have been te, probably, if there had been a dozen people working in the stand

The stand is owned by the parks board, and the private operator has a monopoly granted by the parks board. Surely, the Parks Board is in a position to demand that the stand have a large enough staff to keep up with the demand

Failing this, one or more drinking foun-tains in the park would help. There is already a two-inch water line laid from the nearby puri-fication plant to the refreshment stand.

It isn't things like the Freedom From Hunger Campaign which are going to free the world from hunger and poverty. In the long run it is the wealth-creating investments and partner-abjec created by individuals with confidence in each other which will make the greatest impression. - Prince Philip.

Ottawa Offbeat Politics 'In-the-Flesh' Newest Popular Pastime

By RICHARD JACKSON From The Intelligeneer's Ottown I

From the histiligeneeth oftener Bureau.

OTTAWA — Outli to be it in pin an antier of firmmer, never

410-MILE POWER STUDY - The Manitobe and federal governments are paying for a study of the 410-mile Nelson River on a 50-50 basis. The projected cost of developing the river for power is \$1,000,000,000, slightly less than the cost of the St. Lawrence Seaway. Planned are a series of eight generating sites and dams along the 712-foot drop of the river.

GO-POWER -- A surveyor takes a long look at a section of rapids on the Nelson River in Northern Manitoba. The drainage system and its surrounding area is currently under study as a pot opment sits. The provincial government hopes the power will encourage industries to go speed up the development of timber and mineral resources there.

Pinch Hitting

Sandy Koufex's iriust arm misery puts the cap, or rhaps we should say bottom, on a horrid year for the se Angeles Dodgers.

Sandy had piled up 19 victories on August 16. not pitched since.

Doctors have said that surgery is not necessary, a that complete rest for the arm is the only thing it will help. Korfax claims that the inflamed left elb does not give him much pain "except when I throw."

That is a protty big "except" for a man who by to become the first pitcher in baseball history a n centract for \$190,000 next year.

Koufax is undoubtedly the finest pitcher in the sport lay and one of the greatest in the history of baseball. has three no-hitters, numerous strikeout records, an ex-lent exmed run average and many other such credentials record. It

His 13 victories by Mid-August pointed toward a cases in which Eoutax would win at least 25 games with a club going newhere fast.

Now a team physician says he should not pitch again this season.

Konfax has not given up hope, however, saying, "can only wait and see what is going to happen." To doctor says he houst not even attempt to pick up a base ball again for two weeks.

The pill has to be a hitter one not only for Koufax to swallow but for his mates as well.

And, as surprising as this may seem, for other Na-tional League clubs too.

The Dodgre case is the league's number one gate attraction. Attendance rises saywhere from 3,000 to 10,000 when he is scheduled to light—at any park in the league. These are the kind of figures which make cases to club owners, over in Konchu walks in to their park and tossess a lwo-blitter at their ball club, which he sheem to dwwith such regulatry.

This is a good reason why Koufax will be shooting for the \$100,000 to play for the L.A. squad next season, even if he does not pitch again this year. He has had arm prob-lems before but when a new season gets under way Sandy always starts firing peas past opposing batters at a fan-

Great' pitchers down through the years, such as Bob Feller, Warres Spahn and Hal Newhouser, have often been referred to as hundred-grand performers; but none have ever had that \$100,000 figure on a contract line.

Bob Feller, the great Cleveland are, carned nearly \$100,000 for pitching baseballs in the 1947 season, because of his ability to pull fans through the gates. He had struck out a record 246 batters while compiling a 26-15 won and lost mark during the 1946 season.

Cleveland paid Feller about \$70,000 in straight salary another \$25,000 or so through an attendance clause his contract in 1947.

The 100-grand mark is a magic number reached by only five players in straight salary in baseball history. All five have been slugging outfielders, such as the current pair of Willie Mays and Mickey Mantle.

The Dodgers are paying Koufas something \$42,000 for this summer's work. And this is a promise figure after a spring argument between 8 and L.A. vice-president "Buzzie" Bavasi.

There was little doubt in the minds of baseball men, prior to his latest arm problem, that Koufax would have got his \$100,000 come the spring of 1965.

And the "smart-money" boys are still of the opinion hat come next February, one Mr. Kenfax, providing the nedics give him a green light to cut loose in spring raining, will make baseball history once again.

On that occasion he will be using a pen, rather than aseball, and a little piece of paper called a contract.

Kathy Nolan Drops 35 Lbs. From Her Top McCoy Weight

By BOR THOMAS

TOLLTWOOD, CAP — Yor'd scarced y re or get 1s a these convey y re or get 1s a these convey y re or get 1s a the second y re or get 1s a the second y re or get 1s a the second y red of the year of

Wave in Broadelde.

Our subject today is Miss.

Noian, and the difference in her is more than a change of cotume. For one thing, ahe has a
dropped 35 pounds from her boy McCoy weight, down to a slene

of 97, And there's a new cuberance which she didn't possets during the latter stages of her fireyear run in Real McCoys.

LEADER OF WAVES

Kathy plays a nary licutesant, leader of a group of Waves
ant to a Pacific island to take
over a motor pool. It has been
called the female counterpart of
McHais's Nary, from the same
universal City stable, and in
Universal City stable, and in
converse of the converse of the
some backgrounds. Kathy is
cornying the heaviest load of

The "Friendly" Moira?

We call our city a "Friendly City" and it is properly named, but tourists coming from the west would not call it that when they get an unfriendly whit of the Moira River while passing over the Lower Bridge.

ever the Lower Bridge.

In many years vitizens and visitors have mere seen a more disgrapeful sight than the river from the lower bridge to the GPR rulway bridge.

Bursly, there is something which can be done to take away the words, the muck, and the garkage that is so prevalent. Vandais have dumped plent tables and park garkage cause into the river and no confided has stand the time to see they are returned to their proper

Anything that can be thrown finds its way into the river, even garbage that misses the regular pickup. The current in the river is at a lar pickup. The current in the river is at a low point and therefore the stuff that is thrown into the stream simply settles to cause a more

unsightly sight. not know whether the Harbor Commission or the Corporation should be responsible for remedying the condition existing, but surely something can be done before freeze-up comes to clean up a disagreeable condition.

Two Distinct Problems

Prime Minister Lester B. Pearson says that the Federal Government has not given any indi-cation that it will accept any reduction in its pre-sent rights if the Canadian constitution is "repa-

A Quebec city newspaper has quoted Prem-ier Jean Lesage of Quebec as saying that an agreement by the provinces on a formula for refer Jean Lossy.

Agreement by the provinces on a formula for the partiation of the constitution depends on a satisfactory revision of the distribution of legislary. Since the powers the powers the powers that the powers th

tive powers.

If Premier Lessge is taking this attitude, he is wrong, Prime Minister Pearson, is right. "Repatriation," merely means that the michod of amending the constitution will be changed, vesting the authority to do so in Canadian bodies, rather than in the British Parliament, as at present. It will seem obvious to most that no reasonsent. It will seem obvious to most that no reason-able man would consider that an alteration of the method of amendment should be tied to the

the method of amendment should be ted to the approval of any specific amendments.

One would not expect Mr. Lesage to agree to any change in the method of amending the constitution which he thinks would make it more difficult for him to later obtain the amendments

With that proviso, any attempt to link a change in the method of amending the constitution to any specific amendments borders on political blackmail and should be resented by all.

Clear-Headed Lawyers

The Canadian Bar Association, meeting in Montreal, defeated a resolution aimed at the elimination of international labor unions in The rejected motion was introduced by Gen.

J. A. Clark, a Vancouver lawyer, who saked why there should not be assurance that trade unions operating in Canada are under Canadian juris-

It was a good question and deserves an answer. That answer, we suggest, is that, in our present economy, unions are the natural antagonists of companies and that unions and companies should operate under comparable laws. If we are going to insist that the full control of any union operating in Canada should be in the hands of Canadians, then to be fair we shall also have to insist that the full control of any company negotiating with a union must be in the hands of Canadians.

be in the hands of Canadians.

The Bar Association did, however, pass a resolution dealing with this problem. Sponsored by A. O. Ackroyd of Edmonton, this motion recommended legislation setting forth conditions a union's recognition as a bargaining agent, se conditions including the provision that its constitution, by-laws and regulations guarantse its members the rights and privileges provided by Canadian law. This is an eminently reason-able demand, since companies which are located in Canada, regardless of whether they are owned by Canadians or foreignars, must abide by Cana-

dian laws.

The Bar Association deserves congratula-tions on its handling of this matter.

No man undertakes a trade he has not his wife as much as his dog mod, even the meanest; yet every one thinks but you sere hear of his welf aufflotestity qualified, for the hardest of model. That of government.—Scorakes.

Naybe can really does love in the wife of the large with the series of the meeting the model. The thinks the significant of the meeting in the me learned, even the meanest; yet every one thinks but himself sufficiently qualified for the hardest of all trades that of government.—Socrates.

What is a Volkswagen 1500?

And more.

The Volkswagen 1500 is the other car in our life. It's got all the nice things that made the beetle famous. Engine in the rear for better traction. No radiator to freeze or boil. Low gas consumption. And a design that never changes. And the VW 1500 gives you a lot more. It's a Volkswagen with more power, more room and more looks. It goes from a standing start to 50 mph in 12 seconds. Our station wagon is big enough to carry a bathtub or 14,600 bars of soap. The sedan is so roomy it's got two trunks. With the VW 1500 you get sports car power and family car room. Sort of a family sports car. That's the Volkswagen 1500.

It's more Volkswagen than any other Volkswagen.

Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Edma

"Did you," saked the man, obviously a Giants fan, "see Justs Marichal pitch that 4-3 victory over the Phillies the other day?"

I admitted I had seen the young senor with the leg kick like a kangaroo, node out the kids from Philly in as neat a chucking job, outside of a no-hitter, as I had seen in many a moon.

"And did you note the young sener strike out seven Phillies in a row," he went oh. "And did you also note that the first four Gisat hits were three triples and a home runt"

I admitted that I had witnessed these signs of po

"The Phillies," he said, "are riding high, wise and handsome on sheer spirit desire and the will to win. They have no outstanding stars. They have flue esprit de corps, a tough manager and a good beach.

"They are leading the pack by a good margin at the moment — but, there but for the gissmicks of a gaggle of injury gremlins should be the Giants."

"If is extremely doubtful, but if by any chance San Francisco club wins the National League pennan will be the greatest tribute to medical science si bandages were invented," he said.

"Add up all their injuries and you will see why Giants at no time this season have been able to field i best nine men supported by a healthy bull pen, and prot won't for the rest of the season," he sald.

Number One victim of the injury hoodoo was pitcher Jack Sanford, out for the season. One by one they fell. Jay and Matty Alou, Orlando Cepeda, Del Crandall, Jim Davenport, Jim Hart, Harrey Kuen, Willie McCevey, Juan Marichal, Willie Mays, Jose Pagan and

Frank Bowman, Giant trainer who has rubbed aching hackey and baseball muscles for more than four decades said he had seen nothing like it. "Every day another injury."

The loss of Sanford compelled Manager Al Dark to shake up his pitching staff. Until the Sanford breakdown Gaylord Perry was a productive long-relief man. Bob Show was adequate in both long and short relief.

Pierce and Duffalo were getting the job done in short hypearances but the loss of Sanford compelled Dark to use every Giant harler in relief except Marichal and every Friaco pitcher as a starter except Pierce.

Marichal went out with muscle spasms in his back, om his appearance the other day against the Philis whe on his 17th game, he appears to be all right.

The colorful young hurier in one of the greeter per-formances of the cureer, retired the last 19 Fillities in succession are routed to his 13th victory and 13th complete game on July 28. None of the last 22 Filling per the hall out of the intelled in an ewest in a facult it 32 win. The win completed his cycle giving him at least one victory over every National Langua chin.

Chartie Taylor of the Bay of Quinte Country Club joined the select circle of "holes-in-oners" over the weekend.

Playing with Mrs. Taylor and Jim Durant, Charli-aced the 13th hele and became eligible for the prize or puzishment that is the let of "ace" shooter.

on Sowman.

Speaking of holes-in-one, Nise Manley, an American
engineer, claims to have abot consecutive sees on two
downhill par-form holes at the Del Valley Cinb, Sangus,
California. He says he solved heles-in-one on the 328yard seventh hole with a foreview on the 328paries with the same of the same

Over \$100,000

horse sense

More than 591,000 Canadian automobile owners pay too much for gasoline.

They're people with cars designed for medium-octane gasolines. Up to now they have been buying the available toprated premiums and, since their cars can't use all of that power, they've been wasting octane and money.

Now, BP makes better sense with

horsepower by adding two new Super gasolines in the medium-octane, medium-price range. Perhaps one of them is just right for your car.

Check the recommendations at a BP station, then make the switch from top-priced gasolines and save 24, even 44 per gallon ... enough to buy up to 900 extra miles of driving in a year.

FOUR GREAT GASOLINES

One Regular and three Supere: SUPER RED is the top-octane fuel. SUPER WHITE costs 24 less per gallon. SUPER BLUE costs 44 less...end only a penny more than REGULAR.

"Discreet" Discrimination

of Canada, meeting at Lennoxville, Quebec, last of the fe The executive council of the Anglican Church k, was told that racial discrimination is a

week, was told that recial discriminations as a start—is the modern metrors—
real problem in Canada but that it is usually maintended in a "subtle and discreted way."

We agree. And, let the sedded, though no behappy in the continued person has any reason to be happy and the continued person has any reason to be happy and the continued of the c form when it is becoming unpopular, when public opinion is against it. When those who practise discrimination have to be "subtle and discreet" in doing so, they cannot be so brutally effective who are unhampered by such a neces-

On Saturday we published an editorial from the Sarnia Observer referring to "apartheid" in Canada, to the way in which we have herded our Indians into reservations. The Indians have been the victims of flagrant injustice—but we are getting a little tired of this being equated with "apartheid," a word which had its origin in South Africa and which is legitimately used to since South Arnea and which is regrammently lised to describe the racial policies followed in that country. We have mistreated and, perhaps, even robbed our Indian fellow-citizens—but though we permit them to live apart from us on land especially reserved for their use, we do not force them to do so. We do not habitually whip them for minor offences. We do not tear man and der and force them to live apart in we villages. We have no law forbidtheir native villages. We have no law forbid-ding the marriage of Indian and white. Far from forbidding Indians to associate with whites Far

any way, we accept them into our schools. Similarly, there is a distinction between the way we treat Negroes and the way Negroes are treated in the "Jim Crow" states of the south. We do not yell "nigger-lover" at any white person seen with a Negro. The average Canadian is just as indignant if he sees a policeman beating a Negro as he would be if the person being beaten

had a white skin.

Race prejudice exists in Canada and is a But the very fact that most of us are ready to recognize this fact and to deplore it is proof we do not deserve to be tarred with the same brush as the South Africans and the

Jews Join Exclusive Club

The Rideau Club at Ottawa has announced the unanimous election of seven new members.

This is noteworthy, because the exclusive

club does not usually publicize such matters. the reason which prompted the departure from THE CATCHES UP-cratemary policy was the fact that four of the seven new members were Jews.

The club, according to The Canadian Press, had previously had Jewish members, but it would seem probable they were not numerous, or the election of four more members of this faith would hardly have been considered newsworthy.

seem probable they were not numerous, or the election of four more members of this faith would hardly have been considered newworthy.

We think the Rideau Club acide wisely in the procedure. While what is most important is the acceptance of racial equality by the great mass of our citizens, an example like this set by those in potitions of power and futurence is considered or racial equality by the great mass of our citizens, an example like this set by those in potitions of power and futurence is considered in the control of the control of

One advantage that yoga has over most oriented in military i-riplicate by other systems—and Tm thinking in particular from the grant country of the grant classes that nearly all of us experienced when we were young—is that it is an entirely non-competitive system. You merely do the best you can; and this sprit, in turn, interest your whole way of 'living'. — Neville Braybrobles.

Martin Finally Delivers Shake-out Dief Promised

orld backwater off the hrawling mainstream stration — it just does not know what hit it. Strictly Personal

And making who knows what mad manner of recommenda-tions to External Affairs Minis-ter Paul Martin.

ter Paul Martin.
Il was as long as seven years ago that External Affairs — the darling of the departments — first-felt the hot breath of criticism on its tender neck.
SWEEF-OUT NEVER CAME

It was 1957 then; the Conservatives had just taken over, and John Diefenbaker was making his first appearance as Prime Minister at the United Nations

sia New York.

In his Drake Hotel sults he held a press conference, and aince, in his long — 17 years—term of service, in the Official Opposition he has made foreign policy one of his specialities in the House of Common, the questions and answers inevitably got around to the Department of External Affairs.

External Affairs.
Those who were there will never forget it.
"I'm wise to those people," and Dief, darkly, "they don't fool me in External Affairs — for I know they don't do enough in that department to keep themselves warm. There'll be some changes made."

There would be a "house-cleaning," be promised, from turreted attic to the basement vaults in the musty old E a s t Block

Block.

But somehow, nothing happened. Nothing ever in the next six years — except that External, escaping the new-brooming, became, if possible, even more

came, if possible, even more support that we were it became a department apart from all the rest. While you "weeked" for Newked or was the support of any other department, you were "with External — on the basis that ordinary downstoned of any other department, you were "with External — on the striped-parties are item for the attrocking of the striped-parties are item for the attrocking of the striped-parties of plantage of Plantage of Plantage, Agriculture the Privy Council, but "THE" Department.

THEE CATCHES UP
Well, seven years after Dief
promised the new - brooming,
along came Oom Paul Martin
— who prefers to be known as
External Affairs Minister rather than the traditional Secretary of State for External Affairs — and actually started the
sweeping.

At dinner the other evening, we were talking about proverbs, and one of the guests mentioned having read a statement by the American Kennel Club, insist-

manerican Kannel Chb, institution in the control of the control of

what they are:

"A bird iz the hand is worth two in the bush" — this counsel of prodence is true less than half the time, since most progress consists of deferring prest advantage for future profit.

"Necessity is the mother of invention"—most great and fundamental inventions have been

damental inventions have been thought up long before there was any real need for them; and it is only when men are not under the whip of necessity, and have the leisure for intellectual speculation, that profound inventions are created.

"You can't an are a few and a few and

"You can't change human na-ture" — you can change it down-ward almost to the apes, by giv-ing the wrong kind of education and holding out the wrong kind of incentives.

and noding out the wrong indo incentives.

"Est, drink and be merry"—

"Est, drink and be invery and drinking soon find that no sensory plearures are really adequate, and they quickly lose their capacity for merriment. Nobody is ultimately as bored with life and with himself as a sensualist.

LOANS FOR STUDENTS

Guaranteed by the Government of Canada

Purpose: The purpose of the Canada Student Loans Act is to facilitate bank loans for students who need financial help to continue full-time studies beyond secondary school level at Universities and other educational institutions.

Who can apply: Any Canadian citizen, or anyone resident in Canada for one year who intends to live in Canada after completion of studies, may apply for a loan under the Act. An applicant must be enrolled or intend to earoll as a full-time agadem at an educational institution approved by provincial authorities, and must meet the standards of academic qualification and financial need established by the student loan authority in the Province in which he applies.

Depending upon individual circumstances and financial note, loans up to \$1,000 a year may be made, with a maximum of \$5,000 during a student's academic caree. The Proviocial Authority receiving applications and determining displitity will issue a certificate to each slightle student stating the maximum amount the student may berrow. This Certificate of Eligibility is required before a student can arrange a Government Guaranteed Student home with the hand of this declare.

Interest-Free and Delayal Repayment Period

To assist students, the interest on learn during the period a student confirme
Salid-line studies, and for six months sturentler, will be paid by the Government
of Canada. During this states period no repayment of principal is orgalized, no
will any service charge of the be payable by the student.

Method of Rapayment Becrovers will begin to pay interest and to repay loans six months after they cones to be full-time students. The current interest rate to students in 54/2, per ansum. Normally the regenteed period will be five to the years. Becrovers have the right to nepsy loans in part or in full at any time without penalty.

Life Immed

In the event of the death of a borrower responsibility for repsyment of the loans will be assumed by the Government of Canada.

Where to apply: A list of approved educational institutions in Ontario is contained in a brochure now available at banks, universities and other educational institutions. Ontario residents planning to attend one of these institutions should apply directly to that institution for a Certificate of Eighbirg.

Ontario residents planning to study in other provinces or countries should direct enquiries to: Department of University Affairs, Suite 600, 344 Bloom

The above soins are based upon the Canada Student Louns Ant 1964 and are for referen-... All agalications and learn overablect to the full torus and conditions of the Act.

OOKY BABY.

DEAR SOOKY — Let's change that name to "Lucky Baby," Mom and Dad have the say — and they make such rules because they care about you. Grow up a little more and you'll find the limits whetching a bit.

DEAR DORIS — Don't ever stop writing your column. Your sense of humor along with good solvice and judgment — well, it gives me a lift and I know it does the same for hundreds of

I was reading about someone who likes to put their thoughts on paper. So do I, poetry especially. Little "bon mots" pop into my head at the least provocation, mostly any subject, sad things, funny hapoenings etc.

my near at the least provincious, mostly any subject, see mings, funny happenings, etc.

I don't suppose there is much call for it, but would you know where I could send them or get what I have written into a little book form? Am I going into second childhood or have I never configurous my first! (I am a bit over 60.) — AMATEUR POETESS.

DEAR AMATEUR — Il having more time and inclina-tion toward philosophical reflection means "childhood," furn or second, levi all he children! The versers you sent are to execut, levi all he children! The versers you sent are to be considered to the children of the children of the table on cont of publication is almost impossible, unions the poor takes on cont of publication which flower advise. My one suggestion would be that you send one or two to a magazine you enjoy resulting. If they are returned with a hylection allo, try souther publication. The best of writers often send out one manuscript several times before builting the right

Confidential to SHORTY — Your hair style should add height. As for clothes, you can wear any styles becoming to taller grifs, if you will moddly them. Avoid bows and rufflies, wear smaller hats, smaller vells, fewer accessories. Avoid the full, skirts that taller girls wear well.

(Don't just muddle along. Doris can give you a new slant- on your problem. And remember that stamped envelope!)

PLAN INCREASE

Your baby needs a balanced diet That's why Heinz, prepares over 80 strained foods for your baby

Every 24 hours your baby may need more protein.

And vitamins.

And minerals.

And many other food elements. Obviously, one food cannot provide them all.

By varying the kinds of foods you serve you give your baby a greater variety of nutrients.

We've vegetables, fruits, meats, meat dinners, desserts.

And juices, custards, soups and eggs. Even spaghettil

Each has a different content of vitamins, minerals and protein. Look over our variety of strained foods next time you're shopping.

Heinz also prepares 2 other foods for baby: five excellent cereals and over 50 Junior Foods (for babies from 10 to 24 months).

You'll find a complete line in the baby food section of stores right across Canada.

HEINZ BABY FOODS

The good they do your baby now - lasts a lifetime 1

AUCTION TO BE HELD AT FOXBORO ROAD. BELLEVILLE ON SATURDAY. SEPTEMBER 12th AT 12:30 P.M.

GEORGE KOCH. **AUCTIONEER**

Sport Slices ...

RARE, MEDIUM, WELL-DONE

OF GEO. H. CLEVER, Sports Editor

"I saw by the papers that you had a ministure Millar
Golf Tournament down Quinte vary this exament" said
Ed Schrieder as we rode in the family jalogy (1843)
towards Don Mills.

He was fold about the fine organizational job don-by George Balaza, the Quinta pre-and the fine back ground of co-operation given him by Gub presiden George O'Brisa, his directors and committeen.

"I noted you had the well-known Moe Norman down re besides a galaxy of other well-known Canadian fessionals. That I must see if the club holds another ival next year," said the former Belleville football

Not a few youngsters and oldsters too, will readily forget club antics of Norman as he trick-shotted the ball for ir amusement on one of the club putting greens.

Norman, who fold me in a post-fournament interview that he appets to be back not remainer; the post in the Millar" (temperate the Millar" (temperate with a big grin) detected eterry Medies in the Millar after Al Balling, Canadian PGA champlo revied off a great GS to lead the qualifiers. It was 323 for Millar after Al Balling, Canadian PGA champlo revied off a great GS to lead the qualifiers. It was 323 for Millar after Al Balling, and the province of the part by six these over the 6.240 layout of the Place Valley Club.

Norman and Magee had gone various ways since the last met in a significant tournament. That occasion was the final of the Canadian Amateur Championship at Edmunuton N.B. in 1986.

At that time the reigning champion was Norman halling from Kitchener and at that time was known as the "scourge of the fairways". In 1886, the records say, Nor-man professionalised kinnelf in the face of an enalassit by the RCGA seeking to clarify expense monies allegedly

When Norman and Mages met for the amateur title man won 8 and 8. In this year's Millar match play Nor-a won the crown in 18 holes 3 and 2.

It is rather ingical that Norman attributed his success in the teurnament to a putting fesson given him argirer by defending champles after Mempoon of Whitevale who she's a 'B' at the Quinta Festival of Gelf. Thompson went to the siellihase early in the Millar while "pupil" Norman putted his way to glory.

Over a long period of years the Shriners have been doing naghificent job aiding these less fortunate kiddies — and financial aid will be greatly appreciated.

As was noted yesterday every cent taken at the gate will go to the Shrine fund. And the game will mark the close of baseball in the city unless other exhibitions are

Les came to Kingston in 1983 direct from the Mani-real Reyals as playing coach. In 11 years of pro hockey in the AHL and the NHL he was on two Calder Cap win-ners and one Stanley Cup champion squad.

Watch for Children

Watch for Children
There are two periods of the year at which
thas become customary to urge melorists
travelling urban streets to use crit caution.
These are at the beginning of the long
summer holistys and at the end of them.
On the face of it, it does not appear
resentable to argue that both the release of
children from school and their return to it result
in higher bassaries Paradocchain, we detailed
many is made to be a summer to be a summer to be a
many is made to be a summer to be a summer to be a
many is made to be a summer to be a
ment of the summer to be a summer to be a
ment of the summer to be a summer to be a
ment of the s

When the holidays start, the driver has to become accustomed to the fact that children may be at play in the streets at any time of the day. Now that schools are open again, there is the hasard created by the presence of children in large groups at certain localities, at certain times, the children frequently in a hurry and the at which they congregate often coinciding rush-hour automobile traffic.

An additional danger arises from the fact An additional danger arrises from the lact that many of these children, in September, are going to school for the first time and have not yet learned the safety habits which will be drilled-into them in their classrooms. Even those returning to school may have forgotten the

returning to school may have forpotice, the precautions they were taught last year.

One of our readers has sent us a mimographed letter, apparently clipped from the bottom of a club bulletin of some sort. "A few weeks so, I awa w little grist struck by a car as the tried to cross the street," the letter starts. "I as as the struggled with the sgony of destir." The letter, signed "Stather", goes on to plead with motorists to be carrful of his own little girl, who has just started to school. It is just one of several has just started to school. It is just one of several attempts to prod motorists into an awareness of their duty by appealing to their emotions.

Whether such attempts have any great success, we do not know. We rather doubt it, for

no motorist really needs to be reminded that callously to endanger the life of a child is a terrible thing. The difficulty is to translate this univarial kin owledge into an attitude of watchfulness and caution. If words were really affective in achieving this, surely accident rates would be lower than they are. The thing which does impress the driver is an accident which happens to him, or a very narrow escape from

h a mishap. Still, on the offchance that this editorial may make even one driver exercise extra caution, we offer it to our readers. It cannot be a total we offer it to our readers. It cannot be a total failure, because writing it has brought the thought that one should practise what one practise. Won't you join us in slowing down just a little?

Keeping Pace With the World

Over the Labor Day weekend some of our ore energetic citizens staged a beach riok a sultigal demonstration and a pacfits protest. We thus kept pace with a variety of untries, such as Britain, the United States and any of the new nations in the Middle Roat. Africa and Asia...

Of the pacifist sitdown on the road to the nare base at La Macaza, there is little to be Somare base at La Macaza, there is little to be Happiness and These people are sincere, reasonably orderly Happiness and will do no great harm.

The action of Montreal youths in shouting Is Skipping

Gas? Oil? **Electricity?**

Here's some plain talk about home heating

Every home heating fuel claims to be clean, safe, Deep viole feeding over tames to occasin, assign-conomical, convenient, healthful and depend-able . . . and they are. But, when you compare one feel to mother, it becomes evident that one is clearer than the others, one is more economical than the others, one is more convenient than the others . . and so on.

Which will be best for your needs? How do you weed out all the half truths from the truths? We hope to end any confusion once and for all with some plain talk about home heating. Let's art by examining some claims about the costs of heating a home

Natural gas costs less—Electric heating claims
"to cost no more than other forms of energy."
Well, 1g worth of electricity will produce 3,413
BTU's of heat. However, for that same 1g Natural
Gas will produce 10,000 BTU's of heat. So, for the same money you get almost three times the amount of heat with Natural Gas. Or to put it another way, it will cost you far less to heat your home with Natural Gas begause you need less,

To bring electric heating costs close to Natural-Gas_you need extra heavy and costly insulation in walls, roof and basement; tightly fitted storm in walls, roof and basement; tightly fitted storm windows and doors; individual room thermostats that need constant attention and adjustment; perhaps even close off some rooms part of the time in order to save on the cost of heating electrically. Not so with Gas heating.

One is economical enough that one thermostate controls the heat for a whole house with standard insulation, including basement. Each room as heated evenly. Why, if you went to the extra expense of insulatisity own home to electrical heating standards and then put in Natural Ges heating, the saving with Natural, Ges would still be in the seame proportion.

Natural gas is cleaner, healthle Gas burns completely, quitely. All of its volume is transformed into heat energy. It is clean heat:
. instant heat. Oil burners are not quiet and fuel oil has sediment and impurities. It burns with a very fine oily sock with oil, the purpose, the burner, burner nozzle and the oil falter must be serviced and cleaned regularly.

With Natural Gas, there are no moving parts, nothing to wear out. When service or adjustment is needed, it's free. Both oil and gas forced air heating systems have air filters for trapping the dust and the dirt that circulates in every house. Not so with electric heating. The hot elements incinerate the dust in the air and the evidence is in full view on the walls and drapes above each heating unit. Electric heating is quiet, but wacirculated air is stale air.

Natural gas is safe, dependable and convenient—Gas supply lines are buried under-ground. Storms, fallen trees, blocked roads or adverse driving conditions cannot cut off your supply of fuel. Power failure or blown fuses do supply of tuel. Power failure or blown faces do not stop the flow of warmth and comfost. A properly installed forced nie gas system, is tredy trouble-free, automatic heating and with the modern safety controls, it's as safe a heating system as you can find surywhere. The face remains: electricity heads the list of fire causes of the forces of morne (SPA) and the list of over all other forms of energy (*Ontatio Fist Marshal's Report).

Conclusion: All home heating facis claim to be saft, economical, clean, convenient and de-pendable, But Natural Gas is best winn compared to all the others. Don't take our word for it. Almost 90% of new homes have Natural Gas and say of their owners or sak a building

ON THE WAY UP - With the help of his daughter, Maria Eugenia Mor ex-dictator Bustavo Rojas Pinilia, 64, tours Colombia in search of support for his National Popular Alliance Party. His 30-year-old daughter organizes demonstra-Mational Popular Alliance Party, his 30-year-out oauginer organizes Genionistications in working class districts and holds a seat in the lower house of the Colombian Congress. The party boosted their six seats to .27 in congressional elections last March. His tours defy a Supreme Court order forbidding the former dictator to run for office or address political gatherings, following his overthrow

Convention Scrutinizes Senior Citizens' Problems

Crucial Social Issue Discussed at Picton

JISCUSSECI AT FICTOR

A record assembly is discussing a circulal contemporary
social tense in the town of Picton.

The record was set yeatered by when more than 640 members
of the Ontario Association of Homes for the Agad turned up for
the Agad the Agad that the Agad turned up for
the Agad that the Agad turned to the contemporary
that the Agad turned to the same than 150 members and the built of its business was schoduled for yesterday and today.
The record turned association members includes both preferational and mattern, white prices, and the built of its business was schoduled for yesterday and today.

Although by tills the association could primarily be comcomed with the pricebine as it cities devices the four while of
designed to probe the perturned social issues in depth.

All matters relating to the sense citiens are condidered significant, these the convention thems "Labor in Service" all issues
of politics from experts and agreeties in every perfection are
or being cuttled — in seminars, workshops and at the dising
table.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor PETERBOROUGH—King Clancy, right bower of "Punch" imlach, Toronto Maple Leafs coullient manager-coach, puts pride of power above appreciation.

The dynamic little frisher made the only speech at the "Steet The Leafs" party held here last night when some 200 members of the news media were guests of the Richeso Breveries.

Standing behind a shimmering four-foot solid ice replics of the Stanley Cup, the King said "On behalf of the Toronto Maple Leafs, the Rechester Americans, Tales, Okishema and Victoria, B.C., I while to extend approximation to the Molson people for a levely get-

He said he was glad to see the press on hand, "but I wish sy would give Leafs some coverage." This with tongue in

The Moison people proved excellent hosts. They present a moeth-watering suffer disner in the peak ball- /oom of the Empress Hotel with the "Golden Lione" / vallable when needed.

"Punch" imisch and Rochester Americans' manager Joe Crozier arrived a mizate or so late for the food and by some stroke of good fortune they azi at the same table as did this agent and Peterberough Examiner sports editor Coe Perdae.

When I finally got Punch's ear I posed the ancient question but twisted it slightly.

"Are the Leafs going to win the Stanley Cap this

Punch looked at the now shrinking lee model of the mous mug and answered question with question.

"Who's going to best us?" I asked him about Red Kelly and, said Punch in a on-committel manner, "Red can play if he wants to."

Nor would Bed give a definite answer. He said his injured

Scattered through the crowd, the Leafs watched the letter with ne outward signs of emotion. Once or twice here was a hun of conversation as key plays unfolded r goals scored. A standard, from this agent's point of low was the outstanding consistent fine play of Gordie own. Brother, what a hockey player.

Renewed a lot of old acquaintances. Sending his regards to Belleville friends especially Drury Denyes was Hay Miros, former manager of the Cornwall Colts of the old senior hockey days.

Ray has gone places since he left the amsteur brand of hockey for the pre ranks. He is new a member of the Maple Lestie erganization and will manage their Tuisa, Oklahoma farm club this senson.

The Leafs wearing "lean and hungry looks" left shefore fan o'clock under the watchful erhs of Messrs. Cl and Imlach. They play Boston Saturday night and the De Red Wings next Tuseday, both games in Peterborough.

Frank Mario, a wartime buddy, and coach of the Peter-borough Junior "A" squad reduced to go out on the limb to any-great extent but feels his club will finish "much better than fifth."

Frunk Buckkned, former O.H.A. prosident and now its treasurer when asked if Toronto Metro Junior "B" clubs would play interiotec with down-cast forms, said this would be decided at a meeting next work. However he felt that the games gare junior "B" bookey a needle sitendance-wise in the out-of-Toronto centres.

It was a grand party, and as was noted, the Molson people roved excellent hosts. Personal appreciation goes to district epresentative Jim Williamson for the fine hospitality, not a mention transportation.

eiths was achoculed to commence.

The sittle was thus prevented.

The sittle was thus prevented.

The sittle was thus prevented.

Chrysler is happy. The Anto Workers are happy, wall Stere is happy. The Anto Workers are intermedite. Maybe they will want to take a closer look at the terms of the agreement. They are includ. For they will be paying for it.

Make no minishe short it, either of the Canaritation consumer about it, either was green and consumer about the comment of the consumer has a right to sak is

what the consumer has a right to ask is whether the auto workers are being paid too much. In attempting to arrive at an answer, the Canadian consumer must keep several things in unind. He must remember, for instance, that this greenment covers workers in the United States, where the general level of wages is considerably higher than in Canada. He must remember, too, smill shoot cased and displace than in Canada. He must remember, too, smill shoot cased and di agreement covers workers in too timon outside.

Where the general level of wages is considerable to the top of the set of

an una crumny job. I don't woic over again.

But when allowance is made for all this, he has when allowance is made for all this, he has when allowance is made for all this, he has when allowance is made for all this, he has when allowance is made for all this, he has when allowance is made for all this, he has a section of the sectio

of a high rate of appendence.

If this work contract sets a pattern for the industry—as at it very well may—and if the prices of the new cars are slightly higher than those of the 1964 models, which has been hinted, the consumer might be partoned for feeling exploited and for protesting. Not, mind you, that it is likely to do him any good.

A Heavy Responsibility

A ricary (Assponsibility Minister Parreau have given the House of Commons as-surance that the Queen will be safe and warmly welcomed when ahe comes to Canada near month. We feel sure that the Prime Minister and Justice Minister are 99 and nino-tenths per cent correct.

corpect.

The difficulty is that nothing loss than a hundred per cent certainty is really satisfactory in circumstances such as those, and complete incheromateness such as those, and complete certainty as to the future is rarely granted man. Swent if the chances of harm coming to the Couen are no greater today than on the occasion of any of the previous visits, the differing eight of any of the previous visits, the differing eight of any of the previous visits, the differing eight on the country of the previous visits, the differing eight of any of the country of the co

What About the Consumer?

In the United States, Chrysler Corporation and the United Auto Workers have agreed on a three-year contract.
Agreement was reached minutes before a
te was scheduled to commence.

Agreement was reached minutes octive was children as a charged in the control of mind. He must remember, for instance, thus use agreement covers workers in the United States, where the general level of wages is considerably higher than in Canada. He must remember, too, the conditions peculiar to the industry — the annual shutdown for model change-overs, the annual shutdown for model change-overs and the same of the same

over again.

But when allowance is made for all this, he may reasonably ask himself whether he should be expected to foot the bill for pensioning off workers at age sixty at mites up to \$400 a month. He may reasonably ask whether an increase of \$4 cents an hour, or \$31.60 a week for a \$40 hour week, is not a little relia for his wallet And he may, with considerable excuse, consider as symplomatic of the whole philosophy of this agreement the stipulation that each worker shall receive a paid holiday on his britishay. Absentice-tim, we have been told, is expensive in hig industries and here were have a building guarantees of a high rate of absenties and mere week have a building guarantees of a high rate of absentiesm each and every work day.

work day.

If this work contract sets a pattern for the It this work contract sets a pattern for the industry — as it very well may — and if the prices of the new cars are elightly higher than those of the 1964 models, which has been hinted, the consumer might be pardoned for feeling exploited and for protesting. Not, mind you, that it is likely to do him any good.

A Heavy Responsibility

Prime Minister Pearson and Justice Minister Favreau have given the House of Commons assurance that the Queen will be safe and warmly welcomed when she comes to Canada next month. We feel sure that the Prime Minister and Justice Minister are 99 and nine-tenths per cent

Justice Minaster are 98 and nine-lentia per cent corpect.

The difficulty is that nothing less than a hundred per cent certainty is really astirated to make the complete certainty as to the niture is exc., and complete certainty as to the niture is exc., and complete certainty as to the niture is exc.

From If the chances of harm coming to the Gueen are no greater today than on the consistency and the chances of harm coming to the Gueen at any time in the past would have been regarded by all Canadians as the work of a fanatic, not a small group of fanatics, not repent the complete of the complete of

HOW CAN LORD'S BRING YOU THESE NECESSARY SAVINGS?

- Mass purchasing for all our stores in Ontario enables us to buy our drugs at the lowest possible manufacturers' prices.
- We do not deliver or maintain charge accounts. Any store which does provide these services must include these costs in its pricing.
- The enthusiastic response to our lowering of drug and prescription prices gives us the necessary volume to operate with a much lower profit.

— Remember Lord's Slogan — "ALWAYS THE LOWEST IN DRUG AND PHARMACEUTICAL PRICES"

Sport Slices ...

RARE MEDIUM WELL DONE

Golf king Arnold Palmer faces a showlesse with three would-be heirs to his crown at the Firestone Country Club in Akron, Ohio, Honorrow and Sunday, The three newpers to the thresse hattle the king the World Series of Golf for galfden's richest in print, \$40,000. The hig payoff note the perond place inher \$15,000 and \$5,000 each for the third and 1

With not a significant victory since he won the Masters the spring. King Arnie faces a supreme test in head-to-he play against the year's top challengers for the game's high laurels.

Facing His Majesty will be Ken Venturi, U.S. open hamplon: British open winner Tony Lema and the PGA Hichelder Robby Nichola.

Despite his standing as top loot wimer on the golden trail of gold. Palmer has been an alterna se often of late, winding up second five times in his last seven tournaments, that he has publicly expressed the hope "this decent't get to be a habit".

On the tough Firestone course Palmer gets his chance to break the habit. Most pros think he can do it although he has never won an official PGA-sanctioned tournament in the mouth of September.

A poll of 32 top golfers on the circuit showed 19 of them picked Palmer to win the World Series. Venturi was chosen to win by cight and Lema by five while Nichols was not selected by a single golfer.

Palmer comes into the series as a favorite based on past experience. Twice before he matched strokes with Jack Nicklass for the \$50,000 jackpot that goes to the winner and twice he lost.

Newest and greenest of the challengers is Bobl Nichola, the Leutsville phenom, whose PGA trizmy represented the first time he has ever was a major too nament. He is 32 and has been a pro only since 1839.

His record-breaking 64 opening round in the PA cham-ouship and record total of 271 still has golf butis talking nout this champ who once was given up for dead by doctors for an auto accident at the age of 16.

U.S. open champles Vostari at 22 represents the com-back of 1964, returning to the front ranks just three smooths after he considered giving up the game becaus in was playing so miserably.

Tony Lema, who is 30, qualified for the World Seri by winning the British Open on his first try and is or sidered one of the real stars of guil.

Experts agree that since the series represents a first for enturi, Nichols and Lema, and since the King is making his hird appearance, it will be Palmer against the field.

The Pennsylvanian titre of the links sarped his place in the event by his supercodented fourth win of the linters. He had fully expected to cross past raphers with Jack Nickians but the hig youngster proved a causally in the hig Four terrangy and was the quality for the event that noted him \$100,000 the tye tiltees he played.

Paimer is extremely anxious to win the 1964 World Series, tot only for the immense purse involved but because it, long with the PGA title, remains among the golf honors ever won by him during his decade of taking golf's titles.

In his third crack at the series mesor, Palmer will be socking to upost the flar which seems to be thwarding thin in his chaos after the higgest jackpet of all. Its turned in a course-typing record of 45 in feat resume of the 1982 area but his second. Lest year he flat-liked three strukes behind Nickless and two behind Julius Raross.

Although Venturi, Lema and Nichols are new to series golf and to medal play at the Akron course, they are no strangers to the Firestons course, the scene of top tournaments for a number of years.

Last year Nichols finished eighth in the American Golf Classic, one of his rounds being a similar 57. Lema was tied for nicht-spot while Venturi trailed for behind in Strf pince. This year Venturi craptured the Golf Classic and set a new \$2-hole mark of \$75 on route to top money.

You can see the World Series on NBC-TV tomorrow, 4:30 to 6:00 p.m. and on Sunday as well.

Compare the age, plainly marked on each bottle of Wiser's whisky with any other brands in their price classes. You will find, on the average Wiser's whiskies are older

And "older" to Wiser's means aged in wood ... and "married" in wood - a process of returning the spirits to wood after final

blending for a further period of quiet aging. So for the best whiskies, the best value—drink one that's OLDER and WISER'S.

For good values in well aged whiskies: Wiser's De Luxe, 10 years old: Wiser's 101,6 years old: Wiser's Old Rye, 5 years old: Wiser's Special Blend, 4 years old.

Second Thoughts on the Flag

Second linoughts on the Flag Many Canadian have been convinced that measures of the House of Commons were vasting a bet of valuable (visition per specific measurements). The converse of the House of Commons were vasting as the variety of the Common tension of the

If it were not so, why would a Liberal say it

He would have to be off his rocker, would he mot?

Come to think of it, that . . .

But let us stick to the facts for a few more paragraphs. There will be room for a brief ex-pression of opinion at the conclusion of this cilibrial.

editorial.

The facts, according To John R. Matheson, Liberal M.P. for Leets, are that the original design of the proposed maple leaf flag was "shockingly ugly". Mr. Matheson and other Liberal members have pooled their less about "retinements". The redesigned flag will be of different colors—the blue and the red colors darker than colors—the blue and the red colors carrier than in the original. The shape of the flag itself will be altered. The blue vertical bars will be wider. The flag debate deadlock, says Mr. Matheson, provid-ed time to experiment with refinements.

ed time to experiment with refinements. We suppose this should make us repentant about the harsh things we have thought about what we condidered useless time-wasting in the House. We suppose it should—but it doesn: It just makes a host of Canadian more annoyed than ever to discover that any government, supposed to be repromished, contil introduce a fing design first and then worry about its appearance later.

The Waters of Jordan

Shall we go gather at the Jordan? Some other folks are endeavoring to arrange a little get-together, which might turn out to be

This is really a return engagement. The first

one was cancelled.

Some years ago the Jews in Israel announced they were going to divert water from the Jordan I make the desert frourish like the green heay tree. The neighboring Arab lands said that itsis would mean war. Israel went sheed with her plana. The Arabe did not fight, They decided they would only get the worst of it. The Arabe do not believe there is any sense fighting. Arabs do not believe there is any sense fighting a war in which you get licked. A practical people,

Now, though, the Arab lands have decided to stage a little diversion of their own. They plan to divert the waters of the Jordan before they enter Izrael, so that Izrael cannot divert them lower own the stream.

Israel, however, has threatened to attack if her water supplies are menaced and, unlike the Arabs, the Israelis mean it. For one thing, they expect they would win. For another, they may well feel that their future survival depends on expansion, which only the utilisation of desert lands would make possible.

The Arabs, cautious as ever, have made their plans for diversion of the Jordan dependent upon building up a military force able to repel an Israeli attack.

Meanwhile, those countries blessed with a super-abundance of great rivers and fresh lakes go about the merry business of turning as many of them as possible into polluted pools. Progress — it is wonderful!

Irony !

A West German court has ruled that Dr.
Hans Hefelmann's trial should not continue.
He is accused of responsibility for the death
of '35,000 persons under the Nari enthanasia program, which Hitler instituted to rid the German race of mentally and physically inferior persons.

There will be those who will feel that a twenty-pear lapse between crime and trial is too long and that others besides Dr. Hefelmann should be shoulded. ould be standing before the bar of justice, to count for the delay.

This, though, is not what is saving Dr. Hefelnann. He is escaping trial because, at 57, he is uffering from advancing senility. He is mentally nferior. A condition which would have deemed him when he was in power preserves his life

RARE, MEDIUM, WELL DONE

Up at the Apollo Barbell Club, Boswell Street, a tention-packed youngster is grinding out heavy three-hour practice sessions four nights a week.

He is 21 - year old lokye-bound John Lew-Tokyo bound John Lew-is, middle - heavyweight member of Canada's member of Cankas of Olympics weightlifting team. He leaves here September 30 and will fly to the Japanese capital via Toronte and Anchorage, Alaska.

Lewis' manual labor job is proving an excellent conditioner. "Not that he needs it for John keeps himself in tip-top condi-tion," says Coach Ken Carr-Braint.

es him through training paces rejentlessly and the sungster, named Canada's 1964 outstanding (Indian to, is taking it in stride.

The Belleville youngster has topped his own record by ten pounds or more in practice sessions and expects to reach greater heights here on September 28 when Sudbury and there top litters compete with Apollo aces in a "breat the exceeder" meet.

Actual competition is what Lewis needs, and that is partly re reason for the Elingston-Sudbury-Belleville meet. Attend ug the meet will be another member of the Olympic team astherweight Allan Salter, and other Canadian champions

"After all," mys Lewis' coach, "the tension is under-stantishle. Here is a youngster, 21, who will compete with the best of some 97 nations. He realizes what he is up against and his desire to make a good abowing for his country, has built up the inside pressure."

What chance has Lewis got against the top lifters in the

Carr-Braint thought for a moment. "If he makes the top ten, it will be extraordinary. If he makes the first six it will be a little short of fantastic."

"He did extremely well in whaning a bronze medal for Canada at the Pan-American games at Sao Paulo, Brazil, but he realizes the Olympics is something far bigger. But I know John will give his best — and that is all any man can do."

According to Carr-Braint, the Olympics weightlifting com-petition will be "fantastic". Other countries, he says, are sending more than one representative in each of the classes. Canada is sending only one, due, says the coach, to the avail-ability of travelling expenses.

If Lewis finishes in the top six in his division, he will earn a point for Canada. "He is starting at the bottom with his target that precious point. However, if it is within his ability, he'll shoot for one of the medals," says Care-Braint.

John Lewis, I believe, is the first Believille athlete to represent Canada at the Olympics. He will meet and compete with the best the world can produce. He may not come home covered with the mantle of victory. But he will return knowing he gave his best.

The modest clean-living youngster who has reached ional heights in his athletic endeavors is a fitting repre-ative of his city and country.

He is worthy of some recognition before he embarks on the greatest adventure of his sports career. Monetary assistance is out of the question because of Olympics standards.

But surely, the city fathers, in their infinite wisdom, can see their way clear to send the youngster a letter containing their best wishes for success, and appreciation of his ability and efforts to bring athletic honor to the city and Canada.

Waters it Pay in recurrence in the country of the c Some people think electric heating is expensive. These people don't. They have it.

Mrs. Marjorie Allan, North Bay, Ontario ouldn't have anything else. On cost we feel re much shead of any other fuel we have in the past. You control the room tempera-as you like. If you're cold it's your own

Mr. B. Hogendoorn, Orillia, Ontario have been living in our electrically-heated for three years now and we haven't had a eman in the house! We have seven rooms ur heating cost ne' war cornes to about

"I think electric heat is more economical ar lot safer than other types of heat. Our heat cost last year was \$128.65. I'd recommend elec-heating to annound burying a house."

Mr. W. Cooper, Toronto, Ontario
"We expect to heat our four-level home for less
than \$200.00 this winter. And none of this hot

Undoubtedly you do know this harbour - it forms an important part of the economic and recreational setting in which you live. However, a great many of the firms with which Belleville has business relations don't know anything about Belleville. When plans for expansion, or relocation come up they probably don't give Belleville at bought.

The Belleville Industrial Commission, therefore, is asking you to become an industrial embassador - to boost Belleville at every opportunity in your contects with outside companies. We soust some new industries to ket to know our harbour, our city and our people - soon!

Incidentally, this photograph formed part of an advertisement that recently appeared in The Financial Post, recommending our City and its advantages to all

BELLEVILLE INDUSTRIAL COMMISSION

City Hall, Belleville

"I was worried electric heat might be much more expensive . . . but we decided on it because of the cleanlines. Our total electric bill for our sir room home, including lights and appliances, was only \$218.00 for the year."

Mr. Earl Frits, Kitchener, Ontario
"Our electric heating cost is approximately
\$185.00 to beat six rooms, nor recreation rooms
and a laundry room. I have never heard anyone
who has electric heating say that they would go
back to some other system."

Electrically-heated homes, insulated to heating can add to the comfort of your Hydro standards, cost no more to heat than homes with other systems. With all than homes with a there systems. With all the advantages, is it any wonder so many people throughout Ontario are turning to electric heating for the comfort, convenience and economy they want in a heating system. If you are buying or building a new home, it will pay you to learn how electric heating system.

home and to the value of your investment. ELECTRIC HEATING FOR YOUR PRESENT HOME—If you are planning home extension or if parts of your home are not now properly heated, you can in-stall supplementary electric heating for less than it costs to extend your present Electric heating is one of the many comfort features of the famous Medallion all-electric homes. For information, consult a qualified electric heating contractor or your Hydre

Changing U.S. Viewpoint

We have beard a great dead, in recent months, about the transformation which has taken place in Russia's attitude towards the noncommunits lands show the days of chain. Very little has been said about any corresponding change in the Western words, particularly in the United States. Yet, we suggest, the contemtion that such a change has taken place would not be difficult to document.

document. Occasion of the control of ate. "Both he and they (the communish) seem to believe there is somebling unnatural and innoral about the survival in they world of more than one set of beliefs about man's nature and about the organization of humans nocieties.

There can be no question but 'that Senator Fullreight's analysis of the communist position is correct, at least as far as the Stalinist view is conceptuad.

What may be overlooked is that this view of the world was, comparatively recently, the offi-cial position of the U.S. The conviction that the world could not survive half slave and half free, work could not survive that mave ann fail rive, born during Hitler's days, was carried over into the post-war period and applied to the possibility of co-existence between capitalism and com-

munism.

If in the intervening years, the conviction about the impossibility of the continued existence of a divided world may have weakened, on both sides of the Iron Curtain, there has been tiltle apparent change in the belief that the division is not merely undesirable but actually evil.

Now Senator Fulbright clearly indicates he does not believe it "immoral" for there to be two differing viewpoints on man's nature and his

Any reasonable man, of course, will agree with him in the abstract. But when we attempt to translate this viewpoint into an attitude towards the world's concrete problem, the struggle between communism and capitalistic democra

between communism and capitalistic democracy, no such unanimity will be foundation from a far many people in western countries who believe, with Senator Barry Goldwater, that the continued existence of communist states is immoral. The articulate and forcaful Republican nomines for the presidency is lived to the presented opportunity. Senator the Democracy are presented as the Company of the Communication oportunity Senator Fuluright has presented him and steps that the Pemocrate are prepared to except the continued existence of communisari, not marrily because they are forced to do so by circuminances, but because they are notice to describe the senator full provided by the continued systems of thought. President I. B. Johnson may find that Senator Fuluright, by resorting to sophisticated logic at a time when emotions are running high, has been less than helpful to the Democratic cause.

Why All the Secrecy?

Imagine the line and cry that would be raised if sessions of parliament were held in camera. Yet, strangely enough, when federal-provincial conferences are held behind closed

provincial conferences are held behind closed doors, there is earnely a murmur. These days, federal-provincial conferences are being held with increasing frequency on an ever-widening range of subjects. The discussions which take place are of vital importance to all Canadians, as the nunch-changed and, perhaps, even to be further altered Canada Fennion Flan

bears witness.

This does not mean the provinces and the federal government have no right to some words in private. Yet the fact remains that when important matters such as the pension plan or the Hall Commission medicars proposals are discussed, the taxpayer should be entitled to know the taxpayer should be entitled to know

cussed, the taxpayer should be entitled to know where the respective governments stand on the various aspects of the issues and the reasoning behind the positions that are taken:

At present, all the taxpayer usually gets out of federal-provincial conferences is a round of opening statements, specifically prepared for public consumption and an uninformative and innocuous closing communique—if he is lucky.

The recorded history of several thousand is shows us that all the logical absurdities years shows us time an the logical absurdates of man have always been with us; what we have not outgrown in 4,000 years we shall not out-grow in another forty—Bill Williams, Professor grow in another forty—Bill Williams of Botany at Southampton University

HAVE YOU EVER WONDERED .

The Quinte Unitarian Fellowship invites all those interested to attend a meeting, which will be held on September 16th at 8 p.m. at the Retarded Children's School, 281 John Street, Belleville.

SPEAKER: REV. EUGENE B. NAVIAS

Have you ever wondered how Unitarians try to encourage children and young people to build up an approach to life, that includes all of mankind — regardless of race, color and creed — to learn about all religions, their origins and philosophies? Have you ever wondered whether you are a Unitarian at heart?

Why not come this evening?

RARE, MEDIUM, WELL DONE

By GEO. H. CARVER, Sports Editor

However there is no word in the Webster tome to de-fine the guy who not only does not get any return for his efforts but helps pay for it out of his own pocket.

It has been called other names. Wags of snootler loops who play in fenced-in parks, sell admissions and operate under provincial organizations have dubbed it the "City Buth Loop", "The Working Man's League" and "The Pasture Fielders".

For six years now in loops ranging from four to risen teams, the Commercial circuit has been pro-ing sport for "underprivileged" althotes, fun for its ostlines sparse faithful, and less than the average duches for sponsors.

With senior softball dropped to a new low plateau, aim of the Commercial League has become more im-tant. Its original plan to provide the opportunity for vers unable to make the upper bracket to play takes on

It has a strong executive and a strong constitution. Its team rosters call for 15 players and three coaches. Only three players under 21 are allowed each club. Top circuit players (B. and D.) must be out at least a year before becoming eligible for a commercial loop club.

Its executive consists of Dava Feeney, possident, Don ith, one of the solid backbones of the league since inton, if vice president and Ron Farguson sacratary. It has co-operation from coaches, managers and spontors.

"We have no lack of sponsors", President Feeney told me. "They provide the bats, balls and sweaters. The players supply their own towners. We have no box of fice and rely on fan contributions for financial support. When this is not sufficient to pay the ampires, the players dig in their own pockets"

He said the loop has no "packed" clubs. "We hold clings to this effect and sometimes re-locate players obtain an equality of strength in the league. The seness of finish in playoffs series is an indication of

At the moment the league finals series is all tied up at a wins each for the Barriage Landscapers and Lightfoot astruction. It could go the full seven games.

Nor do the clubs eliminated from the circuit cham-plonship playoff call it a day. The executive has arranged a consolation series for the three teams ousted by the for-tures of league competition.

As was noted, the Commercial League does not use fenced in parks. Through the generatity of the city parks board and this school board they use the city-waved Zwick's tiland and Alemite Field parks. The school board allows them to use the Prince Charles and King George School diamonds. Fout Anna saturally uses its own

The city graded all parks used by the league this year." President Feeney said, "but all could stand improvements and some more care. The outlieds require some attention, We could use two rows of seats at the Alemits Field.

However, he said, the Commercial League gratefully appreciates the fine gestures of the respective boards in permitting it to use the parks.

The Cammercial League operates on a well-organized foundation. It halds annual contractual meetings with the Unpurer Association. It has its problems, no doubt, but a futrentiated executive aided by occoperative conches and managers, smally from the withkite out to the estifaction of all concerneds.

Its brand of softball is far from the "bush-league" or "cow-pasture" brand. Its players are competition-conscious, win-minded, keen not bitter rivals and generally good

Seasonal problems such as sponsers, formations of leagues, and topflight players may bring heafaches to higher organized softball, but as long as the "Commer-cial" boys are around, the sport will never die, at least not in this neck of the softball woods.

Council Names Members to Fill Vacancies

Ratepayers Request Change In Zone Bylaw

A group of ratepayers in the Hillicrast area want to nave the noning by-law for their district amended to allow for construction of new homes. The existing by-lay No. 708 allows only additions to existin, homes but no new homes in the new homes in the new homes that no end yet in the new homes that no end yet in the new homes that area. And the land can be soll only for industrial purposes, and the land can be soll only for industrial purposes. For the new homes have a partition, from eight Hillicrast ratepayers objecting to the fact that water rates have to be paid on yearnt property on which as hat water rates have to be passed in vacant property on which no tomes can be constructed.

The petition asked that this vacant land be purchased by the city or the by-law amended to allow construction of working

Says Tourists Confused by Traffic Sign

Tourists passing through the city on the No. 2 highway route are being confused by a local traffic sign at the foot of West Bridge Street hill and are ending up in the vicinity of the fairmounds.

ing up in the training fairgrounds.

Alderman bon Whalen said the traffic department's big sign "Through Traffic Keep Right" at the food of the hill causes strangers to follow Bridge street along to the fairgrounds instead of continuing along Highland Ave.

LONDON LIFE APPOINTMENT

NEW CURRICULUM — Linton D. Read, chairman of the Public Library Books, it shows above, at left, receiving set of United Church "new curriculum" books from Rev. Robert Reid of Probbore, prepresentative of the Belleville Presbylery of the United Church of Canada. The new Jooks are available at the Cody Public Library and are part of a new public teaching program.

Book on 'New Curriculum' For Sunday Schools Given To Corby Public Library In 1862 the General Council cal absolutration and an embody the first to the first the first that the first was presented with a value of producing material that library was presented with a value of producing material that library was presented with a value of producing material that library and presented with a value of producing material that library and presented with a value of producing material that library was presented with a value of producing material that library and presented with a value of producing material that library and presented with a value of producing material that library and presented with a value of producing material that library and presented with a value of producing material that library and presented with a value of producing material that library and presented with a value of producing material that library and presented with a value of producing material that library and the producing material that library and the presented with a value of producing material that library and the presented with a value of producing material that library and the present of the present of the value of producing material that library and the present of the pre

Dr. McLuhan and the other experts should not be too harshly criticized. They were dealing with the world as it is, were explaining what modern techniques in communication and in psychology have made possible.

Mr. Fulton, characteristically and quite rightly, was concerned primarily with what it de-alrable, rather than with what is possible.

Politics may be the art of the possible, as we have been told, but this should be interpreted as putting a limit on how far a political leader will attempt to go, not as determining the direction in which he will attempt to move the nation.

In wince ne will attempt to move the nation.

There are many organizations which will be only too ready to embrace the latest psychological tricks and ride with the crowd. Much harm may result. But it will be negligible compared to the damage which is certain to be done if our political parties follow the same example and pattern their policies solely on what is popular, rather than having regard for what is destrable.

Templeton's Defeat

The defeat of Charles Templeton in the Ontario Legislature by election in Riverdale riding in Toronto provides political pundits with an excellent opportunity to air their wisdom, after the event

There is, for instance, the suspicion that his defeat was not viewed as an unmixed disaster ucreas was not viewed as an unmitted disaster by some of the more prominent Ontario Liberats. Had he won, it would have given his campaignle, for the leadership of the party considerable, perhaps irresistible, momentum. People who have served many hard years of apprenticeship have served many hard years of apprenticeship have served men years of the order of the control of the control of the control the control of the head of the control of the control the control of the head of the control of the control of the control of the head of the control of the control of the control of the head of the control of the control of the control of the control of the head of the control of the control of the control of the control of the head of the control of leadership can be described as a plum.

leadership can be described as a pitum. The truth of the matter may well be that none of the contenders for the party leadership could have done any better in Riverdale, a riding which has long displayed a strong left-wing combined that the strong displayed as strong left-wing combined to the strong displayed as thought of voters but which had been won for the singent of voters but which had been won for the dealership of the strong displayed to the strong d lights of his party.

As for Mr. Templeton, he now faces the acid As for Mr. Templeton, he now faces the acid test. If he is really interested enough in politics to make a good leader of the pastry, he cught to be interested enough to play a lesser role in seeding to ment its fortunes. He has hinted he plans to do this. If he drops completely out of the political picture, then the Liberals can rest assured he was not the man for the leadership this rup case. job in any case.

I think a society needs the creative, con-I think a society needs the creative, com-structive imagination of people who are really prepared to change it. The opposite seems to me to be vegetation, and we might as well turn into plants or animals if that is the only concep-tion of the organization of society which we are prepared to tolerate—Professor Ass Briggs of Sussex University. sex University.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Editor

The Judds, the Bagnells, the Justices, the Zuks, the Spows and other topflight senior softball huriers need have ear that their breed will die out.

The "Moppets of Mushball" as one wag dubbed them, re showing signs that they will be able to fill the illusticus aboes of the whit boys who set the softball world in its haunches with remarkable mound performances.

In fact, the famous Ray Judd, a Mormon moundsman who has been throwing the big ball past batters for not a few years, is still rated the top hurler in any classifi-cation of the gume. ration of the game.

The likable Judd may "be over the hill" within a few short years, but according to OASA playdown records, there should be no dearth of his lik in the future.

Minor pitchers from squirt to juvenile are showing signs of exceptional ability in the "chips-down" series.

The youngsters are coming up with no-hitters, perfect ames and two and three-hitters besides compiling strikeout ecords that are the envy of many a big pitching brother.

For instance in the squirt division, Port Perry's Laurie Williams tossed a no-hitter against Markham striking out 8 opposting batters. Tavissoch's midget hurler Keith Vagler set down Preston with a no-hitter.

And jumping to the top of the heap, the inimitable Judd dded another fine mark to a capful of achievement feathers hen he whiffed 24 Toronto batters in a recent playdown tilt.

i junior "C" circles, Whitechurch's Wayne Ferries ed a perfect game in defeating Grand Valley. No runners and 22 strikeouts.

And here's one for intermediate "C's" to shoot at, Gravenhurst's Bill Gelinas whilfed no less than 25 Elm-vale batters in a 16-hanfay rictory, but bowed out to a scrappy club in the third game.

In junior "A" Galt Siee Lumber righthander Eccles struct ut an even 20 batters in defeating a smart Hamilton crew ut was defeated 3-0 when he faced the Niagara Falls entry

And get a load of this. Wayne Colley, West Rouge juvenile "AP filtners, struck out 22 in a first-game win over Scarborough. He followed this with a 15-inning third game 2-1 win striking out 36 batters while the opposing Scarborough harrier, Eric Mortimers, whiffed no less than 36 batters before howing out.

According to OA5A sceretary L. G. Pickard's statistics, no less than £2 series to date have gone to a £6-citive third ginn. Trenty-four games have required extra lanings. An unbelievable 51 games have been won by the silm margin of one run and a fanisate 58 shutouts have been recorded with no less than 14 of these being 148 score.

But'one performance sticks out in this corner's mem-ory. That was the iron-man stant of Bobby Hunter when he was the all-Ometric junior "A" championship for Don McNevin's Glen Roys back in 1952.

The Glen Roys' defeated North Bay in the "Arctic City" a two straight games thanks to the Hunter flipper.

Bob took over from Bobby Green in the second innin of the second game and let the North Bay youngste down with one hit. He pliched 16 innings allowing b two scratch singles.

Members of that fine junior squad were Manager Don McNerda and Coaches Warpy O'Brien and Bill Spatiered with players John O'Brien, Lyle Wannahuer, Bobby Hunder, Bobby Green, Ted DeGray, Pater Green, Claude Carr, Gerry Goyer, Dong Hull, Don Barclay, Johnson, Batchelor, Bill Nolan, Frank Donovan and Tom Latty.

Then after the blankets had been restored, came that the-defying ride through the inky midnight darkness of gooquin Park in Don McNevin's wingless Oldsmobile air

THE 1965 OLDSMOBILE STARFIER

Regular size Oldsmobiles for 1965 have completely new, restyled, roomler bodies, on a totally new chassis, and are powered by a recently developed 425 cubic inch engine. Like all 1965 full-size Oldsmobiles, the 1965 Starfire is completely new, with a distinctive stayering rooffluer. The Starfire differs from obley oldsmobile models too, in the design of jobth front and rear end, and in its specific side modifing which ends is functional dual exhaust coulets. Oldsmobile 7-85 models for 1965 have been changed in many areas. Completely new are the grillp, headiamps, front fenders and buspper shd the hood. Rear end design is also hew.

Milkman, Rattle Those Bottles

Millman, karne Iriose Donies)

"Millman, keep those bottle qulet." So went; a popular song in the days before "flound Dog", and "yeah, Yeah, Yoak in the xery inspiring song, perhaps. But at least it dealt with one of the realities of everylay lift. The millman called at every home. While not exactly one of the family—despite a multimed of inspire place to the contrary—be was a welcome friend.

contrary—be was a welcome friend.

Now all that is going to be changed, according to Lloyd Langdon, dairy-marketing-manager
of the Per Mittle Con in-channed logity Tenn. He told
for the Per Mittle Con in-channed logity Tenn. He told
for a court play, Cothece, that if the present tream
and recovered control of food marketing by supermarlets continues, "it will be only a short time before there will be no more home deliveries of leg-

fag.

Known for over 500 years, pepper hat sometimes been dearest than more, Anderd representation, and the second process, all finitely sites, have precent, all finitely sites, have and brike, popper even served to the second process. All finitely sites, that and brike, popper even served to the second served for the served served for the popper and the popper and the second served for the serv Two factors probably play a role in this tendency to buy milk at the supermarket rather than from the route salesman. One is the growing pre-portion of housewives who work outside the hours from families of course to the sales of the market rather than ne. Some families, of course, have their daily home some families, of course, have their daily milk delivered white they are still askeep—"milk-man keep those bottles quitef"—but other calls on the route may not be made until everybody in the buse has departed—for factors, for office and for school. One does not like tolkers a bottle of milk standing beside the door for half a day, even where milk boxes in the wall are provided, there is the problem of refrigeration. Short of the dairy providing small wall refrigerators, which would involve considerable cost, the effect of this factor on milk deliveries is not likely to be solved.

The other factor is price. Some stores sell for less. Or a dairy may sell milk to those who call at a lower price than if delivered. With modern refrigerators, keeping milk purchased in large-quantities is no problem.

in might have hed a slower interest.

What people is and where it is considered receiving the receiv Here, we suggest, dairies with deliverymen have a chance to meet the competition. Why not pool the routes, letting one van cover a district? This would reduce delivery costs considerably. A variety of methods could be used. The dairies might divide up a city between them. Or they could market delivered milk under one label. Or each van could carry the products of all the coerating dairies.

For those who are in a position to take ad-vantage of the service, door delivery of milk is a great boon. No more forgetting to call at the store, no more accumulation of unreturned bottles, no more aggravating fumbles of slippery bottles while reaching for the key. Milkman, keep those bottles rattling!

An Easy Billion

A Chicago musician is planning to sue the Bank of England—for a billion dollars.

start proper plantations in Cen-per proper plantation in Cen-Pepport approximation in active proteins and rain. Black on in ploreins and rain. Black on its construction in the property is since much of the pungency is weight less and requires more work. Because of popper's some-time, and the pungency is weight less and requires more weight less and requires mor John Forting says, that an ancestor invested in the bank in the 18th century. His claim, though, is based on later evidence. As late as 1846 the bank was paying his great-grandfather \$312 a month interest. He figures that this means the principal must have been 20,000 pounds. Unp pounds. Unpaid interest, accumulating and it-self drawing interest, when added to the principal means that today, 122 years after 1846, the bank owes \$1,120,000,000, he says.

Not too many people have 20,000 pounds they can afford to put in the bank and forget, but even 20 pounds, invested in 1846, would pro-duce a millionaire today, if Perring's figures are

Almost every Canadian today has, or will have some time during his or her-life, \$100 he or ahe could spare—the \$100 being the equivalent of the 20 pounds sterling at the old exchange

If every person were to ante up for his or her fortunate progeny, there would be 18,000,000 new. Canadian millionaires when pay-off time came,

Could the economy stand to keep these millionaires in the style to which they would have the right to expect to become accustomed? Quite probably not—certainly Britain could not carry the load of the crop of millionaires which would

the load or the crop of millionaires which would be blossoming today if everybody in the country in 1846 had invested 20 pounds. All this may mean nothing. To some, though, it may suggest that the power of compound in-terest depends upon only a few making use of it.

Others may draw the conclusion that it is this ability of money to "breed" which may be a basic cause of inflation, the decline in the value of

Entertainment does not mean some shallow plece of escapism. Entertainment at its best engages both the heart and the mind, our emotions and our reason.—Professor Joel Hurstfield of University College, London.

Lively History of Pepper

the allumines Journey was retically away from the state of the state o

200 FRONT STREET

HOME-STYLE CAMPAIGNING - Mrs. Do HOME-SYME CAMPAIGNING — Mr. Dorothy Mixen, wife of Booter Nisson-candidate for the leader-ship of Ontario's Liberal Party has travelled 11,000 campaign miles. But when the tour brings her home set still finds time to sew, make bread and participate in local school and church activities. Prior to as-vening garden party for political supporters, she spent the afternoon cutting grass and husting corn-lines shed direct a secretary at the Nixon 110-year-old home near St. George, Ont. (OP Photo)

ds or buts." You are the sole judge of whether

and That's What You Get at

DOMINION

You get rich, satisfying flavour in the meats you buy at DOMINION, for two vary good reasons. First, because Dominion's experienced meat buyers tour the packinghouses every day, carfully selecting the prime young sides that Nature has blessed with an extra measure of quality. But even the best quality meat does not reach the peak of flavour until it has been properly hung. So Dominion waits patiently until time and Nature bring out the full, rich satisfy-ing tasts and tenderness.

The result is natural flavour . . . flavour that owes everything to Nature . . . and to Nature alone!

No wonder true meat-lovers say: "There is no substitute for the natural flavour you get at DOMINION!"

RARE, MEDIUM, WELL-DONE

By Gao. H. CARVER, Sports Editor September I was one of three or four heroic males red crash an all-woman dinner party at the Bay of Country Club.

Some 35-60 of the guiffing distaif side were gathered at the frestive board. There was a hum of azhatied con-versation punctuated by mild explosions of laughter and across-the-table stillen.

They were in anywhere from the fourth to sevanth heave epending upon the awards they had won. Champions been honored. Other winners had received their awar here was nothing "green-sped" in the admiring glances so other players.

"This," whispered a bachelor friend of mine, "looks ke the happy osding of a plot by the gals to outdo the mbands, brothers and sweethearts."

They are not outdoing the snales of the species, he was id, but their consistency in potting the little white ball metimes gets to be downright embarrassing to their he-

"They've done everything a man can do," asserted the achelor, "except father the shildren, grow heards and ecomo president of the United Statos, but I'll bet you and me modern gotting Eve will ever replace the almers, Nicklaus' and Lemas."

Speaking of the gals in general and "bots" in partic-ur," intrasured a benedict who prefers to remain an-mous, "we have four of the latter in the club who we been mainly responsible for the upsurge in success women's galf the past year,"

They are the quartet of Bettys - O'Brien, Wal-

Betty Ingram has been carrying the hanner of the Bay of time Club to district, provincial and international tourna-nuls and her trophy room bears plently of syddence of the occas of the hunt.

io?" sarmared the unimpressed backelor, "I thought san's place was in the home, but it leeks like it is e on the range, golf range, that is,"

Pleads Guilty

Coach Will Go To Taking Part In 2 Break-ins To Tokvo SIMCOE (CP)—A transient tobacce worker pleaded guilty Tuesday to taking part in two Simcoe breakins earlier this month in which disearms and other loot was taken. A Quebes man charged with

by Ned Riddle

week.

Bessel Vandesteeg, 21, of Thompson, Man, pleaded guilty on both breaking, entering and theft counts, and was remanded in custody one week for sen-

Markhaïa, is 10 miles north-east of Torc.do.
Crothere is entered in the 300 metres in Tokyo and Kidd in the 5,000 and 10,000 metres and marathon.
"I've only been to three meets without the old coach," said Kidd. "He's the only coach I've had."

In custody on week for now.

Mean-thin, a bench warrant in the war weapon.

Vandesteeg told the court that
he knew his companion in the NEW DISCOVERY!

SOOTHES STOMACH SUFFERING FAST

WHO LOSEST Personal Property

capture.
Degroote has feared for the safety of his wife and two children since he saw Dufresne' on his tobacco farm and called police, touching off an intensive manhunt which produced no re-

sults:
Degroote said he had co
ered offering a reward,
after talking it over with
wife, decided "it would
make things worse."

BELOW IS A QUIZ FOR *SMART PEOPLE

ANSWER 'YES' OR 'NO' TO THESE QUESTIONS:

1. Are you in your home or office now?

4. Are you enjoying today's paper?

2. Did you buy this paper at a newsstand? 3. Did you read this newspaper often?

5. Do you like convenience?

6. Do you like to save money?

IF YOU ANSWERED "YES" TO ALL THESE QUESTIONS, THEN YOU SHOULD CALL OUR CIRCULATION DEPARTMENT TODAY-

they'll see to it that you receive every issue of this, your favorite newspaper, at your home or office. And becausesubscription rates are less than if you pay cash for the paper each day, you'll save money!

 You can see what's in today's paper, but what will you find tomorrow and next week and the month after?

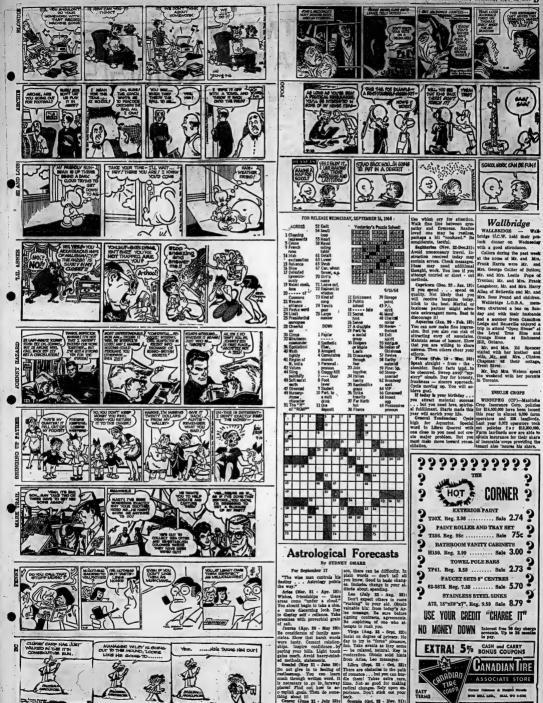

You'll find the same top-notch quality in the special columns and features. • You'll find bargains day in and day out through your local merchants' advertisements and the wonder-working ads in the classified section. You'll find information and entertainment for every member of the family in every issue of this newspaper.

Place Your Subscription With Our

Circulation Department Today. Phone WO 8-5757 Mail Rates are as follows — One year \$12.00 - Six months \$6.75 Three months \$3.75 - One month \$1.50 U.S. \$2.00 per month - \$21.00 per year

and both are genuine. A bank
spokasman said the notes were
a one - in - a - billion chance,
printed on the government's
presses.

ing and sectors to slow in Mr. Ryan, 33, is a trimolly bachelo from in Toronto who first we seem to the sector first seem to the sector which among other things which again feating to markets the distinctive distinguished Zikimo stone cuts and prints produced by Cape Dorset

peoples.

He's an artist himself, with
a Toronto exhibition to his
credit last year and another
peopling. Most of his work has
featured Arctic themes, especially landscapes.
ENCOURAGE DRAWING

He reported back to Ottawa recently, tanned and trim, on a project which is backed with a Canada Council grant—one of sks projects providing a total of \$18,000 to encourage the Eakimo

to draw.

Mr. Ryan set out in February
to visit Arctic Bay, Pend Inlet
and Clyde River on the northare need of Baltin Island, whose
eastern Hank faces Greenland
to the Communities of the Communities
and Pond Inlet In the centre,
is 2,000 miles north of Toronto.

is 2,000 miles north al Toronto.

The trip by dog team was require to old-hand Ryan, although even the Exkimos complained about the unurually cold weather which produced temperatures of 50 below zero in March when a little relief at least is expected.

Mr. Bran passed out the na-

heat I researched.

Mr. Fyron passed out the paper and peculis on one tip and then placed up the results a few weeks later on his way back. He got mostly lank-and-white passed some colored persults. Variety was inside. He tends to place more value on the contributions of the older post contributions of the older power will keep drawing for the fan it. He left an agent in each trace to collect any further drawing.

Showdown Near in Britain The date of the British general election been announced. It will be held Oct. 15.

The date of the British gearnet has delayed going to the people as long as foll life since it to the first parliament in was based on an every which indicated that the Labor party enjoy of the support of a majority of overes. The Prime Minister Harold Macmillan and later his successor, Six Reb Douglas-Hones, put off existing an election date in the hope that the later his species of the conservatives any election date in the hope that the late pop the Conservatives would be support.

Bettons, milke Canadians, the to change that the later has recommended to prove the public opinion poles on which the verifies is based may be support.

Bettons, milke Canadians, the to change that the later has recomment frequently, it hay be, though that the recomments frequently, it hay be, though that the find of warrently of industry that any change-over involves a grave discossion of the conservatives and the Laborites are at such a windy variance in the field of warrently of industry that any change-over involves a grave discossion of the conservatives and the Laborites are at such a windy when he rotund to power, promptly reversed that the field of warrently of industry that any change-over involves a grave discossion of the conservatives have completely embraned policies of the Conservatives have completely embraned policies which would at one time have been considered which would at one time have been co The Conservative Government has delayed g to the people as long as possible—this is first parliament to run its full life since the

entimisative about the integration of the nation's aimed forces than are servicement themselves.

In suppody really surprised? The public's acceptance of the change is easily explained. Obviously integration's offers some chances of reducing expenditures, and incided, the program has been presented as an effort to eachieve this economy. This pleases the tampager . . . and aimed everyfoody pays tames. For servicement, however companies any reorganization of the group in which one works but there is the necessity of a complete about-face in the attitude towards other sections of the armed services.

There is nothing like competition to keep an organization on its toes. In times of peace this incentive has traditionally been provided by rivairy between the forces. Now, suddenly, all are members of one big organization. There is room, of course, for continued competition between different units but a major source of rivalry has ed, or will be when integration is com-

plote.

Little stress has been placed on one aspect
of the integration which should give satisfaction
to serviceme and general public alike — that
scrual results match theory the efficiency of the
armed services as a whole should be increased
and they should be able to do a better job, enstates and form the cost factor. tirely aside from the cost factor.

I would say that the fountain-head of hope for mankind is love — not egotistical love, but mutual love: a belief in a God, no matter what form you think He lakes — a benign God; tolerance of other races; a complete rejection of wart trying to give our children an idea of beauty and mystery when they are growing up; and thinking deeply about what the consequences of your sections can be neckines can be neckines can be nether a Strike Yu school.

We have to create an image of tax men trying to carry out a necessary job — for the public's good — in a gentlemanly fashion.—Hon. E. J. Benson, Minister of National Revenue,

Reader Thinks Dumb Animal Is a Glaring Misnomer

DEAR ANN LANDERS — I am writing apropos the our printed recently about Kelley's cat who refused to ear in refuse, and the dog in Highand Park, Hillian Park, Hillian Park, Hillian Review on a Viddish newsper, I was not at all surprised. I have always moved that animals are more intelligent than

Animals kill only for food, or if they are attacked. Not so the humans. Every few days some kid chops up his parents cause he couldn't have the family car. Did you know that in 1800 the Nutional Institute of Health corded a grant of \$100,000 to a scientist who wanted to teach

arithmetic to chimpanzees? I sak you, Ann Landers, where did the phrase "dumb animal" come from? — THE CYNIC.

DEAR CYNIC — Kennth Galbraith takes it a step further. He points out in a recent book that humans turn to animals, both alive and dead, to advance their own positions. Mr. Galbraith wrote, "Men and women who sense their infer-

secreté dit.

I dou't know what my true feelings are. Sometimes I love him and sometimes I hate him. Yesterday when Oit took me wirmings and diel illuées fazely high dives from the big board I loved him. Youight when he pet direct, and told me I was a cheap instation of my sister, I hated him.

Do you think if I married Oils sand he was all mino-legally, that is — we could make a poil off it nam — HP DOUBT.

DEAR ANN LANDERS — There are several competent relates in our community but I am superially devoted to one. As been weederful to me and ny family, and I credit him haring saved the life of our younger child.

The told many francis about my high regard for this physical days of the community of the physical community of the physical community of the physical community of the physical phys

A lot of home heating claims are just half-truths.

What's the whole truth?

Right now electric heating is being heavily promoted in newspapers and on television claiming to be more economical, cleaner, more convenient, and safer than any other form of home heating. Oil heating is making the same claims. Natural Gas is too, Who are you to believe? The answer is simple. Compare!

In this way you can separate fact from fiction. Why should we make this recommendation? Because we know that by comparison Natural Gas will come out best. We can't help that. It just happens

Natural gas costs less-1 cent's worth of Natural gas costs less—I cent's worth of electricity produces 3,413 British Thermal Units of heat. I cent's worth of Natural Gas produces 10,000 British Thermal Units of heat. Almost three times as much. It costs less to heat with Natural Gas because you need less; use less.

Natural Gas cuts building costs Natural Gas doesn't need extra heavy insulation in walls, ceiling and basement that electric heating requires in order to keep high fuel costs down. Natural gas is economical enough that normal insula-tion, normal storm windows and doors are all that are needed. You don't need a thermostat in every room with Natural Gas, dialing the temperature up and down, closing off some rooms to keep fuel costs down. Natural gas with one

thermostat heats the whole house evenly.
Including basement.

Natural gas is cleaner, healthier— Natural gas burns completely. All of its volume is transferred into heat energy. It's clean heat . . . instant heat. There is no oily sediment or fine soot. There are no oil filters to change regularly, no nozzle to adjust constantly. In fact there are no moving parts to wear out in a Natural
Gas burner. So any service when it is
needed is free. Electric heating incinerates dust in the air and the evidence is in full view on the walls and drapes above every heating unit. Natural gas forced air systems constantly circulate and filter the warm air. Uncirculated air is stale air. No circulation-no filters with Electric

Natural Gas is safe, dependable, con-venient—Natural Gas lines are buried underground. Storms, fallen trees, blocked roads or adverse driving conditions cannot cut off your supply of fuel. Power failures or blown fuses do not stop the flow of warmth and comfort.

Compared to other home heating systems, natural gas is best. But don't just take our word for it. Almost 90% of new homes use natural gas . . . ask any of the owners, or a building contractor, or an architect.

Sport Slices ...

RARE, MEDIUM, WELL-DONE By Gro. H. Carver, Sports Editor

question that is going the rounds in the OHA
"A" circuit these days is, "Will Deunis Hull make
ig time with the Chicago Black Hawks?"

Not that the SEP-Eritar-ines Black Harks freat of-fice would throw out any roadhleeks, but Hull's pre-motion would leave a big vacancy along the left beards besides reducing the club's scoring potential

me end.

Brother Bobby is the only experienced leftwinger on the reader of the
Black E aw ks. following
that deal last winter. Otters, lachiding Dennie, are,
trying out for a berth and
a let of people believe he
will make it.

Non-datouring Dennis who loes not believe in going around opposing players when the shorter cut to the goal is straight ahead, is highly repaided in all junior "A" omtres.

I talked with a Peterborough junior official the clickt and he was high in his praise of Hull the Younge

"While he lacks the finish and pelish of Bobby—and that will come with experience—Dennis is the rugged geolesis (type who heres in straight for the goal. He has the size, size and shilly; I believe, for a National Leaguer. Personally I hope he makes it this year."

Hull is at present with the Chicago club training camp at . Catharines, and according to reports from that city is aking a favorable impression on the parent club brass. He played with the Hawks against the Toronto Maple Leafs in an exhibition tilt the other night, and proved that National League clubs, champions or otherwise, hold no fears for him.

A St. Catharines sportswriter wrote: "The most aggrestive player on the log for either club was Denais Hull, tooking for a job in professional hockey although still eligible for one more sesson with St. Catharines' Black

"Hull took a crack at almost every Leaf player. His targets included Kent Dougtas, Carl Brower, Bob Baun (twice), Ron Stewark, Ron Ellis and George Armstrong. Hull dropped Baun solidly at mid-ice and the Leaf player hicked at him. He missed.

"Eddie Shack," says the story, "naturally was involved in the two hardest crashes of the game. The Lest for-ward yas his wide a tressession seasoh by Elme-Valze ward, yas his wide in the season of the latter of the with Baddy Hell in the second. In the latter exchange Stack: Inside on Hill's head, the west on to play the first eight minutes and 30 seconds of the second period without relief."

WRESTLING . . .

The grunt-and-groaners wind up another season here Fri-day night a trifle earlier than usual due to repairs being necessary to the arena pipes.

Topflight wrestlers, the Toles boys have a syster their own which doesn't bode any good for their men, the Scufflin' Hillbillies, Rip and Chuck.

The popular Billy "Red" Lyone is back and will tangle with Bob Leipler in the semi-final.

Also saying hall and farewell is the Great Kudo, the stocky Oriental who will mix matters with Johnny Pott.

And so the curtain goes down on the mainlis. They aven't been blessed with any pew multitudes this year, as inimitable midgets being the best drawing card of

Facing up to a Problem

Facing up to a Problem
Canada is a rast country.
Canada is a rast country
Canada in a rast count

At last Parliament is being asked to do some-thing realistic about it. Legislation proposed by the Pearson Government, in line with the recom-mendations of the MacPherson royal commis-sion, would permit the railways to set most freight rates as management judged best. Freed of arbitrary restrictions, the railways would be of arbitrary restrictions, the railways would be able to fir rates at a level which would enable them to operate pupiliably, the only limiting factor being that imposed by competition from other means of transportation.

other means of transportation:

This is so obviously a step in the right direction that the average layman in the East will question the wisdom of the most notable exception to the rule, the freezing of the freight rates on grain and four at present levels. This is a clear-cut subdidy for the prairie farmer. One wonders whether it is essential, and if it is whether there is not some better method of present and the present and tecting our grain exports than by involving the

The provision of the new legislatine which is likely to provide the greatest number of protests is that which permits the measurement of the provided permits the measurement of money-losing branch lines and the cancellation of unconcentle passenger than services. Both changes will be undertaken gradually, which appears wise. It is interesting to note in this connection that the CFR seems resigned to abandour ing the business of carrying passengers to other modes of transportation, but that the CMR, on the other hand, is already laumched into a vig-crows effort to attract more customers. This is a healthy sign of an independence in outlook between our two great railway systems. It will be interesting to see which policy is proven west. interesting to see which policy is proven wisest

Martin Speaks Out

Hon. Paul Martin has criticized both the creation of national nuclear forces and the establishment of a multilateral scaborne nuclear strike force under NATO.

This will please almost no one.

Sir Alec Douglas-Home, Britain's Prime Min-ister who is now in the three of an election cam-paign, has just got through declaring he will never recomment that Britain disarm timilater-ally, and a big power which lacks muclear weap-ons is, in today's world, vitually disarmed.

General Charles de Gaulle has placed great stress on France acquiring her own, private, nuclear deterrent.

Martin's criticism of the creation of national nuclear forces will thus be unpalatable to both these close and powerful allies.

these close and powerful allies.

As for the multilateral seaborne nuclear atrike force under NATO suspices, it is the dream child of the United States, proposed expressly to discourage that proliferation of national nuclear forces to which Mr. Martin objects.

. Our minister of external affairs is thus hit-ting out at both sides in the current argument in NATO circles over nuclear forces and their con-

About the only thing which can be said in his savor is that he is very probably right. There are only two powers in the world which possess both the nuclear weapons and the means to deliver them which make them capable of fighting a major war. Those powers are the U.S. and Russia. Neither Enriah nor Prance singly, or both of them together, could stand up to Russia in a nuclear war. Without U.S. ansatzance, their cross are meaningless; with U.S. assistments of the control of the con

On most of the everyday issues of life, on the day dreams and fantasiae, on subjects of political and other religious beliefs, on a bundred and one matters of tasts, it is not difficult to detect the influence of prejudice, if need hardy remind you that our philosophers and art critics would cheer-fully cut each other's birasts in support of a pra-tuly cut each other's birasts in support of a pro-ture of the present of thought or art expression.— Dr. Edward Glories.

-FREE PARKING AT REAR-SE COLEMAN'ST DIAL WO 8-6791

This is my daddys 1965 Volskwagen with the bigger windows

Bigger windows. On a Yolkswagen. Hard to picture? Well, it's like hits. We started with the windahled and we made every single window just a little bit bigger and the better to see with. But the new Yolkswagen still looks pretty much like the old Volkswagen. Lullers you covered clore. Martin Hilliard looked real clore. Martin Hilliard looked real clore. Kids are

He didn't care that the windows are only 15 per cent larger. He knows bigger windows when he sees them.
And he knows how to draw them. So that's why we show
you Martin Hilllard's drawing of our new car. And the bigger windows. It shows you what the bigger windows feel like.

feel like.

And you can be sure when we make changes in a Volkawagen life not just window dressing. If is the same with all 16 changes on the new VW. They're all there for good reasons, improved brokes. Better gearbox, bushcatten-free steering assembly. And improved wipers to clean the bigger windshield.

Get in a new Volkswagen and see what Martin Hilliard had in mind.

Even if you're just window shopping.

DIET OF GRAIN AND ALUMINUM — Bale-Comeau, a newsprint form on the St. Lawrence River, is getting fat on a steady diet of grain and aluminum. Newsprints put it on the map. In 1957, the first aluminum ingot was produced there and in 1959 a company invested money for the construction of a 13,000,000-buthel grain elevator. Here part of an estimated \$200,000,000 butted grain elevator. Here part of an estimated \$200,000,000 butted grain elevator. Here part of an estimated grain grain and a Bale-Comean.

better than the hat trick

Three goals are great for a hockey player. But gasolines must score higher to make top performers of the 148 makes of cars that Canadians drive.

Four, in fact. That's why BP has added

two new medium-octane, medium-price Super gasolines between Regular and the top-powered Super. Now, you can move up from Regular to premium

performance for only a penny more per gallon. If you're buying top-octane premiums and your car is designed to run just as well on less, you can switch to one of the new intermediate BP Supers

and save 2, even 4* per gallon.

Now, with four great BP gasolines, there's one just right for your car at the lowest possible cost.

FOUR GREAT GASOLINES

One Regular and three Supers: SUPER RED is the top-octane fuel. SUPER WHITE costs 24 less per gallon. SUPER BLUE costs 44 less ... and only a penny more than REGULAR. BELLEVILLE, ONTARIO, THURSDAY, SEPTEMBER 17, 196

Successful Living

Good Home Environment Can Offset Outside Evil

DEAR DORIS — We have just built a home in a half's a nice setup. The boys are in Scouts and play hockey, taxes, good services. But this nice quiet little place has becopure hell for me.

My sister has a close friend who moved with her two boys when my sister was regnant, in order to help her. It's this fised who is causing goatly. When my size and family moved out the friends ayed on, with a man not her husband, and say are going to buy the house. Occuping his if the boy of 16 has been and out of reform eshool like writer on a try. Now this boy is teaching my on how to "form gangs and operate." I'm long notic.

DORS CLARE ag nota.

I can't just not associate with this seem and order my boys
to . The boys want someone to play with and there is no one
b. What can we do? — NERVOUS WRECK.

DEAR NERVOUS - It's a worry. But your home ha

more good influence than had in their lives.

My guess is they'll turn the tables and be to would-be gangater how to play hockey! Stand firm, Keep the lines open and when Juniors One and Two start asking

searching questions be in there to help with the discussion.

DEAR DORIS — At a church notal I now the dreamlest boy
I had swee seen. He had a very distinctive shirt on, When I saw
him I filoped. I didn't know his name or anything else about
him. When I came home I dreamt about him.

Doris, please help me find him. Im 16, When I saw him

Couple Killed, Children Hurt

Also Dead Picton Man. 2 Campbellford Boys

Five district residents, including the parents of two small Picton area children, were killed Friday night as the result of two highway accidents, one a two-car crash north of Picton and the other a rear-end smash seven miles east of Peterborough.

Killed in the Picton crash were Roger Salians, 25, and his 19-year-old wife Sandra, of Demorestville, and William D. MacDonald, 21, of R. R. 2 Picton.

Killed in the Peterborough mishap were two Campbellford youths, Ed. Copperwaite, and Paul Reycroft, both 17. They died as their car slammed into

Reycroft, both 17. They died as their car the rear of a slow-moving tractor-trailer.

Other passengers in the ear who are in Peterborough hospital in serious conditions are John Gorman, 22, of Hastings, and Frank Solmes, 25 of Peterborough Parks

UN Needs Broader Powers

With the Makarios Government of Cyprus greeing to permit United Nations troops to re-nain on the island until Christmas, the way has been cleared for the Security Council to

There is little doubt that the presence of UN troops on the island could serve a very useful purpose, if these troops are given the necessary powers.

purpose, if these troops are given the successive provent.

The William of the property descend, if Thank, has proved the second of the provent property of the troops and the trape to the trape trape to the trape trape trape to the trape trape trape to the trape tr

aboutd have created a stitution of which the property of the p these circumstances, the burden of making the force effective will fail on the shoulders of U. Thant. The UN has been ainquistry fortunate in the calibre of its secretary generals, with Thant having done a magnificent job of filling the big shoes left empty by the traigle death of Dag Hammarskjold. Eventually, however, if the UN is to fill its proper role, the members will have to pull their weight, ordering where the Secretary-General can only pited and persuasie.

Prompt Response

Tuesday evening a man stabbed two women in the grandstand at the Hamilton Stadium, at the conclusion of the football game between Hamilton Tigers and Calgary Stampeders.

It was the wrong place to do it. The man was promptly overwhelmed by members of the crowd. This is in sharp contrast to the attitudes of other crowds which have stood and watched assaults, on policemen or civilians.

promptly overwhelmed by members of the crowd. This is in sharp contrast to the attitudes of other crowds which have stood and watched assults, on policemen or civilians.

There are many possible explanations. It could be an example of churty—the vicitims in this case were women. The prompt reaction might have been sparted by the example of just one onlooker. We suggest though, that what happened at the prompt of the country of the countr posed of a different type of people, or wretner is is because the fina are accustomed to watch and applied daltiels who reprod promptly and vig-orously to sudden emergencies is a most question. Probably both isstore enter into the alusation, but the man who hopes a crowd at a sporting event will be composed of aloof and timid souls is in for a shock. consuly to sundern emergencies is a moof question. Frobably hoth factors enter into the situation, probably hoth factors enter into the situation, and the sevent will be composed of aloof and timid souls is in for a shock.

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER, Sports Edit

During tweety years of covering wrealing, I have not many graduates of the College of Applied Pacipdermy-from Sopound Little Seaver is 600-pound Man Mountain Dean-Wrealing is strictly the "good guys" evenus the "bad guys" from the persister plant of view. Yet mest of the "ungalies" when the fine would like to ten linds from limba are solvenees and generates in the dieseling.

Sports fans, generally, have their individual heroes, Professional baseball, hockey and football buffs have their Mantles, Howes and Jackle Parkers or Paul Horn-ungs, each to his own individual fancy.

My favorite wrester with whom I have enjoyed a close personal friendship for some two decades is Lord Athol Layton, gentleman, scholar, TV commentator, author, and ambassader of good will for the Ancient Order of the Hystic Shrine.

Athol first came here billed as an English peer of the sim with estates in Surrey. He entered the ring accomnied by an attentive valet.

ually he is not of the English landed gentry. The stell mathree-idol type was born in Australia he took up wrestling.

'He is one of the few wrestlers who do not affect a dual ersonality. He is a gentleman both inside and outside the

He spoke to the Belleville Shrine Club the other night as a member of the Rameses Temple, Toronto, member-ship Committee, The Shrine which always looks for the best could not have selected a better public relations medium then Athol Layton.

Some 65 Shriners heard Layton with Nobles George Hen l and Del Hopper of Toronto, speak of the Shrine and the ork it is doing for crippled children.

who canast afford teathers and/or hespitalisation. The literach is work to the Shine hone carrying the raddin of responsibility for the betterment of these toldier. He manifored the case of Nobel Bill Bills the way admitted to a Sarine benjain when from prace of each after the carry. He never makes a year to vidit the Montreal Shrine Hospital where he was brought back to health. "Bill we need now workers," and Alba, "more so than moore, Shrine hospitals will continue to operate until there is no money and every Scharter in deal?

cyton recalled many incidents of his long career in wrest-He told humorous stories about wrestlers he had met fought.

He recounted one (with tongue in cheek) of one would "never stay down", "After he died," Athol a they hired a wrestling referee to tap the three-count his coffin to make sure he stayed there."

Clean living and environment have paved the way for lany a champion in sport, he said, quoting Joe Louis and ack Dempsey and the sad case of Sonny Liston.

"Liston recently was deprived of his title became he had been misled during and after his youth. Dempsey became a popular referee as did Louis after Joe falled to make himself a wrestler."

Layton mentioned the flag controversy and said the australian flag question years ago was settled by a 14-

A youngster in Toronto asked his dad about the proposed of Canadian flag and was told it had three maple leafs on said Athol. The boy's eyes opened wide.

"Gee, pop," he saked, "is Mahevilch one of them?"

Layton presented a book on "Shrinedom" to Shrine president Phil Davis who chaired the dinner meeting. He was thanked by Noble Ed Way.

Neutrality Best Answer For Children of Divorce

were the many state that it will be incoming the and that the it will be incodings in six mentia and my dister will be in blooming school. Being sway will help a lo, but we need to know how to get off the spot now. Any suggestions? — FRO-DUCTS OF PFF-TT.

DEAR PROSUCTS — Children of divorce have a tough ush time without Seing builed and hauled from both

sides.

Declare your neutrality and tell them you don't want to hear anymore propagands from either one of them. You may have to say it three or four times but after a while they'll know you mean business and the problem will be resolved for all time.

DEAR ANN LANDERS — L'un a 18-year-old girl and have nestion that is turning late a problem. Lately a lot of poople, including my boy friend, have said to "You are getting more like your mother every day." I don't we whether this is a complimate or as insult. It would relieve my annual a whole lot if you would tell me option. I thank you. STADY READER OF YOUR

DEAR STEADY — What's your mother like? Do you want to be like her or don't you? Your answer to this question is my answer to your letter.

DEAR ANY LANDERS — You frequently advise people through your column to seek professional help. I hope you will continue to do so — even though some people may resent it it and set the measures. The not exact, Why should I go to a Table known for a long time that I needed psychiatric help but I kept putting I! off with one sexue after another. Mother insided that all needed war extra the work of the professional transition of the p

se put it.

I strote to you and you said, "Go, girl." That clinched it. I
strote. The cost of treatment (14 months) was about the same as major operation. This included a change of psychiatrists. I didn't get on well with the first one and changed after three

clicks get on well with one area.

A property of the property

you knew better.

Confidential to SEARCHING AND SEEKING — You can tell a great deal about a person by what he does when he has nothing to do. Take a reading, Chum.

Ann Landers' booklet, "How To Be Date Bait," gives sound and solid rules for teenage dating. To receive a copy, enclose with your request 25c in coin and a long, self-addressed, stamped

the right of all in liberal democracies. The simi-arity, though, is more apparent than real. The state will be preaching atheism, which would be wholly unacceptable in a liberal democracy, while the church, or large segments of it, will be dreaming of a return to the days when it enjoyed vast temporal powers.

Caution Necessary Here

The annual conference of the Canadian Society for Forensic Science was told by Crown Attorney Bruce Affleck of Whitby that physicians show a "natural reluctance" to testify at inquests against other physicians.

Later, in an interview, he added that this

attitude is changing.
This is well, but some caution seems advisable. Mr. Affick said physicians are now coming to feel it is part of their responsibility to weed out an occasional undestrainle practitioner. This view is sound, but there is a danger that the new view is sound, but there is a danger that the new out an occasional motivation practication; Trus vives is sound, but there is a danger that the new vives is out, of the trust is a danger that the new trust in the contradictory testimony. The man whose testimony is contradicted is not inevitably wrong—he might be right even if the weight of numbers were against, him—and even if wrong is not necessarily an indestrable practitions arrived in the second of the contradiction of the contradiction of the contradiction of the contradiction is not the contradiction in the contradiction in the contradiction is not contradicting their more contradictiony statements being mininterpreted as proof of incompetence, or worse.

Solid Republican South?

The solid (Democratic) South has been a myth for some years now.

The solld (Democratice) South has been a myth for some years now. The unequal yoking of the liberals and the labor masses of the great northern cities with the mean of the southhand produced a situation and the southwas crossed by "state-righters". The great personal popularity and the pressige of General Bisenhower enabled him to breach the stronghold for the Republicans. Now we see Senator Barry Goldwater, the Republican nomines, receiving a rearing, flag-water of the stronghold for the Republicans of the Republican nomines, receiving a rearing, flag-water of the stronghold for the Republicans. Those Democrate who are viewing this with alarm as an indication that the South is no longer solid are behind the times. It may well be solid — again — and this time for the Republicans.

I regard a gentleman as someone who is fundamentally gentle. He may have to be tough, but see an be tough in a gentle swy. He must be looses, polite and persuasive, and I think the disa of beauty comes into his actions as well as his morae. After all, an effective morally is quite I sufficiently. The company of the company of the law of the company of the company of the company of the law morae. After all, an effective morally is quite and law morae.

GUARANTY TRUST

Why buying a London Life policy is as good as buying a piece of property (perhaps better)

The value of London Life permanent insurance is not in the lap of the gods. It is guaranteed. You don't need a large down payment. You can borrow money on it. And all the while it protects your family more completely than any other investment.

You MAY LIFT YOUR EYERROWS when we compare a London Life Jubilee policy with a piece of property. But consider these facts: a piece of property, but comainer torce sates,

(1) Investment in a piece of property usually involves some risk. A London Life Jubilec policy avoids the hazards of investment risk. The cash values of your policy are gnaranteed.

m writing.

(2) Start modestly, \$13.09 a month isn't very big league in the investment world. But invested in a London Life Jublice whole life policy it provides protection and builds substantial savings. If you start at age 25, by the time you reach age 65 you will have had \$10,000 life ingurance, protection for your

up savings of about \$13,170, twice as much as you have paid in previams. This is made up of \$5,580 in guaranteed cash value, and \$7,590 in accumulated dividends.

in accumulated urveness.

(3) The dividends above are based on London
Life's current dividend rate. While they are not
guaranteed, the Company has had an outstanding record of dividend growth for over
50 years. For example, since 1951 the dividend
rate has been increased seven times.

(4) When you're ready to retire, what other form of property offers you all these choices: at age 65 you can keep right on with your London Life insurance protection; you may stop paying premiums and take a paid-up policy for an adjusted amount; you may take

up—take it in a lump sum, as an income guaranteed for life or as an income for so many guaranteed for tire or a-

(5) With your first premium you create an immediate state. If you die, the value of your London Life policy is greatly increased—worth much more than you have paid in premiums. Many other properties must be accrificed when

(6) You can borrow from London Life on the cash value of your policy. Quickly and quietly. Just call the local London Life office or your representative. No caseld tools. And all the while your policy continues to protect your

(7) When you borrow from London Life, the interest rate is 6%—comparable with banks' regular leading rates and much lower than

(8) A London Life Jubilee policy is a good in-vestment in other ways. It is just as safe as

high-grade bonds and much safer than most common stocks. It is particularly attractive because while it earns you money it protects your family.

your family.

(9) Property, values may rise or fall. But a
London Life Jubiles policy grows with dividends and jearnated values. Dividends are
declared each year. In 1964, dividends alroad
to owners of London Life profit-sharing policies will exceed \$27 million.

(10) One reason London Life premiums are low is because Canadians, on the average, are long lived. Dividends to policyowness are high because, among other things, the London Life Insurance Company invests wisely and profile abby. (In 1963, the Company general 5.54% on its investment expenses.)

(11) No two men have the same insurance needs. That's why your London Life repre-sentative has been schooled to tailor insurance sentative has been schooled to tailor insurance to fit your needs. He is trained to give you efficient service for many years to some

This award is given for the best land in the field. The boys participating developed the control of the derive their own in zeroes of the County.

A. Thompson

Is it a big car? Is it a small car? Is it a compact?

Yes.

It's a Volkswagen 1500. It's a big car because it can carry seven children, a mother and eight smiles. Or it can hold five grown-ups sitting down. It's a small car because it's three feet shorter than most station wagons. And it's a compact because we don't waste a single inch of space. The engine is hidden away deep down in the back. So you have a 5% foot flat loading area. And up under the front hood there's a trunk. Just like in Volkswagen's famous beetle-shaped sedan. And our VW 1500 has all the other advantages of the more familiar looking Volkswagen. It gets better footing in mud and snow because the engine weight is over the drive wheels. There's no radiator to freeze or boil. And it doesn't use much gas. The VW 1500 usually gets about 35 miles on a gallon. And it doesn't use much gas. That goes a long way with seven children and a mother.

RARE, MEDIUM, WELL-DONE

A Toronto yacht, the Countess of Dufferin, was de-fessed in the first attempt while a Belleville alsoy, the Animata, falled to defeat the Yeakee defenders in the

Her captain, Alexander Cathbert and crew of four, were untried freshwater saliers; rank amateurs from the Her of Quinte Yacht Chib.

The challenge was accepted for a series of three ra e held off New York in September of the same year.

But lack of funds delayed the completion of the Cam-lian sleep. There was no time for her to take the St. Leurence and occun route to New York.

Captain Cuthbert took her the "short way" and entered the Eric Canal at Oswego where her spars were unstepped. She carried heavy ballast of iron ore.

Her beam, 19 feet, six, was 16 inches wider than the canal. The crew shifted her ballast to one cide to "heel" the heat enough to exable her to navigate the narrow locks. **O**

There was not enough time or money to finish the "Atal-nta". She sailed in her "rough" bull. Her sails could not a record nor spars improvements made.

Atalanta" was built on a total outley of \$2,100. Had ther \$10,000 been spent on her she might have won

Her anxiety crew was augmented by salitanter meant New York. But they were societased from the start is the American defender "Mischlet", a 94-feet sleep hell of iron, polished smooth with blackleed and equippe with lead ballant.

Gusting squalls greeted the bests in the first race hele on November 3th. "Atalanta" staggered under the wind, named. Forty minutes were lost in recting and by fre quent laffs Cuthbert brought his best home 23 minute behind "Mischief".

The best back was in gale-like wings. Topsails came down and mainsails rected. Unfortunately Cathert mis-took the position of one of the bourse burys, and Can-ada's second attempt to win the America Cup was lest.

"Atalanta" went on to win the International Fisher Cup Trophy symbolic of the North American fresh water cham-pionality from a field of 13 boats. The trophy remained in Belleville until 1862 when the Bochester yacht "Onward" won it in the Bay of Quinte.

Factors indicating extension of the current spartment building boom are the natural growth of this well located community, the emergence of many young parents born in the prolific warrine ers; and a general trend lowards spartment living.

Even more decisive than these elements, however, would be the securing of new untry. If Bellaville becomes more competitive with other cities (which have been sting us to the punch in this regard) a new found source of basic income will do to raise the pay of marginal wage earners attracting an influx of workers and sting an unprecedented demand for new payariment blocks.

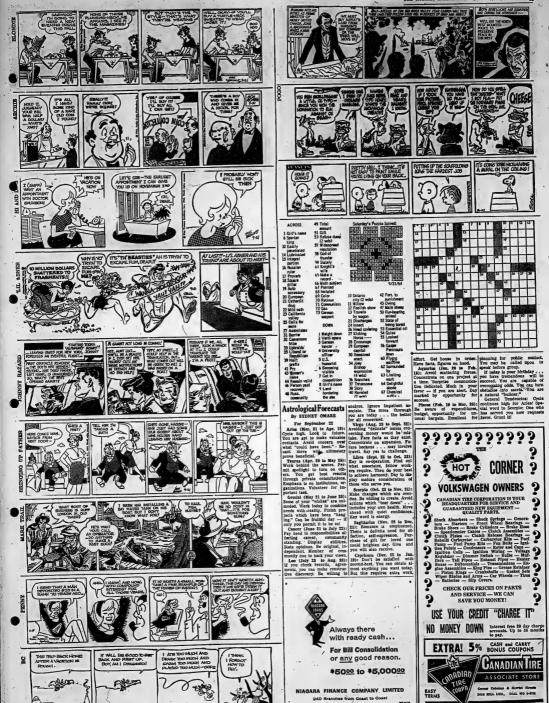

Confident that this is the trend of the future — this firm has secured the exclusive listing to centrally located sites for 12, 40 and 80 block apartment buildings.

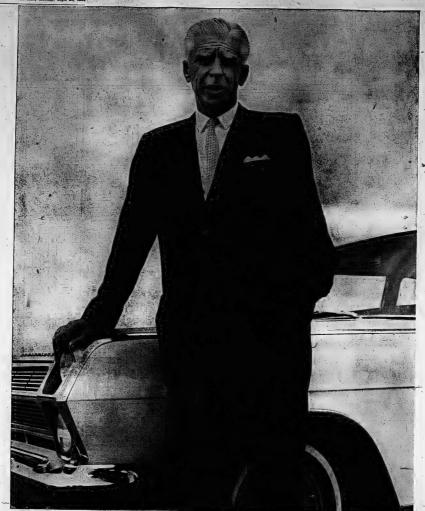

You can buy the land and build for yourself or we will contract the entire project including land, building and financing.

If interested in smaller blocks, we will build a centrally located six-plex for you for \$42,000 including land or an extra large three bedroom, 1180 sq. ft. (each suite)

Existing duplicates of these buildings are now realizing minimum monthly rents of \$800 and \$250 respectively. We will be pleased to show you through these blocks so you will have exactly what you will set for your dollar.

DOUG GRANT Real Estate

On September 28 Rambler will be introducing the 1965 Ambassador—designed to bring Rambler quality to the larger-car buyer.

With our reputation for knocking big cars, does it mean we've done an about-face?

No.

First of all, American Motors desert have anything against big case. A finusise, for instance, is a big can and we wouldn't have it any other vay. What we can't accept is big-car appearance without big-car usefulness. To put it another very, useless occess (sacce that can't be used for proper or luggages, horsepower that just sits there) is bad design and we can't go along with it.

along with it.

Back in 1957, we took one look at the fins and the overhang and the bulbous exteriors and cramped interiors and said "hold it". Surely, we reasoned, people are buying these cars only because they don't have a choice.

The result was the compact car, And what a result it was. Today, every North American automobile manufacturer offers a compact car.

But let's face it, not everybody wants or needs a compact car, which means that many car owners have had to forego the exclusive features and the quality construction that made our compacts the leaders in the field in a very short time.

This is no longer true.

With the Introduction of the 1965 Ambassador, we will begin Phase Two of the Rambler Revolution. The totally new, longer, larger 1965 Ambassador

will give Canadian motorists their first opportunity to drive a larger car that offers all of our many exclusive quality features.

We've put Single Unit Construction with Uniside, Deep-Dip Rustproofing, Double Safety Brakes, fittings that fit, interiors that are truly roomy and comfortable, appointments that are luxurious, trunk space you can use, into a package that takes a back seat to nobody for styling.

And we're offering a wide new range of power options and features—every option and feature you've ever wanted on a new car. There are over 70 in all, from autor instantissions, full power equipment, and all-new disc brakes to AM/FM radio.

The 1965 Ambessador is available with a 270 hp. VB. Compared with 1950-400 hours may not sound like much, Just drive if once, You'll observe brilliam on the control of the

In addition, the Ambassador will offer a 198 h.p. VB and the revolutionary new Torque Command, a six cylinder engine that performs like an eight. Its new 7-Main Bearing crankshaft with eight counterweights gives you an amazingly vibrationless, quiet ride.

No, we've not done an about-face. We've not turned our back on the compact car. We'll continue to offer our compact Rambler American, the lowest-priced Canadian-bulk car. And in addition we'll offer our completely re-styled, mid-size Rambler Classic.

And we'll sell a lot of them.

We'll also sell a lot of 1965 Ambassadors to men who are looking for real car quality in a bigger size—to men who want proven Rambler quality, exclusive Rambler features, and a wide new range of power options and extr

I invite you to see and test drive the luxurious new 1965 Ambassador— Phasa Two of the Rambier Revolution. It's coming to your Rambier Dealer's September 28th.

The New Liberal Leader The Ontario Liberals have a new leader,

young (39), dynamic and good-looking.

young (38), dynamic and good-looking.

In choosing Andrew Thoupson to attempt to not the political widerness of the political widerness of the Opposition, designate to the Ontario Liberal Pavly convention on Saturday picked a man with many oftous personal assets played the major role in this choice. Rather than Mr. Thompson's personal appeal to the delegate, the decling factor may have been the backing of the Federal party's machine.

"Machine" has a bad count in sollities. It

meding of the Federal party's machine.

"Machine" has a bad sound in politics. It
hrings up sential pictures of Tammany and
other Understand political party can operate without political party can operate without tight
opper machinery. The machine can consist of
the most knowledgeable and most energetic
party worters, just as easily as it can consist of
nen of less savory background.

No Liberal's teaching for the control of the control

men of less savory background.

No Liberal is going to sufmit that the Federal matchine' in Ontario is not composed of homele men and women. To say that the "matchine' in Contario is not composed of homele men and women. To say that the "matchine gave Thompson his related by the transcription in the composed of homele work that have been as the person in Federal politics have been as to persuade the provincial politics to accept as its leader the man those in Federal politics believe best fitted for the task.

The last time the Federal means

The last time the Federal machine tried to dictate the choice of a leader it failed. It backed Hon. Walter E. Harris, minister of finance in the Hon. Walter E. Harris, minister of Hinshe in the St. Laurent Government, a lawyer from a small town and the man who finally unseated the Commons' first woman member, the late Agnes Mac-

phall.

There is scant evidence that the convention was wise in its decision to reject Mr. Harris and choose instead John Wintermeyer. Of the two men, Mr. Harris had the greater political experience, had a pleasing personality which could match that of Mr. Wintermeyer and had carned his politic spurs the hard way, against strongly entrenched opposition.

The reluctance of the Ontario Liberals to accept as leader a mfm with close the so the break of the control of the company of the company of the control of the

The rejuctance of the Ontario Liberals to accept as leader a man with close ties to the Federal branch of the party may date back to the days of Mitchell Hepburn, whose feud with Prime Minister Mackenzie King was known to all and

aumeter macacane Rung, was about a manufactured and aumentary. Ontain therein, though, have tirked turn and again to win power under leaders not closely tiet to the Federal machine. Trays can, den to worse under their new leader. On the final ballot the choice was between accepting a man favored by the Federal Liberals or placing themselves in the hand of a man without any previous active political service. Though the six certified and the service and the service certified and the

Meeting of Season

"Wanna trade?"

Frogs, comic books, butterflies, bottle tops...you name it, children will try to trade it. No one has to tell them. They know instinctively that trade is important. Only later do they find out how important. It's the difference between being rich and poor...weak or strong ... employed or unemployed. Trade is at the hub of everything we enjoy. Trade is one of the reasons Ontario is called the Province of Opportunity.

Trade is the key to future opportunity, too-trade beyond our national borders. Now, more than ever, Ontario must sell to the world.

All of us have a job to do. We must see that our consumer products continue to meet or exceed the highest standards of foreign buyers. We must encourage Ontario industry to manufacture for export. And we must lend our full support to the individuals and organizations who work to broaden our overseas markets.

The climate is right for trade expansion. Individual enterprise and initiative can reap a rich harvest. And every dollar we earn through exports is a dollar invested in a confident future for our children.

"Wanna trade?" You bet we want to trade!

ONTARIO TO GOVERNMENT TRADE CRUBADE

THIS TARNISH-STOPPING TEAM ENDS SILVER POLISHING FOR BOOD

New Hagerty Silver Duster and Hagerty Tarnish Preventive

It's true! Your days of repeated polishing of display silver are over! This new kind of silver cloth is impregnated with the famous Hagerty tarnish preventive in-gradient. Polish once, then just dust. As you dust, the Hagerty Silver Duster renews the invisible ternish barrier created by the polish. Your silver gleams on and oncreated by the pount. Four surer grains on and on — without re-polishing. Both are so gentle to your silver, too, and absolutely safe for sterling or silverplate. Get this revolutionary team — forget polishing for good. Hagerly Stree Desire, \$2.96. Hagerly Tarnish Preventive, Tiese Stone,

Sport Slices ...

RARE, MEDIUM, WELL DONE By GEO. H. CARTER. Sports Editor

The thunder of shotgun artillery will unber in the duck-matting convox in the district next faturday. The measure extends from September 26th through Documber 18th.

Of special interest to hunters is the fact that there will be a increase in the daily hag and possession limit on certain pecies of waterfowl in Ontario for the coming season.

in other words in 1964 a hunter may have four wood ducks in his bag limit — totalling five of any species. The possession limit on all species of ducks with the exception of canvashacks and rodheads is twice the daily bag limit.

Although the overall population of canvashneks and red-heads has increased somewhat over the past two years, these apecies still require some added procedon. Therefore, the possession limit remains the same as the daily bag limit.

The Tweed headquarters of Lands and Forests empha-nes the suggestion that all sportsmen should realize the uportance of learning how to identify various species of

The Tweed officials also point out that in a locality that game awaily inhabits or in which game is usually found, no person shall have a firearm in his post-scales unless it is onloaded and cocased, between one half hour after unset and one half-hour before suarise of any day.

The recent revision of the waterfowl regulations also flows the taking of an additional two scaup (bluebills) or oldeneyes (whistlers) for a hunter's bag limit after October

The bag and possession limit on geese (in the aggregate) ralls, coots and gallianies (in the actregate) remains at five per day, ten in possession. Wilson's snipe and woodcook each have a limit of eight per day and sixteen in possession.

As was noted, knowing the species of ducks and gress can be very rewarding to the hunter. When species are protected because of their scarcity, it is espatial that a hunter iden-tity his game before he pulls the trigger. When extra birds of a certain species are permitted, in the bag, hunters who know their ducks on the wing, come out alread.

At the recent meeting of the Belleville District Pish and Game Club, a department official from Tweed urged duck hunters to forward a wing of the different varieties of ducks hilled. This will enable the department to ascertain the populations of species in the district.

And while on the hunting subject, deer seekers, mos of whom do not past up a big moose if it crosses their gunsights, are reminded there is no open moose season this year south of the French and Mattern rivers.

Moose steaks this year will come from the northern hun-ing outposts of the province. The first kill locally was made by Herb McCabe who brought in 710 pounds of dressed moose from an area 18 miles north of Hearst, Ont.

Hunters generally are reminded that a hunting licence does not give him the right to enter on private land. Many "No Trespass" signs have been put up because a few hunters did not respect private property.

Be sure to close gates. Do not discharge your firearm near buildings or livestock, Get to know the farmer. And it might be a good idea to share the game with him.

If the land-owner asks a hunter to leave and he does not do so immediately, or if he does not obey signs pro-hibiting fishing and hunting, he is violating the Game and Fish Act.

WESTGATE PHARMACY

WO 3-2652 Open Daily "II 10 p.m FARE MOTOR DELIVERY

The Rambler Ambassador is the longest and most huxurious of three distinctively different lines of American Motors cars for 1968. Over-all length has been increased 10 hocks. Shown is the Ambassador 960 four-door sedan. A wide choice of engines includes a high-performance Torque Command at at 184-horrespower as standard on the Ambassador and two optional. V-3s at 198 and 370-horrespower.

The intermediate Ramhler Classic for 1965 is completely restyled with over-all length increased by fire inches on most models. The Classic line offers a full selection of models, including two and four-door seians, and two-door hardtops. Shown is the Classic 770 four-door seiation wagon.

Styling refinements and a wider selection of engines are features of the Ramilier American line for 1965, Ramilier's new high-performance Troque Command engine is being offered as an option on Americans for the first time. The 325-cubic inch engine, rated at 155-horsepower, has a seven-main bearing cranishant with eight counterweights, and is said to rival many V-8s in performance and smoothness of operation. Shown is the American 440 two-door hardiop, one of 8 models in the lim.

Parley Planned On Retardation

FLIGHT ROUND WORLD in 1926, Richard E. Byrd and Floyd Bennett flew to the north pole and circled it, crossing al-the meridians of longitude one full, 10-minute turn.

we've put a stop to highway robbery

Here's an arresting fact. Now, more than 591,000 Canadian automobile owners can stop paying too much for gasoline!

Their cars are designed for premium grade fuel, but not for the full power in the top-octane premiums they have been buying. These motorists pay for extra octane their cars can't use.
Up to now. **Now,** BP has added two new

medium-octane, medium-price Super gasolines. With four great BP gasolines... one Regular and three Supers...you can exactly match the power requirement of your car at the lowest possible cost.

Think about that. Maybe you're one of the thousands of premium gasoline buyers who can use one of the new BP Supers and save 2t, even 4t per gallon.

FOUR GREAT GASOLINES

One Regular and three Supers: SUPER RED is the top-octane fuel. SUPER WHITE costs 24 less per gallon. SUPER BLUE costs 44 less... and only a penny more than REGULAR.

Favoritism Feared

Favorilism Teared
Canadian industies producing goods necessary for the nation's defence are hiring senior officers of the amod services after they retire.
This, says The Canadian Fross, is causing controlled to the control of the c

y their close friends.

A similar situation in the United States led A similar situation in the United cases for to Congress passing a law requiring a one-year lapse before any person who had been employed by the executive branch of the U.S. government could take a civilian job in which the U.S. government had a substantial interest.

ermment had a substantial interest. We would not favor a similar law in Canada. For one thing, it hardly seems to solve the problem. One year is a comparatively short time to wait to become eligible for a really important — and probably incurative — job. Friendahips and associations with former colleagues would probably survives most a short "cooling off" period.

— Nor can we understand why Ottawa officials should be fearful that the switch of semior officials should be fearful that the switch of semior office.

should be fearful that the switch of seamo oni-cers to private industry may bring (and we quote The Canadian Fress report) "the possibility of the defence industry dictating what the defence department should buy, instead of the other way

department about boty, misses of the other way seems to be sufficiently as the second of the second

Detect Cancer Early

The other day a meeting of medical tech-ogists at London, Ont., was told that St. eph's Hospital in London makes simple smear ts of all female patients and that these tests have detected 36 unsuspected cases of cancer

Blave curectus or method in the last five years.

Of these 36 cases, all were cured.

St. Joseph's, we are told, is one of very few hospitals in Ontario making such amear tests, because of the lack of technologists.

Rather obviously, the sooner we get enough the such administration of the such control with such administration of the such control with such administration of the such control was such as the such administration of the such administrat

because of the lack of technologists.

Rather corrountly, the source we get enough technologists for all hospitals to follow this gro-codure the better.

We take with a grain of sait, though, some of the implications found in The Canadian Press report of the meeting and of the information given the technologists by Dr. Azak H. Walters, chief of obstetries and gynaccology at St. Joseph's

Joseph's.

For instance, we are told the test catches cancer "at a stage where there is a 100 per cent cure rate". If this means that the test can detect

sure rate." If this means that the test can detected cancer a stund an early stage that a cure is practically certain, this may be true. But it is surely obvious there is no certainty all the cancers de-tected in hospitals will be in such an early stage— the fact that all 36 cases floovered at St. Joseph's in five years were curable is largely luck. Moreover, though admittance to hospital ob-viously provides an 'ideal opportunity' for such itests, if they are see intuited by as this report itest, if they are see intuited by as this report vating their universal tale, with people who be-lieve they are in good health as well as those who are in hospital for some other reason. Something similar to cheek 'Kray clinics, which have helped similar to chest X-ray clinics, which have helped uce the incidence of tuberculosis, would ap

pear desirable. The story from London, though, said that such smear tests are routine in many U.S. hospitals and in British Columbia and Manitoba. We find it hard to believe that the report tells the full story. Otherwise, surely some wider utilization of the method would have been attempted by now by public health officials in some state or province.

As a thriller writer I have always rejected the idea that a shelf of thrillers is not literature. A good crime novel is just as important socially as a good so-called serious novel Take the crime out of the classics, and what flat stuff it is!-John Creasey.

Strictly Personal Americans

Prefer Individualism By STONEY J. HARRIS

sumg at much the other day, how his son — a strapping col-lege student — had been forced to shave off his new-grown forces because of the fitbes and joers of his friends, both male

taunts of parfect strangers. We went on from there to dis-cuss that oddest and most per-plexing paradox in American life: That, while, we pretend to believe in "individualism," we do everything possible to stifle the individual spirit to curselves and in others around us.

and in others around us.

Perhaps nowhere else in the
world — except in savage tribes:
that are ruised by totem and taboo — is there such a horror of
mon-conforming of differing from
the norm. Even the traditional
sturfy Englishman is a satyr
with try in his air compared to
tie.

Exceptibing is built to look as much as possible the everything else. Even our concept of "beauty" as read to be a support of the end of the en

senized capitalist society Is not much better than an homogenis-ed Sorriet society. When that boy can braid his beard, pot a purple ribbon in it, and walk down the avenue un-tuurted by his fallow mee. then and only then will we be truly a nation of individualists, in the deepest and most meaningful sense of that much-abused and cheapened word.

Today in History By THE CANADIAN PRESS

Sept. 19, 1984 ...

We know you may not dash out and buy a '65 Oldsmobile after reading this ad. But how about dashing out and looking at one? At your dealer's, tomorrow.

Let's face it, the pictures on this page don't do Oldsmobile justice. But they do show you that this '56 Oldsmobile is mey. What you can't tell from the pictures is the väst amount of detailed differences this year. New styling, New Deffa 88 models. New colors. New emblems. And, more than meels your eye, new response and power from new Super Rocket engines. New Turbo Hydra-Matic Drive. New cheasts, new frame, new suspensions, new wider tread, new ride. New instrument panel. New this. New that. New the other thing, Honestly. The new Olds is about the newest car as your most likely think. Of course, we don't expect you to kake our word for it, not before you've looked into a new Olds at your dealer's. But we'd Stire like you't hold that, very soon.

see the OBDS F85 new Obdos tomorrow!

(we call it the pocket-book sized Olds)

F-85 is new this year. Just about every way-except one.

The style is new. There's a new die-cast grille, making the front more massive, more impressive. And there's a new flair to the rear deck. But that's not all that's new. There's a new ride. Quieter and smoother, And that's saying something. New corrosion protection. Starting with galvanized rocker panels, a corrosion soft spot in many cars. New interiors. Plushier, more inviting. New almost everything.

Except its price which is again pocket-book pleasing.

F-85 is still an easy car to own. Nice car to own, too. Why don't you talk to the people selling the new 1965 Oldsmobiles? They'll be glad to see you driving

new F-85's, Give

them a call. new

Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARVER. Sports Editor They call the mound in the Baltimore Orioles baseball ark "Bunker Hill".

It is so-called because Wally Bunker, a 18-year-old kid pitcher stopped right out of high school into the American League as if he owned it.

The Orioles Hedgling, a big bonus haby, pliched a nehitter in his first start of the year sgainst Washing-on. He west on to win his next five before losing one. in record this writing was 18-5.

Ed Lopat, a great pitcher with the Yankees, says there've been pitchers before who stepped right in and won a lot at the beginning and built up their confidence early. A good example is Whitey Ford who broke in with a 9-2 record and hund been a loser since. Bunker could be another guy like

at asionished American League managers as the ester made his round of the circuit was his self-uses and east with which he pitched.

With a touch of precociousness, Bunker does not view imself as a kid. Pitching has been a serious business to him long as he can remember.

"I've been pitching all year since I was five years old," any the swarthy six-foot-two righthander, who bears a striking facial resemblance to Bo Bellanky. "I must have pitched 1,000 games and whan you've pitched that much you ought to have some poise."

Like another great American League pitcher Bob Feller, a architect for Bunkers mound career plan was his father.

Bunker claims that most of what he knows about base-ball was taught him by his father. They followed a cer-tain plan assiduously and it worked like a charm. Se-intent was the father that injury would not mar a base-ball curver he forbade Wally to play either bankethall

Bunker needed less than one full season in the minors. He spent that with Stockism in Class "A" baseball where he run up a record of 18-1. At the tail end of the season he was brought up to Baltimore at 18 years of age.

major disappointment was that the San Francists, his home town club, showed only mild interest. They never did become involved in the bonus bidd

The Oricles carried him as Number 10 pitcher at their fiami training camp, but when the exhibition games began under showed that he can get out even the higgest of the

His first appearance was against the Yankoes and he held them hitless for three innings. The next time out he performed the same trick against the world champion Dedgers.

"It's swful early," said manager Hank Bauer, "but if he keeps pitching like that, he will do. He threw one fast hall out there that I couldn't even see from the dur-

th Bunker's is no ordinary fast ball. Harvey Haddix, weteran hurler who came to the Orioles this year fr Pirates, thinks he knows Bunker's secret.

"He's got the toughest pitch in the business," says Haddin. "It is a natural riser that breaks up and in on a right-handed hitter. That's something you either have or you don't have. You don't develop it. It's got to come natural to you."

Bunker's father did some wishful thinking a short time ago. "All Tm rooting for is the Giants to win the National League pennant because I know the Orioles will win the American League fig. Then we'll be able to see Wally pitch in the world series without travelling."

But wishful thinking sometimes gets an awful joit. Bunker, senior failed to rockon with the chips-down drive of those pesky Yankees. Then there is the Chicago White Sax who are drooling for the flag-world-series

Bunker, I believe, would set some kind of a rookie record, if and when the Orioles win the flag, by pliching in the world series in his first year in the majors.

For Information and Application Write or Call:

introducing the trim, thrifty BUICKS for 1965 SPECIAL DELUXE

This is the new Bulck Special, Nimble and thrifty as it's always been. With jis own brand of lively V6 performance. Not to mention gas economy that's most graftfying, it carries 6 in typical Buick comfort. Plus loads of gear in the station wagon versions. And there's a full range of models to choose from—24 in all. For 1965, we've put in a new grille, new smoother suspension, new noise insulation. One thing we havent changed—its thrifty price. Plus die of either hing—the extra care we've always taken in putting Buicks together. When better automobiles are built, Buick will build them: a promise we made yesterday, we're keeping today.

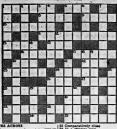

This is the new Buick Skylark. One of the trim thrifty ones. The answer for This is the new Buick Stylark. One of the trim thrifty ones. The answer for expelse who demand the luxury of a big car in a slightly smaller size. And what an answer! For Buick Skylark is styled to appeal to your sense of the puller. It is the most huxuralously appointed of all the Buick Special models would be in 8 different models for 1965. Inside there's a sumptuous combination of olth and leather-grained vinyl. Courtesy light, Deep-pile carpet. And outside, Skylark not only looks the new size of elegance but has its own distinguished way of showing it. It glows—wall to wall! Skylark comes with full-wold to billights!

Ann Landers

Stepchild Writes of Love She Cannot Put Into Words

DEAR ANN LANDERS - I hope you will print my letter so stemmether will see it. I can write things on paper that I

my atopolotic via see a see a

DEAR FRIEND — I am not printing your initials or your city because I want every stepmother who reads this to think perhaps your beautiful letter was written by her step-

DEAR ANN LANDERS — My husband is a bartender. He nes home from work six nights a week at about 3:00 am. He expects me to get out of bed at that crazy hour and fis per for him, it has caused a lot of arguments and now I'm

writing to you for a solution.

We have two children who get up at 7:30 a.m. and go school. Phave to fix them breakfast or they will go without if When I give my husband supper at 3:00 a.m. it breaks up m whole sleep and I drag around the next day half-dead. Is to

He used to have a day job but he makes more money as a tender. For the first time we are able to pay our bills and e something. Please give me an answer to this one. — BRICK

DEAR BRICK — If your husband were coming home at 3:00 am, after a night of girl-chasing I would asy let him fix his own supper, But this man is worting at a job. You seem delighted with the additional income but you eru unstilling to suke any personal secrities. In this fair? Adjust your life to suit his "eray boars" even if it means assigned during the desjume. You've husband is entitled to a bot supper when his comes home from work and you should be happy to fit it.

DEAR ANN LANDERS — I would like your addies on how to deal with a problem shared by dearen of severaints. The rise-phone manners of the houses' wives are spalling.

They call the utilities several tiliges a day and state the best benefit. They call the utilities are to state the same as to a bunder of our land the same to a track and the same track an

DEAR HELP — Nothing accentuates rudeness like cour-tesy. Put extra syrup and honey in your voice and pour it on, Sister.

on, Sister.

When Mrs. Gotrocks calls and barks "Is he there?" reply
with, "Good morning, Mrs. G.R., Of Course Mr. G.R. is bere.
Fill put him right through, Jaut one moment, please."

Even the most obtuse clod will get the pitch eventually.

Do you feel ill at ease — out of lit' is everybody having a good time but you? Write for Ann Landers' new booklet, "The Key To Popularity", enclosing with your request 40c in coln and a long, self-addressed, stamped envelope.

Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped-

TV: Radio Column

NEW YORK (AP) — NEC's the title. It is not to destroy a new thriller seriest. The Man destroy from the situation. NEW YORK (AP) — NEC's the title. It is not to destroy a new thriller seriest. The Man destroy from the situation of the situation NBC's New Thriller Series

CBS has been working since last May, covering the hearings of the Warren commission on the death of President Kenton and the working the control of the Warren Sunday stateroon, when the report itself is released, in a two-hour special, 5-7 p.m. It will include interviews withmany of the witnesset, including the wife and mother of the working was the second assassion.

The Presidency—A splendid misery, CBS, 7:30-8:30—Special dramatization of the words of 35 men who were president.

30 ONTARIO INTELLIGENCER, Wednesday, Sept. 23, 1964

How does Canada's success car outdo itself for '65?

beautifully... just beautifully

The Populac is here!

Laurentian 4-door Sedan

Parisienne Custom Sport Convertib

The 1965 Pontiac is new Completely new. It's excitingly longer and wider. Dramatically sleek and low, with a breathtaking beauty that promises adventure in every racy line. Pontiac '65 has a perimeter frame. It's roomier and quieter than ever. There's a new wider track that gives Pontiac steady-as-arock stability; new, easy handling; and a smooth, comfortable ride. What else is new for '65' Lots. Fashion-styled fabrics and sumptuous interiors. Thoughtfully improved convenience features. Curved side windows. Low profile tires. Wraparound front bumper. Plus a host of other good things that makes Pontiac the car to be seen in for 1965.

Chevrolet the difference is dramatic!

conversation piece all by itself. In fact, just about everything's new right down

One look at Chevrolet and—preato—last year's crop of cars seems like something that happened a long time ago. It's longer, lower, wider—with the kind of interior comforts that'll have many an expensive car wondering, with it didn't think of them first. Over three inches more shoulder room in all closed models, more legroom up front and more footroom too. Curved side windows, rich new fairbries and an instrument panel that is

conversation piece all by itself. In fact, just about everything a new right down to the road. And even that all seem newer because this year Chevrolet's Jetsmooth ride is smoother than ever. A new Full Cod suspension system, front and rear, coupled with a Wide-Stance design that improves handling and stability and lake a drive a your decler's 1/18 all become unforgetable.

0

Chevel et le beautiful shape for 65

New style, new ride—and plenty of V8 stuff. Here are all the things that have mude Chevelle Conoda's popular new-sized car—plus some new surprises! From its new V-shaped grille on back, Chevelle is beautifully proportioned between the regular Chevrolet and Chevy II. You'll enjoy the silky way it skims over the choppiest roads, thanks to solete collegiorings and other suspension system refinements.

All told, five different power plants are now available; from a quieter Six to a V8 that comes on 300 houses atrong. And there's a new choice of thirteen models, including a brand-new low-priced 300 Conyequible. Some people might have expected us to stand pat after introducing a car this successful last year. It's worth a telp to your dealer's just to see how wrong they were.

Tomorrow-5 beautiful shapes for 65-Chevrolet, Chevelle,

COPULTY the difference is dramatic!

There's never been a Corvair—or any other car—like it. It's racier, roomier, sweeter-going—with a higher powered range of engines for '65.

The entire line-topped by the new Corsa Sport Coupe and Convertible-now has a totally new Body by Philass, styled with fresh, sophisticated lines that say "Sport" with a capital "S." The longer, wider design

gives all Corvair closed models a thin-line hardtop roof.

To go with the racier look, there's a new range of rearrengine power with up to 180 hp available in the Corsa series and up to 140 hp in the Monza and 500 series. Also a flatter-riding sports-car type suspension system, bigger self-adjusting brakes, more responsive steering—all solidly buttressed by a new wider road stance for '65.

Chevy II the beautiful shape for 65

It may very well be the expensive-est looking thrift car you've ever hald eyes on. But thrifty it is. The big difference this year being that Chevy II's marvelous mechanical efficiency now comes decked out in a debonsir new loak.

And to keep things right in stride under the hood, there's a new range of four engines, no less. There's a gas-nursing 4 available in the lowest-priced sedans, and a smooth 6 or spunky V8 available throughout the

eyes on. But thrifty it is. The big line. And then, specially designed to turn any Chevy II Sedan, Sport Coupe or bucket-seated Super Sport now comes decked out in a debonisr of Coupe into an entirely new breed of cat, there's a new V8 available that turns out 250 hp. Of course, you still get those famous Chevy II mistinenance reducers—feld-quising brakes, long-lived exhaust system, battery—available throughout the AUTHORIZED CHEVROLET DEALER IN BELLEVILLE:

What About the Future?

Saskaichewan's new Liberal Governm s altered regulations governing the province's and natural gas industry.

The Liberals, when in opposition, charged that the CCF Government's regulations discour-

aged exploration work by private industry. The CCF would not permit the export of natural gas, because Saskatchewan's proven reserves were below anticipated future consumption in the province itself. Private firms, not unturally, were reluctant to undertake expensive ploration work which, even if successful, might ald only gas for which there would be little or immediate market.

On the face of it, the Liberal Government's On the face of 11, the Liberal Governments policy appears much more reasonable. It will encourage further searches for gas and oil and, despite the permission to export gas, may easily result in increasing, rather than decreasing, the province's known reserves of gas for future use. There is, however, another side to this questions of the contract of the contract

tion. The CCF Government's policy on gas ex-ports from Saskatchewan was precisely the same as the Social Credit Government's policy on gas is the Social Credit Government's policy on gas exports from Alberta — and no party, not even the Progressive Conservatives, is a stauncher sup-porter of private enterprise than is Social Credit. This makes the CCF attitude appear less un-reasonable than it may look at first glance to easterness unfamiliar with the pocular problems inherent in the development of oil fields.

On the other hand, we ought to remember that what was feasible in Alberta may not necessarily be feasible in Saskatchewan, precisely be-cause Alberta followed this policy first and the cause Alberta followed this policy first and the oil industry is more developed there. Alberta has now sufficient proven gas reserves to warmant experts of gas — permission has recently been granted for increasing these exports—and under these circumstances oil companies are more likely to seek new supplies in his property of the companies of t

may be struct by the through that we have have the the first indications of a problem which may be-come of increasing importance — the moral duty to conserve for our descendants a share of the natural resources with which our country has been blessed. Not only in natural gas, but eventur peen plessed. Not only in manual gas, but eventu-ally in respect to many other unrenewable re-sources, we may have to discover a way in which the search for new raw materials can be encour-aged at the same time as immediate consumption is discouraged. It will not be an easy prob

Everybody Against Him?

President Charles of Gaulle of France is on a month-long tour of South America.

To judge from The Associated Press report from Caracas, the capital of Venezuela, de Gaulle's first port of call, one might think that

Gaulle's first port of call, one might think that werry man's hand is against the French leader. Shird security measures were in force. Such an officials feared that an attempt might be made on de Gaulle's life by former members of the OAS, (the Aligerian Sorte Army, not the Or-ganization of American States). The Associated Press also mentions that "errorist stateds are requently made in Venezuela by the pro-Castro
armed force for national liberation (FALN)."

The Algerian Secret Army and the Castroites

are at opposite ends of the political spectrum. If both are gunning for de Gaulle, then he can only represent the centre. But the centre, in Latin represent the centre. But the centre, in Laun America, is occupied by the United States, which is endeavoring to prod reactionary regimes into reforms to alleviate poverty, and thereby to re-duce the appeal of Castroism to the masses. And de Gaulle is a thorn in the flesh of the U.S., in the Far East with his policy of recognition of Red China and his advocacy of neutralism in for-mer territories of French Indo - China, in NATO with his insistence on possession of a separate "nuclear deterrent" and in Latin America, too,

with his policy of trading with Cuba.

All of which probably makes de Gaulle feel right at home. Even in France, his critics often seem much more numerous than his supporters, ody can suggest anybody to take h

Nothing is so contagious as enthusiasm; it moves stones, it charms brutes. Enthusiasm is the genius of sincerity and truth accomplishes no victories without it.—Bulwer-Lytton.

The origin of the state, and its reason for existence, lie in the fact that it works in favor of the propertied minority and against the pro-perty-less Prince Peter Kropotkin.

Every home heating fuel claims economy. dependability, cleanliness, convenience.

But compared to other fuels Natural Gas is best.

Just how economical is economical? How dependable is dependable? Just how clean is clean? Compare one fuel to another and the facts will prove that Natural Gas is best no matter what the others claim.

Fact: Natural Gas costs, far less than electric heating, and in most areas of Ontario

Faet: Natural Gas is so economical that you can heat an entire house with normal insulation evenly, including basement . . . need for individual room thermostats, for closed off rooms

Fact: Natural Gas requires none of the extra thick wall and ceiling insulation, or the special basement insulation required by electric heating.

Fact: Natural Gas is dependable. Supply lines are buried underground. Weather and road conditions, power failures or burned out fuses do not disrupt the flow of fuel.

Fact: Natural Gas burns cleaner. All its volume is turned into heat energy. No soot. No greasy deposits. No baked-in dirt on walls or drapes.

Fact: Natural Gas forced air systems make living more comfortable and healthier. The warm air is circulating and being filtered constantly. Uncirculated air, as provided by electric heating, is stale air.

Fact: Natural Gas lets you conveniently and economically use your heating system for air conditioning during Summer months. Lets you humidify the circulating air too.

Fact: Natural Gas, properly installed, with Automatic shut-off and other modern safety controls is as safe a heating system as you'll find anywhere. Electricity leads the list of fire causes over all other forms of energy. (Ontario Fire Marshal's Report.)

Fact: With Natural Gas, service is free.

There is other evidence. But these facts are enough to show that although every fuel makes the same claims, if you compare one fuel to another, Natural Gas is best.

Hot on the heels of last year's success, Comet presents "A New Young Look of Luxury".

'65 COMET

Comet sales doubled last year. We loved it. Just as much as people obviously loved Comet.

Now, here's the '65 Comet, young, spirited, handsome as all get out and luxurious to boot.

Not too big a car at not too big a price. But what a lot of car. '65 Comet.

A new young look of luxury takes shape in the lower, wider, forward-reaching lines of \$6 Conet. Inside this great new shape, rich colours, textures and patterns (rivings, fabrics, strings, palabal) have never been more beautiful. Are touches like walnuts chosed trim and deep-pile carpeting your style? The choice is yours. You'll take to the comfort of Conet's suspension the way it takes to the road. More good news; extended power range from the 170 "6" to the spirited 289

V-8's, including the big new 200 "6" with 8-speed automatic transmission. There's a special brand of excitement in each series . . . 202, 404, Caliente and

There's a special brand of excitement in each series... 200, 500, Casteries and the high-performance Cycloine. You can take a Comet anywhere—and be envied. One other thing you'll want to know. How much? The answer is, how little! Drive Counst for '65 __ not just for fun, but for fun with a touch of luxury to it.

SCOTTY REID MOTORS Dundag St. E. Belleville

Yanks Open Big Gap In Stretch Run

Sport Slices ...

RARE, MEDIUM, WELL DONE

Two months ago the typewriters of top baseball writer and columnists (outside of New York) were spewing storic about the "end of a dynaxy"; "the beginning of a new base ball erg" and the "brief rise and fall of Yogi Berra".

Today the Broadway boys are stiting behind their deaks wearing a "cat-that-sto-the-canary" look and smiling broadly as the teletypes bring in the latest American League standing.

Seven weeks ago it looked as if the Yankees brass that gave Houk the managerial book and squat stocky Yogi the dugouf toga had pulled a classic boner.

The beloved Bombers of the Bronx who had hit eleven pennant home runs in thirteen times at schedule hat were trailing in the show position six games off the

The surging Baltimore Orioles and Chicago White Sox were rounding the stretch turn in the one-two spots satisfied that the haughty Yankees could not overhaul them in their mad dash for the league bunting and a spot in the world series sun.

It looked like the halyard from which fluttered more league pennants and world series bunting than any other major league team boasted, would fly an also-ran flag this

Yogi Berra, it seemed, had failed to get the emashing flag-winning response from the Bombers that Oie Casey en-joyed for ten years and Ralph Houk for a much shorter span.

Some anti-Yunkee force said the Yunkee as as such as the confidence in their carcition ranger. It was showing in the fulling off of their framed pinks provided the state of their range pinks provided in the provided pinks of their range pinks provided in this performances of their mean compact provided in the provided pinks of their means of their m

The colorful English-shredding little dugout mentor, it was serted, was headed for the managerial boneyard.

But they hadn't reckoned with the possibility that the Yankee power was reposing under a blashet of dec-mancy. They hadn't figured it might mashroom late sudden life from its lepturgy. They didn't figure the dynamite was there predicts only a fuse to bring it to explosive action.

Whatever it was had the desired effect. Even as the proud flag-bound Orioles and the nudging Chicago White Sox resolved themselves into duel battle, the Yankees surged with new life.

Their heavy plate artillery which had been firing spe-radic bursts suddenly began barraging direct hits. The mound corps tightened, imbuced with new life. The iumb-ling empire closed the breaches in its walls.

As the triumphant Bombers slowly closed the gap between them and the slipping Orioles and White Sox, exultant dis-hard. Yankee fans who had never lost faith rose and chorus-ed "We told you so".

It is one of the greatest uprisings in Yankee history. It started strangely enough on a musical note... that harmonics solo by Linz accompanied by verbal outbursts by Berra.

They started to win after that and have swept through to eleven victories in twelve starts — and still going. With two more games to play than the Orioles and Chi-sox, the flag seems headed for the well-lined Yankee hag.

They face a tough closing schedule. They have four games with Milwaukse and five away, three with the upcoming Cards and two with the red-hot Reds.

should make a Will!

You needn't be wealthy to warrant a Will! In fact, the less you have to leave your loved ones, the more important it is to conserve it and make the most of it.

We, as executors of many estates, know the pitfalls, the endless difficulties and bitter disappointments that result from "home-made" Wills, or worse, from no Will at all! Let our estate planning officers have the opportunity of explaining to you our valuable services in the construction of a well planned Will.

These to make the property of the party of the party of consisting with the party of the party of the party of consisting with the party of the part Britsin from the Commonwealth

s been expelled from the Commonwealth other states persist in treating her as a civilized sountry.

Various objections can be made to that stateat. Those who are sticklers for truth will be quick to point out that South Africa was never expelled: she guit before anybody could get around to kicking her out, after Prime Minister John Diefenbaker indicated Canada was quite prepared to lead the booters. Others may take se with Dr. Mungai on the grounds that South is, indeed, a civilized country. That, is a matter of opinion, depending on one's definition of civilization.

By this time, it may have occurred to some

By this time, it may have occurred to some that Dr. Mungal may be a gay dog, with a tively sense of humor, to whom the idea of Britáin being punhed out of the Commonwealth to which and gave birth may appeal as delightful frony. Somehow we donnt this, We rather think that Dr. Mungal is deadly serious. Here is how he sees the situation: "I would like to warn friendly Britain that if she continues to supply arms to South Africa we African members may decide expel Britain from the Commonwealth."

They might be able to muster enough votes to do it, too. This points up a need for a method by which voting power bears some relationship to population and to influence in the world. Once method is assured, there is no reason why in should not be expelled if the majority and this means not merely the majority of small member states but the majority of people with

And Britain, by the way, would probably be and aritain, by the way, would probably be the first to agree. The Commonwealth is an equal partnership, or ahould be, but putting Kenya, for example, on a par with populous India or with infinential Britain herself is not true equality.

A Matter of 'Principle'?

The resignation of Mrs. Donald Shaver as vice-president of the Ontario Liberal Party leaves us cold.

us cote.

Mrs. Shaver says she resigned in protest against "skulduggery" and "lack of principles" in the party's national leadership.

Frankly, we think an unbiased observer would have difficulty in discovering any evitage of the protection of th

would have dufficulty in discovering any evi-dence of high principles in Mrs. Shaver's action.

It came after her husband had been defeated by a defector from the New Democratic Party in his bid to win the Liberal nomination for the riding of Waterioo South.

It is understandable that this outcome

should have annoyed a loyal wife and that, if she felt the choice of a recent turncoat over a long-time party worker had been dictated by an Ottawa brain-trust, she would be less than enthusiastic about continuing to labor in the party's vineyard.

party's vineyard.

There was no reason why sha should not resign. On the other hand, there was no reason
why she should endeave to elevate this resignation into a question of principles, rather than
leaving it is a result of personal pique.

Either Mrs. Shaver differed with the party's
national leadership prior to the effect of her
husband's bid for the nomination, or she did not.

If she did not, then she can hardly be said to be resigning on a question of principle. If she did, reagong on a question of principle, if see etc., then as a matter of principle she should have chosen one of the earlier reasons for discontent, rather than one affecting her personally, as the occasion for her resignation. The way It appears now is that she was content to remain in the party, regardless of the alleged lack of principles of the men with whom also found herself assor or use men with whom one round herself asso-ciated, until these lack of principles injured her husband. Then, suddenly, she found her devotion to principles too strong to permit her to continue habitane affice.

olding office.

This makes an unconvincing picture,

Tolerance of uncertainty can be seen as a mark of intellectual maturity; but it is a frame of mind which few individuals and no societies can sustain for long. Invariably, the gaps in our knowledge are filled in with reassuring fantasies backed with dogmatic but groundless assurances.

—Professor G. M. Carstairs of the University of Edinburgh.

a glass of water.

A cooperative increment among visitars was begun in the last century and gave a renewed impulse to the perfecting of the witner.

To control the evolution of the forces of nature with which it is no indicately linked. The visital part of the water and the mineral of the earlier and the mineral of the century than the water than the control of the century than the century than the century that Morally speaking, it is as wrong to feel guilty without having done something specific as it is to feel free of all guilt if one actually is guilty of something.—Hannah Arendt, author of The Origins of Totalitarianism.

WHEN THE WRAPS COME OFF ON SEPTEMBER 28. YOU'LL SEE WHAT WE MEAN BY"PHASE TWO OF THE BAMBLER REVO

This much we can tell you now:

even years ago, the Rambler Revolution created the first

It was a revolution against over-large, gas-hungry, gimmickedup, uneconomical North American cars. In a short time, we became compact leaders. Every North American car maker

Now it's time for Phase Two of that Revolution.

On Sept. 28th, we'll introduce the totally new, longer, larger 1985 Ambassador—designed to bring proven Rambler quality and exclusive Rambler features to the larger-car buyer.

That's just the beginning. For '65, Rambler will offer you a car for every need, every taste, every budget. You'll have a choice of brilliantly-performing 6 and V8 engines, and a spectactular new selection of power options and features.

Phase Two of the Rambler Revolution means three different cars in three different sizes—the compact 1956 Rambler American, the mid-size, completely re-styled 1956 Rambler (Assize, and the new. larger-sized, luxurious 1965 WIDE CHOICE OF ENGINES-

6 AND VS

The widest-ranging choice of 6 and V8 engines in Rambler history will be introduced Sept. 28th—economical, gas-scrimping sixes and big powerhouse V8's from 90 to 270 h.p./ Included in this range is Torque Command, a revolutionary new six-

ew: Completely new Ambassador for 1965. Torque Command combines the economy of a six with the performance of an eight. Its 7-Main Bearing crankshaft with eight ance of an eight. Its 7-Main bearing craimstant with eight counterweights gives you an unbelievably smooth, quiet ride. A test drive will prove it. New Torque Command engines will be svallable on all '65 Rambler models.

SPECTACULAR CHOICE OF OPTIONS

What makes driving more relaxing and pleasure-filled than a full range of power options and equipment? You'll find a great new choice of wide-ranging power options and features from Rambier for '65. From over 70 options and extras, you'll be able to pick worthing you've serv wanted-from automatic transmissions; gower stearing, power brakes, power windows.

to AM FM all-transistor radio. In addition, you can choose from the industry's biggest line-up of comfort and seating options, including 7-position reclining seats and improved

LUXURIOUS NEW AMBASSADOR

The 1965 Ambassador highlights Phase Two of the Rambler Revolution. For the first time, proven Rambier quality and exclusive Rambier features will be available to the larger-car buyer. The luxurious 1965 Ambassador is totally new in size.

Test drive the top-of-the-line Ambassador 270 h.p. V8. You'll discover impressive performance, astonishingly quick accelercuscover impressive performance, assunishingly quick acceleration. This engine's power-loweight ratio makes it one of the best available today. Whether heading down a back-read or moving out for mile-eating highway travel, the Ambassador V8 responds quickly and authoritatively. Under all conditions, on all roads, it delivers a brilliant balance of power and efficiency.

The 1965 Ambassador is completely new in styling and size. Spacious, luxurious interiors offer superb appointments. Trunk space is enough for all the luggage you'll ever want to carry.

FAST NEW CLASSIC

September 28th will see the Introduction of the completely re-styled Rambler Classic. The '65 Rambler Classic is proof positive that a family-minded car can be a great, road performer, too. Luxurious interiors have been fully re-designed. Appointments are new. There's more people space inside, plus more useable tuggage space. With superb new 6 and V8 per-

formence, and a wide new range of pothe Rambler Classic is more than ever Canada's best car value.

LIVELY COMPACT AMERICAN

The '65 Rambler' American is leader of all the compacts with startling new performance, thanks to the revolutionary Torque Command engine. Yet despite is delightful looks and eager performance, the Rambler American is still the lowest-priced Canadian-built' car in every model—2 and 4 door sedans, wagons, hardrops, youthful conventibles:

RAMBLER QUALITY FEATURES

You get exclusive quality features and construction on every 1965 Rambler. For instance: strong, safe, rattle-free Single Unit Construction with

Uniside; Deep-Dip Rustproofing, the world's best rustproof-ing; Ceramic-Armoured Muffler, likely to last as long as you own your Rambler; Double Safety Brakes: noise-hushing alass roofliners

September 28th marks the beginning of Phase Two of the Rambier Revolution. The totally

new Jonger, larger, luxurious 1965 Ambassador makes its debut. The powerful new Rembler Classic and the compact-leader Rembler American will also be on display. You'll see superb new power options and features, great new 6 and V8 engines, including revolutionary Torque Command.

See, test drive Phase Two of the Rambler Revolution at your Rambler Dealer's on September 28th.

But get there before the crowds arrive

quietly, unmistakably distinctive, a superbly engineered and beautifully appointed automobile rich in the Lincoln Continental tradition (It may be examined at Mercury Dealerships)

A sustained flow of classic lines from front to back, a proudness in its bearing . . . this is Mercury for 1965, heir to the Lincoln Continental tradition. Interiors are magnificent, from crush-grain vinyl to rich brocaded cloth. You'll find important nents in handling and ride. Wider track, longer wheel base and all-coil sion make every road feel like a red carpet. Mercury's "compliance-tuned"

frame contains four torque boxes that actually let the frame flex a little to at traine contains four voque concess case accusary set the trainer has a since we assert vibration. Mercury takes care of your configir in 4-door hardyop models with new front-to-back Uniflow ventilation. And where it he already famous Breeze-way roofline with its power-operated rear window ventilation. Your Mercury dealer will show you all the distinctions that Mercury inherits for 1965.

Sport Slices ...

RARE, MEDIUM, WELL-DONE

The lights will darken and the curtains fall for the a three city sports stages tomorrow.

In each case the spotlights will focus on presentation champions and other trophies and awards winned they will how out in a blaze of congratulatory glory.

Particularly the Bay of Quinte Country Club which encludes, efficially, the most successful sesson since its

The Quinte Driving and Riding Club, emerging from pre-season controversy, lowers the curtain with the flual program of its 16-meet season.

The Belleville Minor Softball Association will call it a seasonal day at Zwick's Jelzard with East and Wost Hill tykes, squirts, bantams and midgets clashing in cham-ploushly battles.

The softball tournament will be featured by the presenta-tion of crests to the various division champions by Sergeant Hall of the Police Department Safety Division. There will be a blg party for all concerned afterwards.

The Country Club's presidential pair, George a letty O'Brien, will hand over the reins of management fter two highly successful years in office.

President O'Brien's second term of office saw the greatest goif milestone in the history of the club laid on its trail of successful operation.

This was the first "Festival of Golf" which attracted nearly fifty of the country's outstanding professional and a host of amateurs that brought the number of par-ticipants to nearly 400.

The success of the Festival was a distinct feather in the achievement cap of the club's executive and direct-orate and that includes the distaff side. The club pro-fessional George Balaxs did a magnificent organizational job, while membership in the main, lent a shoulder to

Tomorrow night the club marks perhaps one of the out-standing functions of the season. It is the closing day tour-ament for senior members only which will be elimaxed by the presentation of the season's trophy awards to elab cham-

President O'Brien will preside at his final official meeting while games captains will present the awards at the post tournament dinner.

The Driving Club will send some thirty horses for the barrier in its climatic meet at the Fabr Grous Raceway starting at eight o'rioket. There had been as talk of extending the meets into October but directors a recent meeting decided to close the season with irranchiate's allotted number.

An energetic directorate has been largely responsible for he success of the season's racing program, with another actor being harmony between officials and drivers.

TRIBUTE TO A CHAMPION
Sports fans will get the chance to pay tribute to the first
sathlet to represent the city at the Olympies- at Memorial
Areas tomorrow night.

Twenty-one-year-old John Lewis, national mid-hea-eightlifter who is a third of Canada's Olympics tea-till display the prowess that made him a champion in pecial tournament. The show starts at seven o'clo

Allen Salter, featherweight champion of Ottawa, another tember of the Olympics team will be here as will other anadian champions from the Capital City and Sudbury.

Lewis leaves his native city for Takye and the Olympics games on Wednesday, September 38 at 2:00 p.m. via the Canadian National Rail-way. He fills from Mailon the next day to the Japanese capital via Anchorage, Alaska:

As of now it looks as though the young ath-ists will leave his native city without efficial recognition. Some time got this column suggest-ed the city fathers take time out to write him an official letter conveying best winks, good lock, etc. So far the mailman has left nothing.

Surely being the first Belleville stakes to represent his city and country at the world-famous Olympics is describing of some recognition from the city's officialdom. Tangible gifts are out of the question, but there is no law barring the offer of good whites.

And H is hoped that some of the city's top sports figures will be on hand to wish John luck and hon voyage when he leaves the CNR station at 2:00 p.m. September 30 for the greatest ath-letic adventure of his six-year-old career,

Wiser's whiskies are older in virtually every price class!

The Trots

Compare the age, plainly marked on each bottle of Wiser's whisky with other brands in their price classes. You will find, on the average Wiser's whickles are older. And "older to Wiser's means aged in wood... and "martied" in wood — a process of returning the spirits to wood after final blending for a further partied of quiet aging. So for the best whileter, the best value—ddnik one that's CDIEs and WISER'S.

Wiser's

ood values in well aged whiskies: Wiser's De Luxe, 10 years old: Wiser's 101, 6 years old: Wiser's Cld Rye, 3 years old: Wiser's Special Blend, 4 years old.

Centennial Challenge

Night classes start next month at B.C.I. and Moira Secondary School in Believille, and the Community Planning Association meets Sunday-Community Finning Association meets summy. It would also relieve the course
to discuss a 1967 contennial project for the city, "my of that cutases, the OppoThere is no connection between the two events
yet, but there might be.

"There is no connection between the two events
with become large and only
at times but is the only form of
Increasing

Believille has no centennial project planned yet, but it has the night classes. Believille has no university level school yet, but it has the night es. What could be more suitable as a cen tennial project than a university college? It might start as a series of night courses.

It has been done before. York University started less than ten years ago, as a series of night classes in North York Community Library. Why not Belleville?

There is little chance of building a university the size of York in Belleville, and there is no need for another large university between Trent and Queen's. There is a need for an advanced education centre in Belleville though, and there is a definite need throughout Canada for small, high grade colleges.

Small colleges are taking a beating in the public opinion these days, from mechanicalminded people who think a university has to have an atomic reactor to qualify as a university. So who needs an atomic reactor to study the humanities? To learn biology?

Some people argue that standards are invariably low at a small college, but probably the highest scholastic standards in North America, possibly the highest in the world, are at Antioch College in Yellow Springs, Ohlo. Antioch has about 2,000 students, and is in a town much smaller than Trenton, but more than 60 per cent of the students who enter Antioch graduate and go on to take a doctorate at a larger university. Compare that with the results at most large uni-Compare that with the results at most large uni-versities, where up to 50 per cent of the students who enter may never pass their first year.

So a small college can be good. But can Belleville attract the sort of staff required to teach at university level? Why not?

The Entomology Research Institute in Belleville has attracted about thirty men with Ph.D. degrees, including some of the world's top men in their field. The Institute itself could, almost overnight, become one of the world's great postgrad-uate centres in entomology. And the Research Institute is just a start — what about the brain power at Northern Electric, at Bell Telephone's engineering school in Believille, and half a dozen other firms in town and in Trenton? The area is loaded with talented people who could help out with teaching at night classes, and who would help attract more brains.

The city has nearly \$100,000 to spend on a centennial project, and some people would like to spend it on a building, old or new, for one purspend it on a binding, one of new, for one pur-pose or another. Instead we suggest that the same money could be put aside for a year or two and university-level night courses started on a shoestring budget. Before 1987 it should be ob-vious that Belleville can, or cannot, be a univeraity town. If the final decision is yes, anyone who wants to spend \$100,000 several times over will have no trouble finding a use for it.

Night classes are offered in Belleville by the Night classes are offered in Believille by the extension department of Queen's University, but there are few courses offered and the classes, ("tutorials", Queen's calls them), are held only once every two weeks. This is not enough, and Queen's can never offer enough in Belleville, as long as it must spread its extension department over a half dozen or more cities and towns. Belle-ville people themselves could, if they are interest ville people themselves with one or several courses ed, provide themselves with one or several courses leading to degrees from Queen's or Trent, and later perhaps to a degree granted by Belleville's own university.

For a century many young Britons went to Africa and the Far East to assume heavy responsibilities in political of great authority. Now they alrich meaning out as volunteers and friends; and in retigm Britain receives thousands of students and heart grants. The relationship has changed, but the back community of inlevest remains.—Sophist back community of the sophist could be inserted under the sophist control of the sophist back of the sophist back of the sophist back of the sophist back of the relation to the sophist back of the relation that the sophist back of the relation to the relation

Ottawa Offbeat

People, Not Rules at Fault, Says Hon, Gordon Churchill

OTTAWA — In the mild furce successful the flag deletes there have been engagestom from both sides of the Roses of Commons that the rules of that Roses about he changes the condown the length of debates. It would make the House more efficient, say those who feel this way; make it sader for the prevenment to get its bills passed and to other places of business fails with.

It would also rules for the condown the results of the results of the results of the results of the results and the results are results of the results and results of the results are results and results are re

and the Social Crediters (anxioutside city limits. People who put up such notices were looked upon as cranks or possibly as having a grudge against a neigh-bor. But such is hardly the case oils to deal with the same legis-lation, although perhaps for dif-ferent reasons.) A large and increasing area is

So much nas this been felt that a special committee has been named to change the rules of the House. It has m de one change. limiting the question period on Wednesdays to half an hour, but its other suggestions have not been well received. DIFFERING OPINIONS

For some reason, the official Opposition (made up of Conser-vative members) has not been keen on the idea of agreeing to limited debate on government

limited decade on government legislation and actions.

Its members have the feeling that they should be allowed to debate any question as long as they wish and until the government feels so hard pressed it will change its mind or impose closure.

If may not make for speedy legislation, but there are some points in their favor. The flag debate is a good ex-ample.

ample.

The Opposition felt from the beginning it was not a good idea to simply plant a flag in the Commons (and on the front lawt of Parliment Hill) and insist on its being accepted, as the government did.

They asked for a plebiscite or committee and they got the committee because they exercised their right to debate.

ed their right to debats.
In abort, although the Conservatives were a minority in the Commons, they will represented large numbers of Canadians and were therefore a large woten in fautre, they say, they do not want to be placed in a position where they cannot be just as large a voice — or where the Liberalis could not be if they will be the control of the control

One of the basic principles of Parliamentary government is that it shall have an official Op-position, which shall criticize and delay the government when the government is felt to be

To agree to limited debate in divance on any given subject would be the same as giving the povernment carte blanche in all its activities.

its activities.

This, at any rate, is the view of such long-time Parliamentarians as Hon. Gordon Churchill (C — Winnipeg South Cnitre), who is also Opposition House leader and one of the strongest voices in the Conservative cau-

one.

It is, instead, a forum for the exchange of opinions, and the fact that many opinions cleah is no reason to condemn the institution.

stitution.

Rules there must be and rules there are, but those rules should never be s.t up in a way which would allow the government to dietate rather than rule.

GRANT FUNERAL HOME

RELLEVILLE - ONTARIO

DIAL WO 8-9119

How much does it cost to heat this 6-room house electrically?

This 6-room home is owned by Mr. and Mrs. R. Lawson of Islington, Ontario. In his own words, here's what Mr. Lawson has to say about the cost of

"In the overall cost there just isn't any comparison. We found the heating costs to be quite reasonable-\$215 last year and even less this year. It's quiet and clean-to me these are plusses. It's just a case of the most efficient type of heating and the least expensive,"

Electrically-heated homes insulated to Hydro standards cost no more to heat than homes with other systems. In fact, in many areas in Ontario it actually costs less to heat a home electrically.

AND LOOK AT THE COMFORT ADVANTAGES YOU ENJOY

Flameless electric heating is the cleanest heating possible. Since it doesn't burn fuel, it cannot possibly create dust, smoke or dirt.

With electric heating you can have a different temperature in every room because you can have a thermostat in every room. You enjoy even, comfortable, healthful warmth—always. Consider the extra living space you gain with electric heating because it needs no furnace... no bulky fuel storage

Maintenance is eliminated, Annual clean-ing and inspection are not needed. No dirt is created and there are no filters to clean or replace. Electric heating is the most carefree heating system of all.

With all its advantages, is it any wonder so many people throughout Ontario are turn-

ing to electric heating for the con mce, and economy they want in a heating system.

ELECTRIC HEATING FOR YOUR PRESENT HOME

If you are planning hor nr you are planning nome extensions or it perts of your home are not now properly heated, you can install supplementary electric heating for less than it costs to extend your present heating system.

Electric heating is one of the many comfort features of the famous Medallion all-electric homes. For full information, consult a quali-fied electric heating contractor or your Hydro.

RARE, MEDIUM, WELL DONE

And keep an eye on the future of Johany Keans of Cardinals, Casey Stongel of the Mota and Yogi Burra se Yankees and not necessarily because of the way their

Come to think of it, with the Yankson in that furthers reich drive and pulling away from the field, Yegi's job sald he male. Meat observers agree, once Yegi get the anagerial "touch" he was a better manager in the cond half of the sparon.

Ole Case, 74, is in a most unique position. His value o the cellar-dwelling liter from a public relations point of few, is inestimable. He has helped pour a record number of fans into the new Shes Studium, but Mets officials are aid to be restless. Harry Walker of the Jacksonville Suns

On the other hand the Dedgers greatly agitated the team's pose showing are fearful it would refle on next year's advance sale of ticksis. They belie Stragel is just the man to give a hype to the gets. Can it finishing his third straight ceilar finish after havit led the Yankees to ten straight pennants in 12 years.

Observers say whating the pennant or a strong road" finish may preserve the Cardinals' Johanay ann's job. They my he is the victim of a front office abe-up and possible successors are Leo Durocher, ck Groat and Charley Metre.

The Giants' Alvin Dark appears headed for the per-nent showers, Well-placed sources say even a pennant

The Dodgers Walter Alsien abowing surprising of irritation may be warning that a change is be He was solid until rumors of change started er up. After all R was not his fault be lost Kouft Podges.

On the brighter side Gens Mauch now in the werry throes over his slipping Phillies is sure of his jeb. Even if he does not win the flag his season's work has been outstanding and he could well be named manager of the year. And dear's werry about Al Lapez of the White Sox. He's a cinch to repeat.

The Cincinnati Redlegs front office indignantly deales falter Aiston will succeed Fred Hutchinson. Hutchinson the manager is says and there is no thought of hiring laton or anyone cise.

And speaking of the current American League stretch run between the Yankoes, Orioles and White Sex, the schedule has just about overyone baffied became its the first time within member the final consumers were all through playing each other by August 18.

In other words there was no head-to-head battling ong the contenders throughout the menths of Sep-ther. Their easy competition was from the also-rans.

The powers-that-be explain this by saying the schedule divided into three sections. There are 23 weeks in the cedule making such third about eight weeks. The first rd this year ended June 7th and the second August 5th.

In each third of the schedule every team has to play every other team home-and-home. Now it so happened that this year when the schedules reach the last third on Aug-nut 5th, the contenders played each other early in the

So it would appear the spoll-sports of the American Largue will have the final say as to what deam will grad-ted the sport of the same of the sport of the sport of the ladins algo as the Oricles and White foot are delivering their blows when it havis the most. The clatch-fasses Brear Bombers are reverting to type and at the messe-are taking everything in stride and doing right well by their "Mell" Yorld Berra.

Inked ToPro Contract TORONTO (CP) — Frank lockey player III return for the stand of the winger contract. Large of the National Rockey player III return for the stand of the National Rockey player III return for the standard contract. US Tourist Problem

Canadians have many problems, but they make a mistake if they believe all of them are unique. Many of these problems arise from the fact we have as a neighbor the richest and most powerful nation on earth, but even the U.S. has some problems which are identical to those which worry us.

sunior Chamber of Commerce.
It was noted that Mayor Rills
is of the opinion that business
people size so time to properje contribute to effective serjec on City Cunnell and size
returned citizens are not of the
destrable calibre, as they are
unable to make decisions. A case in point is the manner in which our wealth accentuates our balance of payments deficit

Sounds crazy? Perhaps, but it is not an unsonable analysis.

desirable cabber as they are untable to make desirans, untable to make desirans, untable to make desirans, line of thought and indicates a troce contradiction of the start. In the start of the consuminty. He si vec contributed in Relieville City Council, in the Partianness of Ontario, in its Partianness of Ontario, in the Partial Control of Ontario, in th Because Americans are so wealthy, more and more of them are embarking on foreign tours. "American Economic Review," published by the United States Information Service, reports that the number of Americans goifig overseas doubled between 1955 to 1963, reaching two million in the latter year. "This," it adds, "does not include the rapidly growing millions converging on Canada and Mexico, just over the Our Mayor has further added to his unorthodox line of think-Our mayor nas further societies to all societies and of this control of the contr

While acknowledging that "tourism is now a two-way street," the Review adds that the number of Americans going abroad has risen more rapidly than the number of foreigners visiting the U.S. "This means American foreign travel expenditures are both larger and growing at a faster pace than those of most other nations in the United States. The difference between the two sums - known as the 'tourist deficit' - has generated considerable concern because of the U.S. balance of payments problem."

The Review notes America is not alone in this respect. "Other advanced countries face similar problems," it says. "For example, in 1962 Canada recorded a tourist deficit of \$50 million And this occurred despite the great influx of American tourists."

It could have added that Canadian tourists and more money in the U.S. than Americans do in Canada

The day when our tourist trade was a valuable source of U.S. dollars has passed. All it does now is to finance Canadian tourst trade with the U.S. This is a happy arrangement. But we deceive ourselves if we talk as if we were we deceive ourselves if we talk as it we were heavy beneficiaries, monetarily, from this flow across the border. We have a hard time keeping the scales close to the point of balance.

Riposite

One of the books I most en-joyed reading this summer was called "The Year of the Gor-illa." It is written by a scientist who spent many months living The navies of seven nations belonging to NATO have been holding joint exercises in the Northern Atlantic. He went among them unarm-ed, for the first recorded time any man has done this. And he found the so-called "fierce" gorilla to be shy, tractable, and largely peacecloving. He was not implested even once.

Russian ships and planes have been keeping

a watch on these manoeuvres. This may annoy some people, but British Rear Admiral Horace Law points out that the Russians have every right to be in the exercise area. These are international waters. The Amer area. These are international waters. The Americans have just been stressing the principle of freedom of the seas by asserting that the Gulf of Tonkin is not a communist lake — and by sending warships to patrol its waters to emphasize the point. There can hardly be a double stand-ard and the British admiral's remarks are

formally correct. It remained, however, for the commander of the exercise fleet, U.S. Admiral Kleber S. Masterson, to score the winning point. Far from objecting to the presence of the Russians in the area, he told a Dutch newspaper, "We will use them as part of our manocurves."

How the Russians feel about co-operating in a NATO exercise we leave to your imagination.

Discover Alaskan Iron Ore

One of North America's largest iron ore deposits is reported to have been discovered in Alaska. It is estimated that it contains about a

billion tons of recoverable ore. The U.S. is running short of iron ore. Of late years the big U.S. steel companies have been turning more and more to Canada as a source of one. The Maramoraton development by Bethlehem Steel brings this fact home to district residents, although the great bulk of Canadian ore is coming from the Labrador-Quebec border

The Alaska discovery would seem like wel-The Alasza discovery would seem like wei-come news to the U.S. steel industry, but most of the country's steel-producing facilities are lo-cated in the east, a long way from the new source of domestic ore. As a result, unless steel mills on the U.S. west coast are expanded, the Alaska ore is likely to be smelted in Japan.

Here we have striking evidence of the internationalization of modern industry.

horse sense

More than 591,000 Canadian automobile

owners pay too much for gasoline.
They're people with cars designed for medium-octaine gasolines. Up to now they have been buying the available top-rated premiums and, since their cars can't use all of that power, they've been wasting octane and money. Now, BP makes better sense with

horsepower by adding two new Super gasolines in the medium-octane, medium-price range. Perhaps one of them is just right for your car.

Check the recommendations at a BP station, then make the switch from top-priced gasolines and save 25, even 4^s per gallon ... enough to buy up to 900 extra miles of driving in a year.

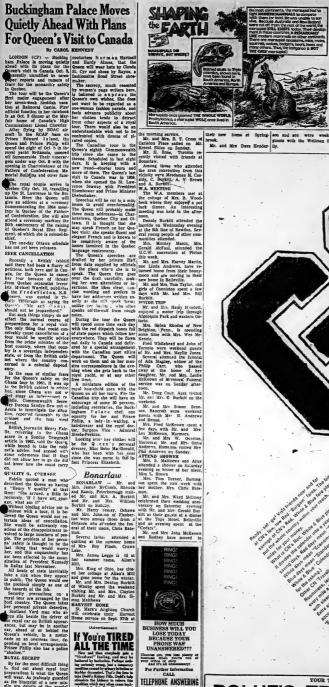

FOUR GREAT GASOLINES

One Regular and three Supers: SUPER RED is the top-octane fuel. SUPER WHITE costs 24 less per gallon. SUPER BLUE costs 44 less...and only a penny more than REGULAR.

Buckingham Palace Moves Quietly Ahead With Plans For Oueen's Visit to Canada

BOYAL SECRET
By far the most difficult thing
to find out about royal tour
preparations is what the Queen
will wear. As jealously guarded
as the blueprint of a new missile are details of the special

Sport Slices ...

RARE, MEDIUM, WELL-DONE

By GEO. H. CARYER, Sports Editor

"We have pride and no regrets" Mr. Sills said yester-ay. "We had everything a championship team needs ex-ept experience, and that, in the final analysis, is what coved the factor between viotory and defeat."

Organized last spring the Willheldge squad largely composed of players of justice ages sweet intrust, their league schedules and the julydrome to reach the Inter-nediste "D" finals, They went down fighting winning one of the three games before bowing out. They desire a let of credit as does the child's officials. It is not many cluste that reach previousful finals in the first year of

President George O'Brien of the Bay of Quint-muty Club reviewed with justifiable pride the opera-cus of 1964 at the Closing Field Day Presentation-uner Saturday night.

President O'Brien who closes out a two-year term this season paid generous tribute to his aides and the club membership as a whole for the exceptional success of the seasonal operations.

He paid tributs to directors, the news media, the ladies' tvision and club professional George Balaza modifying his wn outstanding contribution as an exceptionally hard-work-ing chairman of the board.

His second year of tenure of office will be marked with the laying of the foundation of the club's greatest golfing attraction, the Civic Holiday Peatival which at-tracted some 50 pres and 250 amateurs.

HARNESS RACING

RNESS RACING
According to our Garry Alexander who covered the
event, the final meet of the Quinte Driving and Riding
Club closed its first season of directors-led operation on
a high kaysole of racing success.

While the attendance did not reach the mid-d weather mark, the racing proved to be one son's best from a competitive point of view.

All the heats were closely contented with the fea-tured 4th and seventh events bringing the fans to their feet as the hences swept under the wire with a whitker separating the first four of the entrans. Photo-finish exmerss had to provide the correct order.

Here gain, director co-operation behind a hard-working president proved the keynote of seasonal suc-cess. Ros Isaac did a fine job at the head of the club and deveted a lot of time to its first season of opera-tions under a new system of control.

Some indication of success is noted in the fact that midway through the season directors voted to increase the amounts of purses. Entries hovered around an average of 27 horses. The pari-mixtude were well patronized with the club enjoying an exceptionally high wagering ratio.

PRICES THIS ENGAGEMENT EVENINGS

NEW FROM RAMBLER FOR '65! 3 GREAT CARS

1. Want a compact? The 1965 Rambler American is the lowest-priced Canadian-built car

What a beautiful buy! The '65 Rambler American sails by gas pumps with the greatest of ease and sticks its handsome nose in the air at excessive repair bills. After all, it's the lowest-priced Canadian-built car in every model—2 and 4 door sedans, wagons, hardtops, convertibles. ■ But the '65 Rambler American desen't act its price, it's the neatest-handling, qlickset-moving compact you'll ever drive. Bet the brand-new 155 ha, Torque Command engine, the six that performs like a Unil-fladged eight. Touch the accelerator, You've got a suprise in store, You get fast, responsive, eight cylinder action on a six cylinder budget. The new 7-Main Bearing crankshaft with eight coun-

terweights gives you the smoothest, most vibration-free operation of your life, (if you prefer, pick a gasearing 90 or 125 h.p. sit) a uptions? A catooal Start with automatic transmission, reclining sasts and improved adjustable headrests, then work your way through the complete, transmission, And don't forget umbeatable Remider value. No their compact offers you secure, rattife-free Single Unit Construction with Uniside; Deep-Dip Rustproffing; Ceramic-Armuured Harffer; Damble Startly Brakes; Deuble Door Seals. With all times reasons, why delay seeing your Rambler Dealer? You could be driving your very own 1955 Remider American in the meede of your cables tensorrent.

2. Want something bigger? The fast new Rambler Classic for '65 has a powerful new six, plus more luggage space, more people space

770 4 Door Sedan

Meet the completely restyled Rambler Classic, proof that a family-indeed car can be exciting. Take your jets of great engines for revelop performance. Start with reveloputionary Orque Command, the best-parforming new ext as the market today. It's an amezing six that acts like an olgitil in the "S5 Classic, it will believe indilimiting repeated by a triveness. It is now 7-Main Bearing cranshashi with eight counterweights gives an unbelievably smooth, vibrationiers ride. Set Torque Command with 12%, or 145-155 k.p. all 1 years a 19 man, the Classic 198 k.p. Vo takes a back seat to no other comparable Via seriff-maring parformance. It's seller, responsive, reliable, in Islaids the "65 Classic, ver'll field more people space, Luxarious Interiors have been re-designed to give you more

fact; roum, legroom, albow-room. Even though it's bigger than over inside, the Classic smaller delightility easy to handle, You'll find more leggage space, too—designed to suit big-family requirements. And you get these exclusive Reminer quality features rugged, rattle-free Single Unit Coostruction with Unitede: Deep-Dip Rustproofing Ceramic-Armoured Muffer; Double Safety Rankse, Accounted Celling, a With powerful over 6 and V9 performance, plus more people space, more luggage space, and a great new range of power options and features, the bigger, completally retyled Rambler Classic its more than ever Canada's best car value in every model—sedans, wagons, hardtops. Test drive the fast new Rambler Classic at your neighbourhood Rambler Dealer's.

EACH WITH A SIZEABLE DIFFERENCE

3. Want something bigger still? The 1965 Ambassador -Phase Two of the Rambler Revolution - larger in size, longer in wheelbase, designed to bring Rambler quality to the larger-car buyer

The exclusive Rambler quality features and construction that made Rambler the compact leader are now available to the larger-car buyer. The invurious 1985 Ambassador-Phase Two of the Rambler Revolution—Is new in Street with a longer wheelbase, new in appearance, new in performance. In Choose one of three great engines, bet the 155 hp. Torque Command, the six that acts like an algith, with a new 7-Main Bearing Crankshaft and eight counterweights for amazingly whatles-free operation. Or choose a 1980 or 270 hp. Ve. Powered by the 270 hp. Vg. the 1985 Ambassador will deliver consistently superior performance on street and highway. Thanks to one of the industry's best power-to-weight ratios, you'lf-find no better V9 for North American reads, superhighways and driving demands. In Look inside. You get luxurious Interiors and maximum

luggage space. Interior appointments and fittings are superf. You have the Industry's widest choice of comfort and earling options, including 7-position reclining sasts and improved adjustable hardrasts. We you can select from a wide new range of power options and features—everything you've were wanted, from automatic transmistion and full power equipment to disk brakes and AM/FM radio. There are over 70 spectacelar power options and features to choose from. If this is your year to go Ambassadoff See Phase Two of the Rapible revolution—the lucurious new 1965 Ambassador, bringing Ramibler quality and value to a larger, longer-wheelbase car with a wide range of power options and actract. It's envi is size, new in deautiful appearance, new in driving adventure. Test drive the luxurious new 1965 Ambassador at your neighbourhood Rambler Dealer's today.

A Job for All of Us

Belleville's United Appeal campaign starts

Thursday.

The objective this year is \$106,024.88. Leavyear it was \$35,000. The need for funds has not increased by \$21,024.89, but this year the United Appeal executive is facing facts, right down to the last cent. Last year the objective was reduced to what was considered a "realistic figure," to a total it was thought there was some hope of obtaining. The objective was not reached. This year the objective apprecisely what is not to the contract of the needs to be a superior of the precise of the contract of the precise of the precise of the precise of the precise when it is needed to meet the budget of the twelve particular of the precise o and those in charge of the Appeal hope to col-lect it, down to the last cent.

The budgets of these agencies have been checked. We are not going to list them for you, because the whole idea behind a United you, because the whole idea behind a United Appeal is that we, as citizens, end our differences of opinion as to which Belleville organization does the most worthy work and pull together to see that all of them get enough money to do their jobs.

For those who insist on giving only to their favorite charity, though, the United Appeal has this year made it possible for them to do so. Gifts can be allocated and these allocations will mean something. Unallocated gifts will be divided on the basis of a predetermined table, based on the budgets of the organizations. On top this, each organization will receive its allocs On top of gifts. The only exception to this rule would be gifts been exception to this rule would be if allocated gifts plus the predetermined per-centage of the general fund gave some organiza-tion more money than it needs, while some other organization got less than it required. The organizations are all agreed that this would not be fair. So the total received by any organiza-tion will not exceed its budgeted requirements.

This is the year of decision as far as the This is the year of decision as far as the United Appeal is concerned. It is fails to reach the objective this year, or at least come close to it, then we shall probably see a return to the days when each organization appealed to the public separately, with all the annoyance to donors and all the additional work to a few public-spirited caurassers which such a system is organized. bound to involve.

bound to invoive.

Of one thing we can be sure—if the Appeal falls this year it will be the fault of Believille clizens as a whole. They will not be able to plead they were not informed of what was at stake, of the true nature of the appeal. Published when yeared those of any next. stake, of the true nature of the appeal. Publicity plans this year exceed those of any past campaigns. It ought to be noted, though, that this does not mean that a major spare of the money which will be raised will have to go to defray publicity costs. This publicity is being provided the United way, through the co-persion of mean from and holitidusle. It is tion of many firms and individuals. It is estimated that administration costs for the United Appeal for the full year will be only seven per cent of the objective, compared with expen-ditures of 13 to 15 per cent for most similar organizations in other centres, and only a minor portion of the administration costs here will be required for publicity.

The Belleville citizens are being fully informed of the need, at a small cost. Something else is being done to eliminate a cause of past anis being done to eliminate a cause of past an-noyances. There will be no general canvas in the common meaning of that term. Except through inadvertence, nobody who has given to the United Appeal through a payroll deduction plan will be embarrassed by being asked for a contribution a second time by a hotise-to-house canvasser. It must be stressed, though, this dates not seen that not those neoule who are canvaser. It must be stressed, though, this does not mean that only those people who are employed by local firms will be requested to give. Every effort has been made to compile a full list of citizens who will not be covered by the industrial and commercial canvasses, and plans have been made to canvass the homes of these people. Seeing the United Appeal reaches its objective is a task for every citizen, and all

Everybody who is working, or has a regular source of income sufficient to support him or her above the subsistence level, ought to be proud to share in this community effort. But mere sharing is not enough. From some, a doi-lar would be a magnificent donation, irrefutable evidence of a generous heart; from most of us it would be a pittance, less than a dime for each of the member organizations; from a fortunate few it would be an insult.

The United Appeal organization can appeal . The United Appear organization can appear to all, can canvass most, but only the individual can make certain that the size of his gift matches the depth of his pocketbook.

Belleville A. Recommended by Based of Parks the seed Areas Chamical Project for the City of Mileville, which is commended by Based of Parks the seed Areas Chamical Project for the City of Mileville, which is commended by Based of Parks Management and the Recrusion of the City of Mileville, which is commended by Based of Parks Management and the Recrusion of the City of Mileville of the Seed of Parks Management and the Recrusion of the City of the City of Mileville of the Seed of Parks Management and the Recrusion of the City of all gasolines are the same how come you can get better mileage with BA?

The reason is simply this: you can get better mileage because with B-A you use less gasoline.

Why? Well here are four good reasons.

First, B-A Gasolines are specially weather-formulated each month to compensate for regional and seasonal temperature changes. This means you get fast, positive starting and fast warm-ups. As a result, you use less gasoline during these operations.

Secondly, B-A Gasolines contain a special detergent to keep your carburetor clean. This gives you smoother idling and positive pick-up which means you use less gasoline.

Also, B-A Gasolines burn clean and prevent combustion deposits that rob your car of power. Result-you use less gasoline,

Finally, B-A Gasolines are final-filtered at the pump to eliminate harmful dirt particles that could interfere with your car's proper performance and

This is why we say you can get better mileage with B-A Gasolines. So switch today. Move up to B-A Gasolines.

Sport Slices ...

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

Jack is the proof father of five levely young ladies does in his secret heart was a yea for a see.

Five times Jack kept a watchful eye on Old Man Stork's ial delivery—and five times the canny bird deposited a neing baby girl.

"What that long-billed old burnard has against me in beyond my knowledge," Jack related rather sadly the other day. "I wanted a young galfer who would carry the assos of Pitzgerald along the sports risition, whether they be lockey," safthall, baseball, feetball or even tidely-winks."

Jack's roots are deeply buried in sports. Lack of a and heir has not killed a lifelong interest in athletics in interest in minor activities.

Mass-produced athletic trophics are things of beauty with gleraning metal, fancy woods and topical embellish-ments. But a hand-produced Fitzgerald trophy is some-thing that is definitely apart from the mili-run.

Jack is a master mechanic along these lines. Give him two or three pieces of wood, throw in a few alices of oak and mahogany and in two weeks you've got a finished product that is well-nigh perfection.

Trophy production is a Fitzgerald hobby. Jack works as an electrician with the Canadian National Railways but when he is not bowling, tossing darts and what not he'll be in the basement workshop working out designs or on his trophy masterpletes.

He showed me his latest creation, a handsome we of the craftsman's art, made of oak, makegany and oth woods. He creates his own designs and his archite tural work is a thing of original beauty.

It was almost completed. The only cost to Jack out side of the wood is the purchase of sports figurines which he mounts on their pedestais.

"If I haven't a son of my own," he explained, "Til see to it that somebody's son gets this, or a ministure of

With the minor baseball and softball seasons over, agreed with the suggestion that the handsome trophy donated to minor hockey to use as that organization

Bowling leagues and War Veterans' organizations hav been beneficiaries of Jack's handiwork. * * *

Driving, Riding Club.

Mayor Jack Ellis will extend the best wishes of the city to John Lewis who leaves for the Olympic Games, Tokyo, tomorrow evening.

Lewis will join the two other members and coach Canada's weightlifting team on the Canadian National ilways train which leaves here at 8.47 p.m.

The mayor will wish Lewis luck and bonvoyage at the station where a number of city sportsmen, Lewis' family, and his fellow members of the Apollo Barbell Club will be on hand to extend their good wishes.

This is the second time Lewis has rypresento-Canada in international tournaments. He brought home a bronze medal for Canada from the Pan-Americas Games held at Sao Paule, Brazil.

Esso Home Heat Service is better because its people are

Better trained to serve you better! You get "extra value" for your heating dollar. If you're the type of person who insists on the best, you probably already have Esso Home Heat Service. You've seen the crisp, efficient way an Esso Home Heat team looks after your heating needs...specialists in service and furnace oil delivery. This professional skill is the result of the most thorough, practical training in the industry. And these men regularly return to the classroom for refresher courses to keep up to date on the latest developments in the heating industry. They save you money by keeping your oil heating equipment in economical operating condition. If you're not getting this kind of service you'll never know until you've tried the best. Get "extra value" for your heating dollar-get Esso Home Heat Service always LOOK TO IMPERIAL for the best

In Belleville, there re 3 home specialists ready to provide you with fast, dependable Esso **Home Heat Service**

lent service are independent sinessmen who live and businessmen who live and wk in your area. Each memor of these teams is a specialist in his own line—heating oil seles, service, fuel or equipment. Their livelihood depends on how well, they serve you. And they core you well. Reof what your heating problem, these men are committed to provide you with immediate, expert attention. One phone call brings lastant action. If you do not have Esso Sept. 10 at nearly whether these bases access now do for the provided the section of th

Trenton News

PROJECT PLANNERS, planning consultants for the Town of Trenton, have suggested the three areas PRODUCT FLANNERS, planning consultants for the Town of Trenton, have suggested the three areas shown in the showp inclures should be improved. Top shows the town's ancient fire hall, which Project Flanners say should be razed. The space would be used for parking, with a shopping mail in the area at the rear of Lobdwar and the Beamish store. Second picture shows the rear of stores on Dundas Street West, near the bridge, where another shopping mail and parking area are suggested. Bottom picture is a view from the town bridge, where a third shopping mail at the back of riverside stores on Front Street is suggested. A paved parking area would be provided.

PARLIAMENT CONDUCTS ASSEMBLY — Members of the 1964-65 Students' Parliament at Quinto Secondary School, conducted a special assembly this morning. Shown above are the cabinet members, identified from left to right as Jerry Howland, minister without portfolic, Terry Law, minister of finance; Min Lawrence, Speaker of the House; Gooffire Perintic, (seated), prime minister; lines Andrews, minister of publicity, and Lasile Gardner, minister of Social Affairs. Elections for the new parliament were held last Pridag.

The Warren Report

The Warren commission report on the seasonation of President John F. Kennedy at letter contains 296,000 words.

The ordinary newspaper column contains aronimately a thousand words. The report is the equivalent of a 37-page newspaper. Or it is approximately the equivalent of 870 cole length of this one.

takes considerable time to read, let alone, igh, a report of this length. The report how, by Monday newspapers and individuals throughout the world were sitting in judgment

If we are to accept these judgments as being considered ones, a lot of people must have worked very hard-and very fast.

For our part, we do not intend to make any effort to evaluate its findings on the basis of a careful reading. In any event, any judgment on the merits, or otherwise, of the report must rest on our faith, or lack of it, in the integrity of the members of the commission.

We know of no reason why their integrity should be questioned. We are convinced that the commission was composed of honorable men, intent upon ascertaining the truth, and that they carried out their duties with energy, in-

Under such circumstances, what they have included in their report will be the truth as they see it. These men heard the witnesses, listened to testimony which exceeded by far the 296,000 words contained in their report. We trust their

They are not, of course, infallible. Still, under the circumstances, we consider it probable to a degree which comes close to certainty that their findings are correct, that Lee Harvey Coed, alone in planning the crime, that he had no fellow conspirators, that there was no organisation, either domestic or foreign, behind the assassination, that Oswald and Jack Ruby, Oswald's slayer, were not associated in any

Those who disagree with the findings of the commission have a right to their opinions. But we know of no reason why the world should accept them and reject the findings of the Warren

That the assassination of a beloved president the United States and of all able leader of the free world should have been the sole work of a lone social misfit is, we admit, a conclusion which tends to reduce the damage done by the assassination to the minimum. Had it been proven that an allen political group or country had been involved in the assassination, the consequences could have been grave. It is fortunate that this was not so, and the fact that it was fortunate ould not prevent us from accepting it as the

So Fast, So Slow

We have become accustomed to the rapid ce of change in today's world. Technological developments are proceeding a rate which is producing a totally different

world for each new generation.

Gone are the days when each child lived much the same life as that of his father and mother before him—and when parents fully un-derstood a child's problems because they had themselves experienced them.

Yet, at the same time, some conditions exist changed for periods which were unheard of a

sentury or less ago.

Almost two decades after the conclusion of he Second Great War, no peace treaty has been

the Becond Great war, no peace treaty has been a figned with Germany.

And in Kashmir there has been a flare-up in the fighting between limits and Pakistan, with losses the heaviest since a cease-fire was arranged between these two nations fifteen years ago.

Most of my indoor life is spent in a room Most of my indoor lie is spent in a room containing six thousand books; and I have a stock answer to the invariable question that comes from strangers. "Have you read all of these books?" "Some of them twice." This reply is both true and unexpected.—William Lyon Pheips.

A farmer's wife in South Sumatra, Indonesia, has just given birth to quintupleis. This is controlation with a vengeance. In view of the airceady wide dispartly between the 'populations of Indonesia and Malayata, Mobile' Nature's display of favoritism seems uncalled for.

County Home on October 21 Interesting and concise report the Trent Valley Area of Version were given by the vienten was given by the vienten was given by the vienten was a constant of the vienten will be held on October 24 Quinte Memorial hall.

Mrs. C. Bates Jr., leader the evening, took charge of the vienten was supported by the vienten was a constant of vie

eral and Madame Vanier, contrasted the rural family oday with one of years ago, sing the rapid changes, the acteristics, the need for ning and setting goals and ing forth our best efforts

potting forth our best efforts and gotting satisfaction from doing it.

Mrs. T. Howard followed with a reading based on the topic, after which Mrs. E. Pasco read a temporary poem. All foliased a temporary poem. All foliased and the satisfaction of the satisfaction o

PEARLS TELETALE

FERRIS TELLITALE
AUCKLAND (CP) — 0. C.
Jones, a New Zealand expert,
says pearis wore by a heavy
drinker deteriorate more quickity than those on a tectotalizer.
He said the acids from alcohol
passat through the akin and attack the pearis, in the same way
will have pearis of longre-lating luttre; than a woman using
more expensive, alcohol-based
perfume.

coweed Lycne spe the present riddle since

See that delicate paisley pattern?

Ws murder on hips, thighs, tummies and backsides.

The Riddle by WARNER'S

That delicate paisley actually slims and controls with the power of conventional panels, but without seams or ridges. It's a pretty way to look under knits and sheaths. The Riddle by Warner's, just one from a family of styles. 455: S,M,L — White, — \$12.50. Shown with the Riddle Stretchbra* 10-55: A,B,C - \$7.00. In our

WO 2-1975

"Why should you switch to Rite-Way Food City this week?"

MAY !

"PRICE HAS A LOT TO DO WITH IT. If your family food budget averages about \$25.00 weekly you can certainly save at least a \$1.00 on your total weekly food bill at Rite-Way Food City. I know families who are able to save \$2,00 over where they previously shopped. That's not poetry: ... it's fact. But why just take my word for it. Go out of your way a little bit and come shop with us this week. You'll like the change."

Dorothy Button, Head Cashier

THESE GROCERY ITEMS are our regular every day shelf prices Monday through Saturday week in . . . week out. They're typical of the savings you can make on over 6000 different items in our store. We just don't believe in marking down a handful of weekly features and leaving everything else at regular price.

Woman Stresses Background, Has Outmoded Values

DEAR ANN LANDERS — I am deting a young man wh bears actually came to this country on the Mayflower. When his family gets together they talk shout the Rove ary Wer as if it happened last year. They a a family creek, relike, sworth, framed door-te and sizelas of hooks tracing the family

Ann Landers

Age.

His mother saked me recently about my life true. I told hear my faither was been in the and my mother been in Bleich and he been and he had been as to be told the mother of the m

specestors" she group up and man bound up say to me nor us ro of the evening.

Now that I' here seen my boy friend with his family seems very much like them. Our values are so different I do that we could be happy together. He says I feel inferior been his background is better than mine but I should try to "x shows it."

Any advice? - PLAIN FOLKS

DEAR PLAIN — Runi
In America it doesn't matter where you came from. What
ins is who you are, where you are going, how you proe to get there, and what you will do for others once you

DEAR ANN LANDESS — It certainly is true that you never know a man until you are married to him.

I want with Richard foor years. It thought deep not all of them good. Now I need your opinion on semething. Richard inside we step "Investige sawsy" money on toolby pate. He prefers to make his own. He combines blactronate to dot, and and severation. When I took the tritle he said, "Rath's all they put in the commercial tookpasts you in your of forms for. If you don't then the said to can also do severate. When I took him it state terrible he said, "Rath's all they put in the commercial tookpasts you in your forms for. If you don't like the said. I can said a customed

May I hear from you please? - NEW BRIDE.

using.

Inform your reckiese spender that he can make his own
toothpaste if he likes but you're going to be a mad, impetu
ous fool and blow 60c on the store-bought kind — if for m
other reason, because you like the taste.

DEAR ANN LANDERS — We are two well-behaved expect to remain so for quite some time. We believe ring the facts in advance helps a lot, so will you please as we questions for us?

(1) What is the difference between a light kiss and a h

(2) When a boy and a girl are kissing who breaks first?
(3) Does a girl thank a boy for a kiss or does the boy thank the girl?
We appreciate your help.— SANDY AND MANDY (Not on

DEAR 5 AND W — (1) A light biss is light and a heavy kiss is heavy. (2) There is no set rule about who breaks first. It is usually the one who thinks of something to say first. (3) Nobody thanks amphody. A kiss is not a giff it is a mutual expression of affection.

Confidential to LA DE DA.—The best way to impre to let him know be impressed you. He'll admire your taste and rare good judgment.

Too many starry-sped lowers do not know the difference. Do you's feed for Ann Landers bookled, "Before You Marry.— Is It love to Seat" seclating with your request. Etc. in colon and a long, self-addressed, stamped errelope.

Ann Landers will be glad to help you with your problems. Seed them to her in care of this newspaper enclosing a stamped, self-addressed encolone.

Intention.

Miss Mary Warren, Diocesan polytical convener explained a spiritual convener explained a sould Suannon, Sr., in charge spiritual program which ale of this moutil's program, cook and drawn up for each mouth decided a religious greated to the process, cook up agreed that this plan be 649 proved to be most informativa.

Pinch Hitting

Belleville, Kingston and Peterborough are the if with Napanee; Picton, Trenton and Gananoque attle for "C" honors.

During the past week, two new hockey deals have drifted way via the sport grapevine.

Dick Ellis is said to be seriously considering spon-

One possible player said this past weekend that are about 18 players, many just over juster ago, to come out for such an entry here. Experience sons have been montloged as possible coach and

The Junior "B" team here has again arranged for use games to be played on Friday nights, "prime-time" are as far as isockey is sentenced.

Unnofficial word has it that an intermediate team would k to play Sunday games with admission worked on a ster club-type punch eard, rather than tickets purchased he orde

Jack Hughes has called a meeting for interested persons and possible entries, at the Belveders Hotel on Thursday right, at eight evictor. It is and that several teams, Richy spensored by some of the same gentlemens who paid the shot in the Commercial softball league, have already lined up with the Isague.

There will be no tack of player interest for this loop according to fellows like Hughes and Dave Feeney, mers, too, are aggious to help out. The rest will be to the fran.

We don't know exactly what will happen if the In-ermediate entry and the Industrial league both go af-er Sunday evening time slots at the arena. However, such is sware of the other se some arrangement will likely be worked out.

A very few short years ago, 1,500 to 2,800 fans re a common sight at the old ice palace.

Surely there must be enough of these sport for I around to support minor, junior, intermediate strial hockey, at least to a break-even point.

Drags Neighbor To Safety From **Burning Home**

SARNIA (CP) — Alderman Harry Turnbull dragged and carried his neighbor 68-yeards Mrs. Marion Remnie to safety from her burning home Tues-day night after her bushand was overcome by smoke in a

bedroom in flames.
COULDN'T ROUSE HER
He said he could not rouse
her but dragged her to the
first-floor hallway before losing
grip on her. Mr. Turnbull said
he found Mr. Rennie, overcome
by smoke, on the lawn of their
boute.

by snoke, on the laws of their bowns, the healt of the house. Most of the front was in flames and I have the only healt of the control was a state of the world to of the first the safe of the world to of the healt of the control was a state of the control was the safe of the safe o
